

Raising standards, improving lives

We only judge schools to be 'good' if they are providing a good standard of education

- Pupils' starting points - as shown by their prior attainment - are different and our judgements are based on progress from starting points, not just attainment alone.
- Ofsted's grade descriptors show that a school can be 'good' even where pupils' attainment is below average but they are making good progress.
- Teaching is judged in relation to the impact it has on pupils' learning. If teaching is good, pupils should be learning well and making good progress over time.

Raising Standards State Policies To Improve Academic Preparation For College:

Raising Standards Patricia A. Flanagan,1999-03 Examines state higher education policies that influence student preparation for college Three policy areas are the focus of this state by state analysis raising admissions requirements for public four year colleges providing regular feedback on student preparation to high schools and establishing statewide merit aid programs *Raising Standards* ,1992 *Key High School Reform Strategies* Mary G. Visser,David Emanuel,Peter Teitelbaum,1999 *Resources in Education* ,2001-04 *Pathways to Academic Success in Higher Education* Edward P. St. John,Glenda Droogsma Musoba,2010-07-02 Pathways to Academic Success in Higher Education examines two major challenges facing the nation preparing high school students for college and creating new pathways to academic success for underrepresented students in higher education **Recent Department of Education Publications in ERIC** United States. Department of Education,1994 **Recent Department of Education Publications in ERIC** United States. Dept. of Education,1994 **Higher Education: Handbook of Theory and Research** John C. Smart,Michael B. Paulsen,2011-03-24 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic The Handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world *Vocational Education in the United States* ,2000

Trends in High School Vocational/technical Coursetaking Karen Levesque,2003 *Fairness in Access to Higher Education in a Global Perspective* Heinz-Dieter Meyer,Edward P. St. John,Maia Chankseliani,Lina Uribe,2013-04-20 The purpose of this volume is to help jump start an urgently needed conversation about fairness and justice in access to higher education to counteract the ubiquitous mantras of neoliberal globalization and managerialism The book seeks to carve out a strong moral and normative basis for opposing mainstream developments that engender increasing inequality and market dependency in higher education The book s chapters consider how different national communities channel access to higher education what their implicit social contracts are and what outcomes are produced by different policies and methods The book is essential reading for scholars of higher education and students concerned with increasing inequality in a globalizing educational marketplace *Community Update* ,1993 *Handbook for the College Admissions Profession* Stanley E. Henderson,Claire C. Swann,1998-04-23 Through expert essays this handbook covers all aspects of the admissions process from a historical overview to a guide to future trends Both new and experienced admissions officers and educational administrators will find here essential tools for successfully recruiting and enrolling a desirable mix of students for their

institutions This handbook has been prepared by the foremost leaders in the college admissions profession under the auspices of the American Association of Registrars and Admissions Officers Topics include the dilemma of quantity versus quality in admissions recruiting understanding enrollment management marketing strategies the role of technology and student body diversity including international students

Education and the Public Interest Edward P. St. John, 2007-05-28 Economic globalization has been accompanied by implementation of education reforms linked to accountability and public finance schemes that emphasize student choice in schools and student loans in higher education In the U S these reforms are rationalized based on intermediate variables like the number of math credits completed in high school and net prices However the reforms rationalized based on this research are seldom evaluated in relation to outcomes i e measures of student achievement and equal opportunity to attain an education In *Education and the Public Interest* the editor re examines the political rationales for these reforms John Rawls s theory of justice is reconstructed to develop a framework for assessing the effects of public policy on these outcomes This volume undertakes a comparative study of the states in the U S to examine how education reforms influence student achievement high school graduation and college access and finance schemes influence college access Policies implemented by states in the 1990s were associated with improved achievement as measured by test scores for high school students These policies also correlate with increased high school drop out rates and the widening gap in college enrolment rates across income groups This volume considers how privatization and accountability policies can be reconstructed to reduce inequality while continuing to improve student achievement and college enrolment I enjoyed reading the book and benefited from it and I feel confident others will as well I am particularly taken by its sweep and by the skill and persuasiveness with which the author ties together the broad trends and themes of privatization globalization school reform preparation equity equality and college access Prof James C Hearn Vanderbilt University USA What I especially like about this book is the framing of the importance of the topic in terms of the global political and economic changes and the notion of access to quality education as a basic right Prof Laura W Perna College of Education University of Maryland USA *The Attainment Agenda* Laura W. Perna, Joni E. Finney, Patrick M. Callan, 2014-05 While the federal government seeks to promote educational attainment and equity through its extensive investment in student financial aid states have primary responsibility for policies that affect the educational attainment of their populations Despite the centrality of state policy however we know relatively little about the

relationship between state policy and these outcomes This book addresses this knowledge gap Drawing on data collected from descriptive case studies of the relationship between public policy and higher education performance in five states Georgia Illinois Maryland Texas and Washington this book offers a more complete conceptual framework for understanding how state public policy can promote educational attainment The resulting framework has five central tenets that help us understanding how to improve overall educational attainment and increase equity in that attainment At its core the model assumes that higher education performance is determined by effective state policy leadership for higher education The book also illustrates the need for state policies that reduce the cumulative negative implications of policies that perpetuate differences in educational outcomes across groups and that proactively address the barriers that limit educational attainment for underachieving groups This book has important implications for public policymakers college and university leaders educational researchers and others who are interested in understanding how public policy can improve educational attainment and equity in attainment across groups Provided by publisher *Public Policy and Higher Education* Nathan J. Daun-Barnett, Edward P. St. John, 2024-11-15 Public Policy and Higher Education third edition provides readers with the tools to examine how policies affect students access and success in college Rather than arguing for a single approach the authors use research based evidence and consider political and historical values and beliefs to examine how policymakers and higher education administrators can inform and influence change within systems of higher education Raising new questions and examining recent developments this fully updated edition is an invaluable resource for graduate students administrators policymakers and researchers who seek to learn more about the crucial contexts underlying policy decisions and college access This third edition includes updates across the board to reflect current policy contexts Expanded historical frameworks allow readers to better understand the preparation access persistence and the development of state education systems New considerations of state and national political ideologies help to inform contemporary contexts Finally refreshed cases including an additional case about Florida and updated cases for California Minnesota Indiana and North Carolina equip readers with new ways to analyze complex state policies and their impact on higher education Special Features Case Studies help readers to build their skills in analyzing how political values beliefs and traditions influence policy decisions and adaptations within state systems Reflective Questions encourage readers to discuss state and campus contexts for policy decisions and to consider the strategies used in a state or institution Approachable Explanations unpack complex public policies and financial strategies for readers who seek an understanding of public policy in higher education Research Based Recommendations explore how policymakers higher education administrators and faculty can work together to improve quality diversity and financial stewardship *Effective Strategies for Accelerated Learning* United States.
