Paul Valéry's Album des Vers Anciens Suzanne Nash, 2014-07-14 Questioning the view that the work is not representative of the poet's mature accomplishment Suzanne Nash argues that the revisionary process involved in its creation led Valéry to reflect on problems fundamental to poetic production and thus provided inspiration for all his later poetry Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Anchor Anthology of French Poetry** Angel

Flores, 2000-04-18 First published in 1958 this collection introduced an indispensable corpus of western poetry to countless American students Francophiles and would be poets among them Patti Smith whose Introduction to this edition testifies to its epochal impact on her own career The poetic and cultural tradition forged by the symbolist poets featured herein Baudelaire Rimbaud Verlaine Apollinaire and others reverberated throughout the avant garde and countercultures of the twentieth century Surrealism modernism abstract impressionism and the Beat movement all find their roots in the examples of these poets and their theories of art With translations by Richmond Lattimore W S Merwin Richard Wilbur and Louise Varese this rediscovered gem is sure to inspire a new generation **Inventing Leonardo** A. Richard Turner, 1994-10-06 As he

examines the changing views of Leonardo since the sixteenth century A Richard Turner both gives the reader a cultural history in brief of western Europe during this period and provides a context for examining Leonardo's relevance to our own ways of perceiving and interpreting the world Encyclopedia of Modern French Thought Christopher John Murray, 2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more Encyclopedia of the Essay Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings

The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman's study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Valéry poem *Le Cimetière marin* and the classic qualities it shares with Pindar's third Pythian ode from which Valéry derives the epigraph for his poem

Leonardo da Vinci: The Daedalian Mythmaker , This study is the first to consider the whole body of Leonardo's works with an eye to a comprehensive interpretation that combines both cultural history and the history of ideas According to Maiorino Leonardo's was a mythmaking mode of activity that had a Daedalian range and affected art and technology alike As both artist and inventor Leonardo did not separate reason from experience empiricism from abstraction an attitude Maiorino characterizes as Anti Humanism Rather than accepting the earlier view that the culture of the Renaissance was divided against itself or that it came to be divided he argues that anti Humanism was present from the start in such founders as Petrarch and Alberti and continued to be a current in later authors and artists hence the significance of Leonardo to Humanism and to Baroque and Renaissance culture at large Civilization Régis

Debray, 2019-03-05 Civilisation a hard term to define But while every society has a distinctive culture authentic civilisations must offer those they subjugate an attractive way of life Their imprint outlasts their imperium A century ago Debray argues there was a European civilisation of which America was an outlying culture but today the relationship is reversed In 1900 an American of taste was a European in exile in 2000 a trendy European is a frustrated American or one waiting for a visa

Characteristic of American civilization is its three overarching fetishes space image and happiness America is a civilization of space and image whereas Europe was one of time and writing And its kitsch infantilism blinds itself to the tragic complexities of human life A measure of America s success is how its globish jargon has so successfully infiltrated European languages For Debray the dominance of American civilisation is a historical fait accompli yet he sees a model for Europe in Vienna after its exclusion from the German Reich For decades to come Europe can still offer a rich cultural seedbed Some will call it decadence others liberation Why not both Fauré and French Musical Aesthetics Carlo Caballero,2004-03-11 A wide ranging study of Faur and his contemporaries **A History of Modern Criticism, 1750-1950** René Wellek,1955-01-01 The final volume of Ren Wellek s monumental history of modern criticism is a comprehensive survey of the main currents of twentieth century criticism in Western Europe In this volume as in the preceding books of the series Wellek expounds and analyzes the work of the most prominent critics offering succinct appraisals of his subjects both as individuals and as participants in the broader movements of the century Contents I French Criticism 1900 1950 French Classical Criticism in the Twentieth Century Retrospect Alain R my de Gourmont The Nouvelle Revue Fran aise Andr Gide Jacques Rivi re Ram n Fern ndez Benjamin Cr miuex Albert Thibaudet Marcel Proust The Catholic Renaissance Charles Du Bos Jacques Maritain and Henri Bremond Paul Claudel Dada and Surrealism The Geneva School Marcel Raymond Albert B guin Georges Poulet Albert Camus Jean Paul Sartre Paul Val ry Prospect II Italian Criticism 1900 1950 Benedetto Croce The Followers of Croce Luigi Russo Francesco Flora Mario Fubini Attilio Momigliano The Aestheticians Giuseppe Antonio Borgese Alfredo Gargiulo Critics concerned with English and American literature Cesare Pavese Mario Praz Emilio Cecchi Italian Marxism Antonio Gramsci Giacomo Debenedetti The Catholic Renaissance Carlo Bo The Close Readers Renato Serra Giuseppe De Robertis Cesare De Lollis Eugenio Montale III Spanish Criticism 1900 1950 Am rico Castro Miguel de Unamuno Marcelino Men ndez y Pelayo and Ram n Men ndez Pidal Azor n Salvador de Madariaga Jorge Guill n D maso Alonso Jos Ortega y Gasset

Researching the Song Shirlee Emmons,Wilbur Watkins Lewis Jr.,2006-01-19 Singers are faced with a unique challenge among musicians they must express not just the music but the lyrics too To effectively communicate the meaning behind these words singers must understand the many references embedded in the vast international repertoire of great art songs They must deal with the meaning of the lyrics frequently in a language not their own and of a culture unfamiliar to them From Zelter and Schubert to Rorem and Musto Researching the Song serves as an invaluable guide for performers teachers and enthusiasts to the art song repertoire Its more than 2 000 carefully researched entries supply information on most of the mythological historical geographical and literary references contained in western art song The authors explain the meaning of less familiar literary terms figures and authors referenced in song while placing songs in the context of larger literary sources Readers will find entries dealing with art songs from the German French Italian Russian Spanish South American Greek Finnish Scandinavian and both American and British English repertoires Sources narratives and explanations of major

song cycles are also given. Organized alphabetically, the lexicon includes brief biographies of poets, lists of composers who set each poet's work, bibliographic materials, and brief synopses of major works from which song texts were taken, including the plots of all Restoration theater works containing Purcell's vocal music. The more performers know and understand the literary elements of a song, the richer their communication will be. *Researching the Song* is a vital aid for singers and teachers in interpreting art songs and building song recital programs. *The International Cyclopedia of Music and Musicians* Oscar Thompson, 1975
