These texts offer a fascinating insight into the work of one of the twentieth century's most important literary theorists. The volume engages with Paul de Man's institutional life, gathering together pedagogical and critical material to investigate his profound influence on the American academy and theory today. It also contains a number of substantial previously unpublished and untranslated texts by de Man from the span of his writing career. As a new collection of primary sources, this volume further stimulates the growing reappraisal of de Man's work. Paul de Man Martin McQuillan, 2001-01-25 Paul de Man's work is key to the American deconstruction movement and to the so-called political turn in critical theory. Seventeen years after his death, his works continue to arouse violent reactions among critics. This book explains why de Man is such an important voice, detailing his critical position, exploring his intellectual and historical contexts, tracing the influence of his work, and enabling readers to undertake independent study of his criticism. Paul de Man (Routledge Revivals) Christopher Norris, 2009-12-10 Paul de Man, literary critic, literary philosopher, American deconstructionist, changed the landscape of criticism through his rigorous theories and writings. Upon its original publication in 1988, Christopher Norris's book was the first full-length introduction to de Man, a reading that offers a much-needed corrective to the pattern of extreme antithetical response which marked the initial reception to de Man's writings. Norris addresses de Man's relationship to philosophical thinking in the post-Kantian tradition, his concern with aesthetic ideology as a potent force of mystification within and beyond that tradition, and the vexed issue of de Man's politics. Norris brings out the marked shift of allegiance in de Man's thinking from the thinly veiled conservative implications of the early essays to the engagement with Marx and Foucault on matters of language and politics in the late posthumous writing. At each stage, Norris raises these questions through a detailed close reading of individual texts, which will be welcomed by those who lack any specialised knowledge of de Man's work.

Figures of Failure Jan Rosiek, 1992 *Figures of Failure: Paul de Man's Literary Criticism, 1953-1970* Paul de Man Martin McQuillan, 2001 Paul de Man's work is key to the American deconstruction movement and to the so-called political turn in critical theory. Over thirty years after his death in 1983, Paul de Man, a hugely charismatic intellectual who created with deconstruction an ideology so pervasive that it threatened to topple the very foundations of literature, remains a haunting and still largely unexamined figure. Deeply influential, de Man and his theory-driven philosophy were so dominant that his passing received front-page coverage, suggesting that a cult hero, if not intellectual rock star, had met an untimely end. Yet in 1988, de Man's reputation was ruined when it was discovered that he had written an anti-Semitic article and worked for a collaborating Belgian newspaper during World War II. Who was he really, and who had he been? No one

knew Still in shock few of his followers wanted to find out Once an admirer although never a theorist the biographer Evelyn Barish began her own investigation Relying on years of original archival work and interviews with over two hundred of de Man s circle of friends and family most of them now dead Barish vividly re creates this collaborationist world of occupied Belgian and France Born in 1919 to a rich but tragically unstable family Paul de Man a golden boy was influenced by his uncle Henri de Man a socialist turned Nazi collaborator who became the de facto Belgian prime minister By the early 1940s Paul while seemingly only a reviewer for Nazi newspapers was secretly rising in far more important jobs in Belgium s and France s collaborationist regimes Postwar barred from the university de Man created a publishing house but stole all its assets then facing jail he fled to New York abandoning his family his opportunistic anti Semitic writing seemed the least of his crimes Arriving penniless he quickly rose again befriending an entire generation of American writers in New York including Dwight Macdonald Elizabeth Hardwick and Mary McCarthy Barish sketches de Man s renowned careers at Bard and Yale as well as the circumstances surrounding his loving but bigamous second marriage to former Bard student Patricia Kelley who created the tranquillity he so lacked Juxtaposing this personal story to his meteoric rise through American academia Barish traces the origins of the philosophical deconstructionism that he later created with Jacques Derrida showing how de Man attracted followers with his attack on the hypocrisy of society that attempts to cover up the essential alienation of art from the system While focusing on the biographical facts this commanding and psychologically probing biography reveals as much about human behavior and the cross currents of twentieth century intellectual thought as it does about the man who held an entire generation in his thrall
