Paul Lafargue And The Founding Of French Marxism 1842 188:

Paul Lafargue and the Founding of French Marxism, 1842-1882 Leslie Derfler, 1991 Paul Lafargue disciple and son in law of Karl Marx was among the most important persons giving organized political expression to Marxism in France He helped found both the first French collectivist party and the first French Marxist party He was the first Marxist to sit in the French legislature and for three decades served as the chief theoretician and propagandist for Marxism in France With his wife Laura he translated the Communist Manifesto and other works introducing and applying Marxist thought in France Demonstrating an almost seamless web between intellectual and family history Leslie Derfler relates ideas and family identity in this account of the first forty years of Paul Lafargue s life Lafargue like his famous father in law called for ideological purity and demanded total hostility to anarchists and reformists He insisted on economic determinism the primacy of the concept of the class struggle and the theory of surplus value But he made his own contributions as well particularly in his insistence on rejecting the domination of bourgeois values Lafargue s most famous pamphlet *The Right To Be Lazy* showed the advantages that labor could derive by rejecting the bourgeois work ethic An intellectual of power he pioneered in the application of Marxist methods of analysis to questions of anthropology aesthetics and literary criticism Born in Cuba of mixed racial descent Lafargue joined in demonstrations as a medical student in Paris in the 1860s and was forced into exile Resuming his studies in London he became a fixture in the Marx household until he married Laura Marx and moved to Paris There he worked to expand the influence of the International Workingmen s Association but fled to Spain following the general repression after the fall of the Paris Commune He continued his efforts on behalf of Marxism in Spain and then for ten years in London before returning to France where he helped to found the new Marxist Parti Ouvrier Fran ais in 1882

Intellectual Founders of the Republic Sudhir Hazareesingh, 2001-11-01 This innovative study of French political culture re examines the origins of modern republicanism through the lives and political thought of five nineteenth century intellectuals Jules Barni Charles Dupont White Emile Littr Eug ne Pelletan and Etienne Vacherot By their writings and their political practices at the local national international levels these thinkers made major contributions to the founding of the new republican order in France Drawing on a range of archival and published sources the book sheds new light on classical republican thinking on such key issues as the interpretation of the 1789 Revolution the definition of citizenship the meaning of patriotism the relationship between central government and local democracy the value of individual liberty and the place of education and religion in publica and private life These five studies also break new ground in the conceptualization of nineteenth century French intellectual history The writings of these thinkers demonstrate the ideological pluralism and diversity of moderate French republican thought during this period Positivism appears as an important and influential doctrine but its hegemonic aspirations were successfully resisted by the abiding influences of Saint Simonism socialism doctrinaire liberalism and neo Kantianism It emerges that the ideological potency of republican doctrine lay in its complexity

and sophistication as reflected in its capacity to effect a synthesis among these different approaches Through its analysis of the writings and political practices of these five thinkers Intellectual Founders of the Republic offers critical insights into the history of political thought as well as modern French republicanism It underlines both the significance of contextuality in the interpretation of political discourse and the continuing relevance of classical republicanism in making sense of contemporary moral and political dilemmas

Paul Lafargue and the Flowering of French Socialism, 1882-1911 Leslie DERFLER,Leslie Derfler,2009-06-30 Paul Lafargue the disciple and son in law of Karl Marx helped to found the first French Marxist party in 1882 Over the next three decades he served as the chief theoretician and propagandist for Marxism in France During these years which ended with the dramatic suicides of Lafargue and his wife French socialism and the Marxist party within it became a significant political force In an earlier volume Paul Lafargue and the Founding of French Marxism 1842 1882 Leslie Derfler emphasized family identity and the origin of French Marxism Here he explores Lafargue s political strategies specifically his break with party co founder Jules Guesde in the Boulanger and Dreyfus episodes and over the question of socialist syndicalist relations Derfler shows Lafargue s importance as both political activist and theorist He describes Lafargue s role in the formulation of such strategies as the promotion of a Second Workingmen s International the pursuit of reform within the framework of the existent state but opposition to any socialist participation in nonsocialist governments and the subordination of trade unionism to political action He emphasizes Lafargue s pioneering efforts to apply Marxist methods of analysis to questions of anthropology aesthetics and literary criticism Despite the crucial part they played in the social and political changes of the past century and the heritage they left the first French Marxists are not widely known especially in the English speaking world This important critical biography of Lafargue the most audacious of their much maligned theorists enables us to trace the options open to Marxist socialism as well as its development during a critical period of transition

Nothing Happened Darcy Buerkle,2013-12-13 Charlotte Salomon s 1917 43 fantastical autobiography Life or Theater consists of 769 sequenced gouache paintings through which the artist imagined the circumstances of the eight suicides in her family all but one of them women But Salomon s focus on suicide was not merely a familial idiosyncrasy Nothing Happened argues that the social history of early twentieth century Germany has elided an important cultural and social phenomenon by not including the story of German Jewish women and suicide This absence in social history mirrors an even larger gap in the intellectual history of deeply gendered suicide studies that have reproduced the notion of women s suicide as a rarity in history Nothing Happened is a historiographic intervention that

operates in conversation and in tension with contemporary theory about trauma and the reconstruction of emotion in history
