MAC, galeries contemporaines, 1995 *The Wonderful World That Almost Was* Andrew Durbin, 2026-04-14 The cinematic never before told story of two intimately entangled artists who redefined queer art When Paul Thek met Peter Hujar in the winter of 1956 in Coral Gables Florida a slow simmering connection began to burn Thek twenty three and living in Miami was handsome and itching to make it as a painter in the twenty two year old Hujar a shy sensual photographer he d found a kindred spirit By 1960 they were dating and living in New York beginning decades of sex love competition and reconciliation an entanglement that changed American art forever Surrounded by a robust creative scene populated by Susan Sontag Andy Warhol Fran Lebowitz John Waters and David Wojnarowicz Thek and Hujar s profoundly influential careers from the early 1960s through the late 1980s differed as much as the men themselves The unpredictable and often overlooked Thek crafted visceral installations and sculptures while Hujar celebrated and sociable took penetrating portraits of his world queer and otherwise Yet even at their most estranged and even after their deaths from AIDS both men were united by a pursuit of liberation from artistic and sexual limits from anything short of changing the world Andrew Durbin s *The Wonderful World That Almost Was* unravels for the first time the intertwined stories and work of two boundaryburning paradigm tilting never more relevant American artists Weaving together deft art criticism with moving portraits of both men s inner lives and assembled with exhaustive research Durbin s book is an ode to a lost but still living world and two men who defined it **In the Archive of Longing** Mena Mitrano, 2016-07-07 Reads modernism and theory through Susan Sontag s archive This adventurous critical inquiry into Sontag s archive illuminates the intimate link between modernism and theory while also providing a fascinating reintroduction to these two movements and concepts Mena Mitrano explores three core ideas in this study the confusion of terms between modernism and theory the concept of an unwritten theory suggested by Sontag s subterranean engagement with the foremost theorists of our time Derrida Foucault Deleuze Lacan Jameson and others in the rawness of her journals and notebooks and Sontag s identity as a non traditional philosopher through the extraordinary discipleship to Walter Benjamin The book is driven by new archival research and will have a multi layered impact changing our perception of Sontag as a post Cold War public intellectual as well as interrogating key concepts in the Humanities Key Features Original study of Susan Sontag s contribution to the development of critical thought Opens new avenues for research in the expanding field of new modernist studies and in the field of criticism Discusses Sontag s collaboration with Walter Benjamin which reopens the question of the author and encourages an understanding of this concept from a psychoanalytic perspective as a transgenerational phenomenon Includes a discussion of the role of the American avant garde in Sontag s abandonment of philosophy and in her turn to a pioneering

more theoretical literary criticism *American Artists in Postwar Rome* Peter Benson Miller, 2025-01-09 Drawing on unpublished archival sources this book reconstitutes the experiences of a wide range of American artists critics and writers working in Rome in a charged environment of Cold War cosmopolitanism After the Second World War American artists flocked to Rome in record numbers even as the United States shored up Italy as a bulwark against the spread of Communism While the market for modern art in Rome was less vigorous as those in Paris and New York numerous galleries artist run spaces and other institutions acted as important catalysts making Rome an international artistic hub The city attracted now canonical figures Lee Bontecou Philip Guston Robert Rauschenberg Paul Thek and Cy Twombly along with less well known artists such as Eugene Berman Gene Charlton Carlyle Brown Peter Chinni William Congdon Claire Falkenstein Marcia Hafif John Heliker James Leong Beverly Pepper and Laura Ziegler among many others Rather than focusing on institutions and diplomatic relationships the book centres the experience of artists and also addresses Rome's gay subculture and the role of female artists during the period eschewing traditional narratives of the male cultural ambassador Through case study based investigation Peter Benson Miller explores the reciprocal relationships between American modernist artists and Italian artists in postwar Rome and reveals how these artists perceived Rome as less constrained by the demands of a national school and as an alternative to New York This congenial creative atmosphere yielded new pictorial forms developed in tandem with or absorbed from like minded Italian artists engaging the city and its multiple layers of history from antiquity to the profound trauma inflicted by the recent conflict The book also establishes the entangled social networks galleries exhibitions and institutions sustaining their work and providing entrance into local artistic circles Focusing on a series of specific exchanges this study contributes to our understanding American modernism in an international context **WONDERFUL WORLD**

THAT ALMOST WAS ANDREW. DURBIN, 2026 **Sculpture and the Vitrine** JohnC. Welchman, 2017-07-05 Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton's Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others Sculpture and the Vitrine also raises key questions about

the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering *Modern Sculpture* Douglas Dreishpoon, 2022-10-25 Artists of any ilk can be extremely opinionated when it comes to what they do how they do it and what it might mean Sculptors are no exception *Modern Sculpture Artists in Their Own Words* presents a selection of manifestos documents statements articles and interviews from more than ninety subjects including an ample selection of contemporary sculptors With this book editor Douglas Dreishpoon defers to sculptors whose varied points of view illuminate the medium's perpetual transformation from object to action concept to phenomenon over the course of two centuries Each chapter progresses in chronological sequence to highlight the dominant stylistic philosophical and thematic threads that unite each kindred group The result is a distinctive artist centric history and survey of sculpture that showcases the expansive dimensions and malleability of the medium *Paul Thek*, 1995 *Susan Sontag* Carl Rollyson, Lisa Paddock, 2016-08-25 This first biography of Susan Sontag 1933 2004 is now fully revised and updated providing an even more intimate portrayal of the influential writer's life and career The authors base this revision on Sontag's newly released private correspondence including emails and the letters and memoirs of those who knew her best The authors reveal as never before her early years in Tucson and Los Angeles her conflicted relationship with her mother her longing for her absent father and her precocious achievements at the University of California Berkeley and the University of Chicago Papers diaries and lecture notes many accessible for the first time spark a passionate fire in this biography The authors follow Sontag as she abruptly ends an early first marriage establishes herself in Paris and embraces the open lifestyle she began as a teenager in Berkeley As a single mother she struggled with teaching at Columbia University and other colleges while aiming for a career as a novelist and essayist Eventually she made her own way in New York City after acquiring her one and only publisher Farrar Straus Giroux In her later years Sontag became a world figure a tastemaker dramatist and political activist who risked her life in besieged Sarajevo Love affairs with men and women troubled her Diagnosed with cancer she responded with determination and her experience with illness inspired some of her best writing This biography shows Sontag always craving more life at whatever cost and depicts her harrowing final decline even as she resisted terminal cancer *Susan Sontag The Making of an Icon Revised and Updated* presents in candid and stark relief a new assessment of a heroic and controversial figure **Republics and empires** Melissa Dabakis, Paul H. D. Kaplan, 2021-08-17 *Republics and empires* provides transnational perspectives on the significance of Italy to American art and visual culture and the impact of the United States on Italian art and popular culture Covering the period from the Risorgimento to the Cold War it reveals the complexity of the visual discourses that bound two relatively new nations together It also gives substantial attention to literary and critical texts that addressed the evolving cultural relationship between Italy and the United States While American art history has tended to privilege French British and German ties these chapters highlight a rich body of

contemporary research by Italian and American scholars that moves beyond a discussion of influence as a one way directive towards a deeper understanding of cultural transactions that profoundly affected the artistic expression of both nations

Life on Mars Douglas Fogle, 2008 Catalog of an exhibition held May 3 2008 Jan 11 2009

Since '45 Katy Siegel, 2013-06-01 *Since 45* details the collision of American history and modern art Since World War II New York has been the indisputable center of the art world and as Katy Siegel shows it has had a profound influence on the preoccupations that contemporary art would come to have Tracing art history over the past decades she shows how anxieties over race mass culture the individual suburbia apocalypse and nuclear destruction have supplanted the legacy of European artistic traditions Siegel's study encompasses a variety of works including Rothko's planes of color Warhol's serial silkscreens Richard Prince's cowboys Robert Longo's *Men in Cities* Faith Ringgold's *Black Light* and Laurie Simmons's dollhouses and moves fluidly from discussions of artists' works art museums and galleries to cultural influences and significant historical events Rather than arguing on nationalist grounds or viewing American culture as representative of a now devalued nation Siegel explores how American culture dominated not only American artists but created conditions that now after the full globalization of the art world affect artists around the world *Since 45* will interest all readers engaged in post war and contemporary art in the United States and beyond

Painting at the Edge of the World Douglas Fogle, Walker Art Center, 2001 What becomes clear is that painting's traditional function as a window on the world has been circumvented or rather that someone has left the window open and a number of things have crawled in As Yve Alain Bois so eloquently paraphrases Robert Musil If some painting is still to come if painters are still to come they will not come from where we expect them to *Painting at the Edge of the World* looks beyond our expectations and provides a broad context for understanding painterly practice today
