## **Patterns Of Polity Varieties Of Church Governance:**

Patterns of Polity Edward Le Roy Jr. Long, Edward Leroy Long, 2001-06-30 An excellent primer on the spectrum of ways in which Christians organize their institutional life Long's study of polity that is methods of religious organization intends to enlighten the reader about the ways in which belief shapes personal and communal function Patterns of Polity is a comparative examination of church governance by bishops governance by elders and governance by congregations across contemporary branches of Christianity Patterns of Polity does not defend the validity of any particular polity but instead raises questions that are essential to all polities and to all communities How is power created and used In what ways are polities most likely to function well In what ways are polities susceptible to corruption and dysfunction How are conflicts adjudicated and finances handled *Ordination: Celebrating the Gift of Ministry*, *The Future Shapes of Anglicanism* Martyn Percy, 2017-01-06 To many people the Church of England and worldwide Anglican Communion has the aura of an institution that is dislocated and adrift Buffeted by tempestuous and stormy debates on sexuality gender authority and power to say nothing of priorities in mission and ministry and the leadership and management of the church a once confident Anglicanism appears to be anxious and vulnerable The Future Shape of Anglicanism offers a constructive and critical engagement with the currents and contours that have brought the church to this point It assesses and evaluates the forces now shaping the church and challenges them culturally critically and theologically The Future Shape of Anglicanism engages with the church of the present that is simultaneously dissenting and loyal as well as critical and constructive For all who are engaged in ecclesiological investigations and for those who study the Church of England and the wider Anglican Communion this book offers new maps and charts for the present and future It is an essential companion and guide to some of the movements and forces that are currently shaping the church **AoG Leadership and Culture** William Foster, 2024-02-12 The growth of Global Pentecostalism in the past century has been studied and documented from many perspectives Its leadership culture and ecclesiology however has received scant academic and theological attention This book based on an extensive research study of the Assemblies of God of Great Britain AoG could not be more timely conducted as AoG entered its centenary decade and faced the challenges that its historic culture and leadership dynamics posed The leadership struggles discussed in this book will resonate with any denomination that has grown or wrestled with polity leadership and culture *Re-visioning the Church* Neil Ormerod, 2014 According to longstanding tradition theology can be thought of as faith seeking understanding Ecclesiology then seeks to understand the theological reality we call church Re Visioning the Church the outcome of nearly two decades of research and writing towards constructing a systematic historical ecclesiology applies a social scientific and historical outlook to the story of the emergence development and ongoing mission and ministry of the church Establishing a critical framework for understanding the structures of the church the work is a wide scale exploration of the religious cultural and social dimensions of what it means to be the church and what structures and ministries form the fundamental

parts of ecclesial life in its relationship to the kingdom The heart of the project is a detailed account of the history development and change across the centuries of the church that takes the story from the apostolic band of witnesses to the dramatic global event of the Second Vatican Council      [Encyclopedia of Protestantism](#) Hans J. *Megachurches in Africa* Babatunde A. Adedibu, Felicity Apaah, Okelloh Ogera, Benson O. Igboin, 2024-10-04 The idea of megachurch is pivotal to the nature characteristics and vision of megachurches as a social divine structure grounded on the belief in grand mega God whose omnipotence is revealed encountered and dramatised in space and place Although the concept of megachurch has been discursively and theoretically problematic sprouting and scouting for a big idea grasping that is in itself elusive the book takes a pragmatic detour to engage and nuance and also beat into manageable shape what can readily be construed as megachurch at least in Africa It argues that megachurch is not only related to from the prism of its exponentality and grandiosity a feature that is pervasive in its conceptualisation but it is also much more inserted into a socio cultural political and religious context that is at once empirical and relatable responsible and responsive daring and appealing local and transnational spiritual and mundane controversial and soothing The institutionalisation of megachurch legitimises its existence radar and reach in terms of social mobilisation charismatics and incarnationality Central to the praxis of megachurches is digital turn that zooms out the Mega Mega powers and affluence of mega pastors mega narratives mega miracles and mega messes All of this is sited and situated most profoundly within the mega failure of state to be responsible and account for mega wealth that African political rulers vanquished into their private lounges The megachurch

and state relations might appear complexified and mutually beneficial the knack with which some Africa s megachurches pastors churches churches dribble and meander through this midfield constantly calls to mind the Megachurches

The Philosophy of Christology Hue Woodson, 2022-01-31 Given the perpetual problem of the historical Jesus there remains an ongoing posing of the question to and a continuous seeking of the meaningfulness of Christology From the earliest reckoning with the relationship between Jesus of Nazareth and the Christ of faith what it means to do Christology today remains at the methodological center of the task and scope of every systematic theology Whether giving an account of Albert Schweitzer's bringing an end to the quest for the historical Jesus in 1906 or attending to Rudolf Bultmann's period of no quest culminating with his demythologization project in the 1940s how we still think of Christology as a matter of questions and concerns with meaning speaks to an unavoidable philosophizing of Christology In this way The Philosophy of Christology offers both a particular history of Christology in conjunction with a particular philosophy of Christology which assesses the theological contributions by a group of Bultmannians following Bultmann in the 1950s and 1960s up to what can be reimagined by repurposing Jacques Derrida's philosophical question into the meaning of love in 2002      *Reconciling Theology* Paul Avis, 2022-03-31 In *Reconciling Theology* leading thinker on Anglicanism and ecumenism Paul Avis focuses on the perennial Christian issues of argument debate polemic and conflict on the one hand and dialogue search for common ground working for agreement and harmony on the other Exploring the tension and interaction between them in a range of contexts in modern theology and the Church Avis offers a rigorous but accessible vision of church which moves beyond the usual dichotomy of liberal or orthodox
