Photo De Famille:

Le Roman-photo Jan Baetens, Ana Gonzalez, 1996 Rassemblant les actes du colloque international sur le roman photo qui s'est déroulé à la Fondation NOESIS en août 1993 le présent volume aborde pour la toute première fois les diverses facettes du genre longtemps négligé qui est la narration photographique Les grands spécialistes européens et américains du roman photo présentent ici une synthèse des connaissances actuelles tout en formulant de multiples pistes de recherche pour les années venir Leurs interventions s'organisent autour de cinq axes : l'histoire du genre le problème de son lectorat ses rapports avec des pratiques analogues tels le reportage ou le livre illustré les questions relatives à la spécificité controversée du roman photo et enfin l'analyse détaillée de ses plus belles réussites anciennes ou contemporaines Une bibliographie très fouillée couronne l'ensemble Faisant alterner les voix des théoriciens et des critiques des lecteurs et des praticiens les actes de ce colloque constituent la fois une somme et un laboratoire un ouvrage de référence et un instrument de recherche

Souvenirs de familles immigrées David Lepoutre, Isabelle Canoodt, 2005-01-20 Des familles populaires immigrées on ignore souvent tout de leur rapport au passé Cela n'empêche pas tout aussi souvent de croire que les jeunes qui en sont issus sont sans racines et sans repères une partie de leurs difficultés et des problèmes qu'ils posent la société française en multiplierait Que disent donc ces jeunes sur leur famille et leur passé quand on les interroge Qu'crivent ils sur leur histoire familiale si on le leur demande Quelles photographies quelles images quelles archives sont ils en mesure de fournir S'appuyant sur les données recueillies pendant quatre années dans un collège de banlieue parisienne David Lepoutre analyse le rapport au passé familial en fonction des contextes historiques de migration des appartenances sociales et des origines culturelles Une contribution exceptionnelle pour comprendre ce qui est et surtout ce qui n'est pas la mémoire familiale dans des catégories de population qui chappent habituellement ce type d'enquête Maître de conférences en sociologie à l'université d'Amiens David Lepoutre a enseigné l'histoire géographique La Courneuve pendant dix ans Il est l'auteur de *Cur de banlieue* Professeur agrégé de lettres Isabelle Canoodt a enseigné pendant dix ans La Courneuve puis Paris

Photo-texts Andy Stafford, 2010-01-01 What do photographs want Do they need any accompaniment in today's image saturated society Can writing inflect photography or vice versa in such a way that neither medium takes precedence Or are they in constant inexorable battle with each other Taking nine case studies from the 1990s French speaking world from France North Africa and the Caribbean this book attempts to define the interaction between non fictional written text caption essay fragment poem and photographic image Having considered three categories of intermediality between text and photography the collaborative the self collaborative and the retrospective the book concludes that the dimensions of their interaction are not simple and twofold :visuality versus alongside textuality but threefold and therefore complex Thus the photo text as defined here is concerned as much with orality the demotic the popular the vernacular as it is with visual and written culture That text image collaborations give space to the spoken spectral traces of human discourse suggests that the key element of the photo text is its radical provisionality
