At last, I finally understand the alphabet. I also love this book's secret Beatles knowledge from one of the closest insiders, Steve Martin. Peter Asher met the Beatles in the spring of 1963, the start of a lifelong association with the band and its members. He had a front-row seat as they elevated pop music into an art form, and he was present at the creation of some of the most iconic music of our times. Asher is also a talented musician in his own right with a great ear for what was new and fresh. He was asked by Paul McCartney to help start Apple Records, the first artist Asher discovered and signed up was a young American singer-songwriter named James Taylor. Before long, he would be not only managing and producing Taylor but also working with Linda Ronstadt, Neil Diamond, Robin Williams, Joni Mitchell, and Cher among others. *The Beatles from A to Z* grows out of his popular radio program *From Me to You* on SiriusXM's The Beatles Channel, where he shares memories and insights about the Fab Four and their music. Here, he weaves his reflections into a whimsical alphabetical journey that focuses not only on songs whose titles start with each letter but also on recurrent themes in the Beatles' music.
