The Physician and the Hopelessly Ill Patient Society for the Right to Die,1985 **The Physician and the Hopelessly Ill Patient ,** **Voluntary Euthanasia and the Common Law** Margaret Otlowski,1997 Margaret Otlowski investigates the complex and controversial issue of active voluntary euthanasia She critically examines the criminal law prohibition of medically administered active voluntary euthanasia in common law jurisdictions and carefully looks at the situation as handled in practice The evidence of patient demands for active euthanasia and the willingness of some doctors to respond to patients requests is explored and an argument for reform of the law is made with reference to the position in the Netherlands where active voluntary euthanasia is now openly practiced **Casebook on the Termination of Life-Sustaining Treatment and the Care of the Dying** Cynthia B. Cohen,1988-06-22 The cases are presented in a concise and interesting manner highlights the emerging consciousness of the importance of the contractual arrangement between physician and patient Journal of the American Medical Association The cases presented are interesting ones and the commentaries are uniformly lucid Highly recommended Religious Studies Review Cohen contributes a well selected collection of cases and commentaries which are presented in a crisp style it is likely to have a real impact Ethics Twenty six reports based on actual cases with expert commentary that illuminate the ethical medical legal and psychological contours of dilemmas surrounding termination of treatment decisions Cases involve patients families physicians nurses lawyers and health care administrators A companion volume to the Hastings Center s Guidelines See Guidelines for ad quotes when advertising both books

The Physician as Captain of the Ship N.M. King,L.R. Churchill,Alan W. Cross,2007-08-19 The fixed person for fixed duties who in older societies was such a godsend in the future will be a public danger Twenty years ago a single legal metaphor accurately captured the role that American society accorded to physicians The physician was captain of the ship Physicians were in charge of the clinic the Operating room and the health care team responsible and held accountable for all that happened within the scope of their supervision This grant of responsibility carried with it a corresponding grant of authority like the ship's captain the physician was answerable to no one regarding the practice of his art However compelling the metaphor few would disagree that the mandate accorded to the medical profession by society is changing As a result of pressures from a number of diverse directions including technological advances the development of new health professionals changes in health care financing and delivery the recent emphasis on consumer choice and patients rights what our society expects physicians to do and to be is different now The purpose of this volume is to examine and evaluate the conceptual foundations and the moral implications of that difference Each of the twelve essays of this volume assesses the current and future validity of the captain of the ship metaphor from a different perspective The essays are grouped into four sections In Section I Russell Maulitz explores the physician's role historically
