

The Christian philosopher has a perfect right to the point of view and prephilosophical assumptions he brings to philosophic work; the fact that these are not widely shared outside the Christian or theistic community is interesting but fundamentally irrelevant.

Alan Watts

Philosophy From A Theistic Point Of View

R.W. Perrett

Philosophy From A Theistic Point Of View:

Idealism and Christian Philosophy Steven B. Cowan, 2017-08-24 When it comes to contemporary philosophical problems metaphysical idealism or Berkeleyan immaterialism is not taken seriously by most philosophers not to mention the typical Christian layperson This state of affairs deserves some attempt at rectification since Idealism has considerable explanatory power as a metaphysical thesis and provides numerous practical and theoretical benefits Such thinkers as George Berkeley and Jonathan Edwards believed that Idealism is especially amenable to a Christian perspective both because it provides a plausible way of conceptualizing the world from a theistic standpoint and because it effectively addresses skeptical challenges to the Christian faith The contributors to this volume explore a variety of ways in which the case can be made for this claim including potential solutions to philosophical problems related to the nature of time the ontology of physical objects the mind body problem and the nature of science

Rudolf Otto and the Foundation of the History of Religions Yoshitsugu Sawai, 2022-02-10 This book provides an up to date treatment of Rudolf Otto and his work placing him in the context of comparative religion theology and the philosophy of religion Yoshitsugu Sawai shows how Otto has three faces the Lutheran Theologian the Philosopher of Religion and the Comparative Religionist The book also shows how of these Otto saw himself primarily as a Lutheran Theologian and provides an account of Otto s engagement with India and the centrality that Hindu theology had on his thinking In Otto s theory of religion his well known concepts including wholly other and numinous constitute a multiple structure of meaning For example his concept of the wholly other das ganz Andere no doubt has the meaning of God in his Christian theological studies At the same time however from the perspective of comparative religion or the phenomenology of religion this same term semantically implies the ultimate reality of other religious traditions Brahman and God Isvara in Hindu religious tradition as well as God in Christianity

Philosophy Paul Herrick, 1996 This book introduces and explores possible answers to the philosophical questions of about the existence of God the soul and the nature of morality

Nature and Scripture in the Abrahamic Religions: God, Scripture and the rise of modern science (1200-1700) Jitse M. van der Meer, Scott Mandelbrote, 2008 These volumes describe how the development of the different styles of interpretation found in reading scripture and nature have transformed ideas of both the written word and the created world

Gnomes in the Fog Dennis E. Hesselning, 2012-12-06 The significance of foundational debate in mathematics that took place in the 1920s seems to have been recognized only in circles of mathematicians and philosophers A period in the history of mathematics when mathematics and philosophy usually so far away from each other seemed to meet The foundational debate is presented with all its brilliant contributions and its shortcomings its new ideas and its misunderstandings

God's Action in the World Marek Slomka, 2021-04-22 The problem of God s action in the world is at the heart of debates today on the relationship between science and religion By analysing the issue through the lens of analytic philosophy Marek Slomka reveals how philosophy can successfully bridge science and theology to bring

greater clarity to divine action This book identifies essential aspects from various branches of theism starting with traditional Thomistic approaches through to their modified forms such as Molinism and contemporary varieties such as free will theism and probabilistic theism Analysing crucial elements of God's nature including omnipotence omniscience his relation to time and the tension between immanence and transcendence Slomka reveals the difficulties in proposing a single conception of God through one theistic tradition Instead of simplistically juxtaposing particular theistic trends he highlights the value of pluralistic insights that also draw on important scientific theories including Darwin's evolution quantum mechanics and cosmology By taking a renewed stance on theism that takes into account modern scientific knowledge Slomka argues for a new presentation of the problem of God's action in the world *Christian Philosophy* Craig G. Bartholomew, Michael W. Goheen, 2013-10-15 This third book in a series of successful introductory textbooks by Craig Bartholomew and Michael Goheen builds on their previous projects *The Drama of Scripture* and *Living at the Crossroads* to offer a comprehensive narrative of philosophical thought from a distinctly Christian perspective After exploring the interaction among Scripture worldview theology and philosophy the authors tell the story of philosophy from ancient Greece through postmodern times positioning the philosophers in their historical contexts and providing Christian critique along the way The authors emphasize the Reformed philosophical tradition without neglecting other historical trajectories and show how philosophical thought relates to contemporary life **The Princeton Theological Review**, 1910 **Man: Whence and How?** Charles Bradlaugh, 1906 *Ottawa University Quarterly Bulletin* Ottawa University (Kan.), 1914 **Research in the Social Scientific Study of Religion, Volume 23**, 2012-05-23 The social scientific study of religion is a crucial arena of human endeavor as questions about the existence and nature of God interact with the study of religion as a human phenomenon The twenty third volume of *Research in the Social Scientific Study of Religion* continues the tradition of promoting extended debate of current issues in the field The special section on Theism and Non Theism in Psychological Science includes contributions from leading researchers in this area This landmark collection of papers draws on a range of perspectives that both summarize the theism debate in psychology and help to move it forward in new directions In addition the volume includes papers on other key areas in the study of religion such as spirituality and social capital **Nature and Scripture in the Abrahamic Religions: 1700-Present** Scott Mandelbrote, Jitse van der Meer, 2009-01-31 The four companion volumes of *Nature and Scripture in the Abrahamic Religions* contribute to a contextual evaluation of the mutual influences between scriptural exegesis and hermeneutics on the one hand and practices or techniques of interpretation in natural philosophy and the natural sciences on the other We seek to raise the low profile this theme has had both in the history of science and in the history of biblical interpretation Furthermore questions about the interpretation of scripture continue to be provoked by current theological reflection on scientific theories We also seek to provide a historical context for renewed reflection on the role of the hermeneutics of scripture in the development of theological doctrines that interact with the natural sciences

Contributors are J Matthew Ashley Robert E Brown Elizabeth Chmielewski Edward B Davis Henri Wijnandus de Knijff Marwa Elshakry Richard England Menachem Fisch George Harinck Bernhard Kleeberg Scott Mandelbrote G Blair Nelson Alexei V Nesteruk Jitse M van der Meer Rob P W Visser and William Yarchin **Christianity and Western Thought** Alan G. Padgett, Steve Wilkens, 2009-08-28 Colin Brown's Christianity Western Thought Volume 1 From the Ancient World to the Age of Enlightenment was widely embraced as a text in philosophy and theology courses around the world His project was continued with the same spirit energy and design by Steve Wilkens and Alan Padgett in volume 2 which explores the main intellectual streams of the nineteenth century This the third and final volume also by Wilkens and Padgett examines philosophers ideas and movements in the twentieth century and how they have influenced Christian thought *The Oxford Handbook of Atheism* Stephen Bullivant, Michael Ruse, 2013-11-21 Recent books by among others Sam Harris Richard Dawkins and Christopher Hitchens have thrust atheism firmly into the popular media and academic spotlight This so called New Atheism is arguably the most striking development in western socio religious culture of the past decade or more As such it has spurred fertile and often heated discussions both within and between a diverse range of disciplines Yet atheism and the New Atheism are by no means co extensive Interesting though it indeed is the New Atheism is a single historically and culturally specific manifestation of positive atheism the that there is are no God s which is itself but one form of a far deeper broader and more significant global phenomenon The Oxford Handbook of Atheism is a pioneering edited volume exploring atheism understood in the broad sense of an absence of belief in the existence of a God or gods in all the richness and diversity of its historical and contemporary expressions Bringing together an international team of established and emerging scholars it probes the varied manifestations and implications of unbelief from an array of disciplinary perspectives philosophy history sociology anthropology demography psychology natural sciences gender and sexuality studies literary criticism film studies musicology and in a range of global contexts Western Europe North America post communist Europe the Islamic world Japan India Both surveying and synthesizing previous work and presenting the major fruits of innovative recent research the handbook is set to be a landmark text for the study of atheism **The Encyclopaedia Britannica** ,1911

The Encyclopaedia Britannica: Shu to Tom ,1911 The Encyclopædia Britannica ,1911 **The Encyclopaedia Britannica** Hugh Chisholm, 1911 **Death and Immortality** R.W. Perrett, 2013-11-11 The research for this work was undertaken during my tenure of a Senior Tutor ship in the Faculty of Arts and Music at the University of Otago 1983 85 Versions of some of the chapters herein have already been accepted for publication in the form of journal articles in Philosophy Philosophy East and West Sophia and Religious Studies My thanks to the editors and publishers concerned for permission to reuse this material A number of people have assisted me in various ways My greatest debt is to Graham Oddie who supervised my doctoral research in this area and with whom I have had the benefit of innumerable discussions on these and other philosophical matters I am very grateful for all I have learned from him I would also like to thank Bob Durrant for

commenting helpfully on Chapter 2 the late Jim Harvie both for his valuable suggestions particularly regarding the material of Chapter 4 and for his encouraging enthusiasm for the whole project George Hughes for his extensive comments on the whole work and for various points of detail Alan Musgrave Charles Pigden and Bryan Wilson Despite much good advice however I have some times preferred to go my own way recalling Blake s proverb If the fool would persist in his folly he would become wise With regard to the typing of the manuscript I am indebted to the word processor wizardry of Jane Tannahill and Christine Colbert *Buddhism in England* ,1926
