### **Patterns Of Dissonance Study Of Women And Contemporary Philosophy:**

*Patterns of Dissonance* Rosi Braidotti, 2013-05-28 This book is a brilliant and timely analysis of the complex issues raised by the relation between women and philosophy. It offers a critical account of a wide range of contemporary philosophical and feminist texts and it develops this account into an original project of critical feminist thought. Braidotti examines contemporary French philosophy as practised by men such as Foucault and Derrida showing that they rely on a notion of the feminine in order to undermine classical thought which bears no direct relevance to the historical experience of women. Braidotti then looks at the attempts of contemporary feminist thinkers in Europe and the United States to show the gendered nature of discursive power games. She discusses the contributions of Luce Irigaray and many other feminist theorists to the understanding of sexual difference and of its implications for philosophy and politics. This book will be of interest to students and researchers in women's studies, feminist theory, social theory, cultural studies, philosophy and literature and anyone interested in contemporary feminism and the relation between feminist theory, post structuralism and psychoanalysis.

**Women's Intercultural Performance** Julie Holledge, Joanne Tompkins, 2002-01-04 This is the first in depth examination of contemporary intercultural performance by women around the world. Contemporary feminist performance is explored in the contexts of current intercultural practices, theories and debates. Holledge and Tompkins provide ways of thinking about and analysing contemporary performance and representations of the performing female culturally marked body. The book includes discussions of ritual performance by women from Central Australia and Korea, the cultural exchange of *A Doll's House* and *Antigone* plays from Algeria, South Africa and Ghana, the work of the Takarazuka revue company, the market forces that govern the distribution of women and women's performance. This is an essential read for anyone studying or interested in women's performance.

*Women, Pleasure and the Gambling Experience* Emma Casey,2016-02-17 Drawing on a broad range of historical and sociological literature this book traces the everyday gambling experiences of a diverse group of women It provides fascinating and original insights into the pleasures afforded to women through their gambling participation and draws on a variety of feminist literature to understand women s motivations and experience of play and to examine the ways in which women negotiate their right to gamble without reprimand Since gambling tends to be framed within moral discourses of danger and excess this book offers a defence of women s decisions to gamble against an often hostile backdrop It rewrites claims that gambling is meaningless and reckless spending by pointing instead to the highly complex strategies that women who gamble employ Importantly it adds to contemporary feminist debates about women s leisure by showing how women seize control of their lives in order to carve out a time and space for the pursuit of pleasure

**Subversive Women** Saskia Wieringa,1995-09-04 This anthology of

feminist writing demonstrates the complexity and diversity of women's movements worldwide. The book opens with an analysis of women's history as subversion and the methodological aspects of feminist research projects. Individual contributors look at the experience of their own countries and explore feminism as it is defined in the North and the South.

**Bits of Life** Anneke M. Smelik, Nina Lykke, 2010-07-01 Since World War II the biological and technological have been fusing and merging in new ways resulting in the loss of a clear distinction between the two. This entanglement of biology with technology isn't new but the pervasiveness of that integration is staggering as is the speed at which the two have been merging in recent decades. As this process permeates more of everyday life the urgent necessity arises to rethink both biology and technology. Indeed the human body can no longer be regarded either as a bounded entity or as a naturally given and distinct part of an unquestioned whole. *Bits of Life* assumes a posthuman definition of the body. It is grounded in questions about today's biocultures which pertain neither to humanist bodily integrity nor to the anthropological assumption that human bodies are the only ones that matter. Editors Anneke Smelik and Nina Lykke aid in mapping changes and transformations and in striking a middle road between the metaphor and the material. In exploring current reconfigurations of bodies and embodied subjects the contributors pursue a technophilic yet critical path while articulating new and thoroughly appraised ethical standards.

**Making the Personal Political** Jane Fenoulhet, 2017-12-02 *Making the Personal Political* is an interdisciplinary account of a now forgotten success story in the history of the society and culture of the Netherlands. While Dutch women had apparently retreated into domesticity after gaining the vote in 1919, women writers were out there in the market place selling the inside story of women's lives. Eight case studies of women writers between 1919 and 1970 trace the unconscious politics of the personal in narratives of women's identity and experience through close readings of texts located in the culture of the time. Jane Fenoulhet whose knowledge of Dutch literature and culture in the twentieth century is unparalleled in the English speaking world tracks the public representation of women's private project of self development to the moment when the personal is finally accepted as politically important in Dutch society.

**Feminism & Geography** Gillian Rose, 1993 Geography is a subject that throughout its history has been dominated by men. Men have undertaken the heroic explorations that form the mythology of its foundation; men have written most of its texts and as many feminist geographers have remarked men's interests have structured what counts as legitimate geographical knowledge. This book offers a sustained examination of the masculinism of contemporary geographical discourses. Drawing on the work of feminist theories about the intersection of power, knowledge and subjectivity, Rose discusses different aspects of the discipline's masculinism in a series of essays that bring influential approaches in recent geography together with feminist accounts of the space of the everyday, the notion of a sense of place and views of landscape. In the final chapter she examines the spatial imagery of a variety of feminists in order to argue that the geographical imagination implicit in feminist discussions of the politics of location is one example of a geography that does not deny

*Resentment and the Feminine in Nietzsche's Politico-Aesthetics* Caroline Joan S. Picart, 2010-11-01 Nietzsche s remarks about women and femininity have generated a great deal of debate among philosophers some seeing them as ineradicably misogynist others interpreting them more favorably as ironic and potentially useful for modern feminism In this study Kay Picart uses a genealogical approach to track the way Nietzsche s initial use of feminine mythological figures as symbols for modernity s regenerative powers gradually gives way to an increasingly misogynistic

politics resulting in the silencing and emasculation of his earlier configurations of the feminine While other scholars have focused on classifying the degree of offensiveness of Nietzsche's ambivalent and developing misogyny Picart examines what this misogyny means for his political philosophy as a whole Picart successfully shows how Nietzsche's increasingly derogatory treatment of the feminine in his post Zarathustran works is closely tied to his growing resentment over his inability to revive a decadent modernity
