Second International Handbook of Urban Education William T. Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education Each chapter reflects contemporary cutting edge issues in urban education as defined by their local context One important theme that runs throughout this handbook is how urban is defined and under what conditions the marginalized are served by the schools they attend Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations This second handbook focuses on factors such as social stratification segmentation segregation racialization urbanization class formation and maintenance and patriarchy The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe Researchers will find an analysis framework that will make the current practice and outcomes of urban education and their alternatives more transparent and in turn this will lead to solutions that can help improve the life options for students historically underserved by urban schools

Minds Wide Shut Gary Saul Morson, Morton Schapiro, 2023-01-31 A timely exploration of intellectual dogmatism in politics economics religion and literature and what can be done to fight it Polarization may be pushing democracy to the breaking point But few have explored the larger interconnected forces that have set the stage for this crisis namely a rise in styles of thought across a range of fields that literary scholar Gary Saul Morson and economist Morton Schapiro call fundamentalist In *Minds Wide Shut* Morson and Schapiro examine how rigid adherence to ideological thinking has altered politics economics religion and literature in ways that are mutually reinforcing and antithetical to the open mindedness and readiness to compromise that animate democracy In response they propose alternatives that would again make serious dialogue possible Fundamentalist thinking Morson and Schapiro argue is not limited to any one camp It flourishes across the political spectrum giving rise to dueling monologues of shouting and abuse between those who are certain that they can't be wrong that truth and justice are all on their side and that there is nothing to learn from their opponents who must be evil or deluded But things don't have to be this way Drawing on thinkers and writers from across the humanities and social sciences Morson and Schapiro show how we might begin to return to meaningful dialogue through case based reasoning objective analyses lessons drawn from literature and more The result is a powerful invitation to leave behind simplification rigidity and extremism and to move toward a future of greater open mindedness moderation and perhaps even wisdom
