Iconographies of Occupation Jeremy E. Taylor, 2021-02-28 *Iconographies of Occupation* is the first book to address how the collaborationist Reorganized National Government (RNG) in Japanese occupied China sought to visualize its leader Wang Jingwei 1883-1944 to the Chinese people and China itself. It explores the ways in which this administration sought to present itself to the people over which it ruled at different points between 1939 when the RNG was first being formulated and August 1945 when it folded itself out of existence. What sorts of visual tropes were used in regime iconography and how were these used? What can the intertextual movement of visual tropes and motifs tell us about RNG artists and intellectuals and their understanding of the occupation and the war? Drawing on rarely before used archival records relating to propaganda and a range of visual media produced in occupied China by the RNG, the book examines the means used by this client regime to carve out a separate visual space for itself by reviving prewar Chinese methods of iconography and by adopting techniques, symbols and visual tropes from the occupying Japanese and their allies. Ultimately, however, the occupied gaze that was developed by Wang's administration was undermined by its ultimate reliance on Japanese acquiescence for survival. In the continually shifting and fragmented iconographies that the RNG developed over the course of its short existence, we find an administration that was never completely in control of its own fate or its message. *Iconographies of Occupation* presents a thoroughly original visual history approach to the study of a much maligned regime and opens up new ways of understanding its place in wartime China. It also brings China under the RNG into dialogue with broader theoretical debates about the significance of the visual in the cultural politics of foreign occupation.

The Conservation of Cave 85 at the Mogao Grottoes, Dunhuang Neville Agnew, Lori Wong, 2014-02-01 The Mogao Grottoes, a World Heritage Site in northwestern China, are located along the ancient caravan routes collectively known as the Silk Road that once linked China with the West. Founded by a Buddhist monk in the late fourth century, Mogao flourished over the following millennium as monks, local rulers and travelers commissioned hundreds of cave temples cut into a mile-long rock cliff and adorned them with vibrant murals. More than 490 decorated grottoes remain, containing thousands of sculptures and some 45,000 square meters of wall paintings, making Mogao one of the world's most significant sites of Buddhist art. In 1997, the Getty

Conservation Institute which had been working with the Dunhuang Academy since 1989 began a case study using the Late Tang dynasty Cave 85 to develop a methodology that would stabilize the deteriorating wall paintings This abundantly illustrated volume is the definitive report on the project which was completed in 2010 Sight and Sound ,2006
