Presidential Passages Former College Presidents Reflect On The Splendor And Agony Of Their Careers:

Presidential Passages Robert F. Carbone, 1981 College Presidents Reflect Stephen J. Nelson, 2013-12-16 College presidents lead taxing and complex though enormously fulfilling and rewarding lives The story that unfolds in *College Presidents Reflect* Life in and out of the Ivory Tower is fashioned from the perspectives of over two dozen retired former college presidents The over their shoulders view we get from these men and women who have sat on the presidential perch provides an unprecedented view of the office of the pathways to presidencies and of the ways in which tenures conclude when presidents decide at times pushed to exit Does anything after leaving office compare with the status and regard regularly accorded presidents How do their bully pulpits change from the power of the presidency to life What are the high successes and unforeseen regrets born out of time in the office From their journeys we learn lessons about leadership We hear about how one gets into the presidency planned or not There is only one true source of insight and reflection about these issues and that is those who have been there these former college presidents *Eisenhower in Command at Columbia* Douglas E. Clark, 2013-03-08 Dwight D Eisenhower s presidency of Columbia University 1948 1953 is among the least written about periods of his career It is all but dismissed by historians as a mere interlude between his service as World War II s most celebrated general and his two terms as president of the United States His Columbia tenure was marked by extended absences from campus and ongoing political speculation regarding a run for the White House in 1952 Eisenhower in *Command at Columbia* disputes the conventional wisdom that Eisenhower s Columbia presidency was unsuccessful In fact under his leadership Columbia moved forward in several important areas Eisenhower s tenure at Columbia was nevertheless difficult at times His lack of both academic experience and a full understanding of academic culture diminished his capacity to lead and damaged his credibility with faculty While the book brings historical perspective to Eisenhower s presidency of Columbia its primary purpose is to analyze Eisenhower s tenure in the context of higher education leadership His experience at Columbia is relevant today because it demonstrates the importance of understanding institutional culture when leading a college or university His selection as the university s president reveals flaws in the process that still plague boards today in what is arguably their most important job selecting an institution s leader This book will appeal to scholars in higher education history and university administration among others **Stepping Away** Lisa Jasinski, 2023-07-14 In no other professional field do senior leaders habitually return to the rank and file workforce in the twilight of their careers Corporate CEOs rarely conclude their working lives by resuming the duties of a mid level account executive on the verge of retirement four star generals do not return to the infantry But in academia former senior leaders often conclude their careers by reprising the roles and responsibilities of a professor Until now leaders and institutions have been left to navigate these transitions on their own often learning hard lessons that might have been avoided *Stepping Away* moves beyond the well worn clich s of stepping down to examine how senior leadership role changes impact individuals and the institutions they

serve Drawn from empirical research involving more than fifty college presidents provosts and deans this book delivers fresh understanding of the challenges and opportunities leaders face as they assume a new place in the social architecture of their campus Bridging the gap between theory and practice Stepping Away translates research into practical strategies that leaders can use to make this change successfully providing guidance about when to speak up and when to remain quiet how to develop new relationships where to office whether to apply for new jobs and how to use their knowledge and skills to add value to their campus communities on campus and off
