Retribution Reconsidered J.G. Murphy, 2013-03-09 Jeffrie G Murphy's second collection of essays further pursues the topics of punishment and retribution that were explored in his 1979 collection *Retribution Justice and Therapy* Murphy now explores these topics in the context of political philosophy as well as moral philosophy and he now begins to develop some doubts about the version of the retributive theory with which his name has long been associated **Handbook of**

**Restorative Justice** Gerry Johnstone, Daniel Van Ness, 2013-01-11 Discusses the key concepts and principles of restorative justice explains how the campaign for restorative justice arose and developed into an influential social movement describes the variety of restorative justice practices and identifies and examines key issues within the restorative justice movement

*Character, Liberty and Law* J.G. Murphy, 2013-03-09 Jeffrie G Murphy's third collection of essays further pursues the topics of punishment and retribution that were explored in his two previous collections *Retribution Justice and Therapy* and *Retribution Reconsidered* Murphy now explores these topics in the light of reflections on issues that are normally associated with religion forgiveness mercy and repentance He also explores the general issue of theory and practice and discusses a variety of topics in applied ethics e.g. freedom of artistic expression the morality of gambling and the value of forgiveness in psychological counseling As always his perspective may be described as Kantian and indeed this collection contains the first extended piece of Kant scholarship that he has done in years a long essay on Kant on theory and practice *Philosophy, Psychology, and Psychologism* Dale Jacquette, 2006-04-11 This book presents a remarkable diversity of contemporary opinions on the prospects of addressing philosophical topics from a psychological perspective It considers the history and philosophical merits of psychologism and looks systematically at psychologism in phenomenology cognitive science epistemology logic philosophy of language philosophical semantics and artificial intelligence **A Hundred Years of**

**English Philosophy** N. Milkov, 2003-07-31 This investigation is a historical review of twentieth century analytical philosophy in England In seven chapters the intellectual development of its most prominent representatives Moore Russell Wittgenstein Ryle Austin Strawson Dummett is traced The book offers synopses of the main philosophical texts of these seven philosophers It will serve as a reference book covering all the central problems discussed by these seven authors Gender and Justice

Eliza Earle Ferguson, 2010-02-18 Historian Eliza Earle Ferguson's meticulously researched study of domestic violence among the working class in France uncovers the intimate details of daily life and the complex workings of court proceedings in fin de siècle Paris With detective like methods Ferguson pores through hundreds of court records to understand why so many perpetrators of violent crime were fully acquitted She finds that court verdicts depended on community standards for violence between couples Her search uncovers voluminous testimony from witnesses defendants and victims documenting the conflicts and connections among men and women who struggled to balance love desire and economic need in their relationships Ferguson's detailed analysis of these cases enables her to reconstruct the social cultural and legal conditions in

which they took place Her ethnographic approach offers unprecedented insight into the daily lives of nineteenth century Parisians revealing how they chose their partners what they fought about and what drove them to violence In their battles over money and sex couples were in effect testing stretching and enforcing gender roles Gender and Justice will interest social and legal historians for its explanation of how the working class of fin de siècle Paris went about their lives and navigated the judicial system Gender studies scholars will find Ferguson s analysis of the construction of gender particularly trenchant Holly Grout

Knowledge and Reality Thomas M. Crisp, Matthew Davidson, David Vander Laan, 2006-07-19 This volume was conceived as a Festschrift to surprise Alvin Plantinga on his 70th birthday That original plan was not entirely successful For one thing the day came and went well before the work was complete For another the project wasn't quite a surprise Plantinga caught wind of it though not of its details before the unveiling The occasion was marked however by a presentation of a projected table of contents and an early draft of the cover painting by Keith Lehrer Plantinga then saw the details and was quite taken aback that the editors and a few contributors had come to South Bend from as far Virginia Florida and California to celebrate Now we are pleased to offer the essays themselves The collection ranges widely over metaphysics and

epistemology Its wingspan testifies to the breadth both of Plantinga's own work and of the audience that has valued it Some of the essays deal with ontology examining actualism presentism antirealism properties and artifacts Several essays in epistemology raise skeptical questions work through the implications of naturalism or intuitionism and engage Plantinga's own Reidian account of warrant Other contributions consider the bearing of philosophical ideas on the Christian faith of split brain cases on the doctrine of the Trinity for example and of materialism on the afterlife The contributors are friends colleagues and former students of Plantinga The editors thank all of them for their eager participation in this project

*Moral Psychology Today* David K. Chan, 2008-02-03 Moral Psychology Today David K Chan Philosophers working in the eld of moral psychology concern themselves with issues and questions that straddle across more than one sub discipline in philosophy The answers that they propose and the theories that they propound have implications for moral philosophy the philosophy of mind epistemology and metaphysics Philosophers with an interest in the will or the motivational psychology of human action divide between those investigating psychological and behavioral concepts for their own sake and those working on action theory for the sake of answering larger questions especially ethical ones The essays in this volume all of which were presented at a conference on Values Rational Choice and the Will belong largely in the latter category of research The essays here contribute to debates and discussions on a wide range of topics that are of current interest in moral psychology These essays demonstrate both the breadth of the eld of moral psychology and the importance of the questions investigated Artificial boundaries between sub disciplines of philosophy are crossed in putting these essays together in the same anthology There are essays here in meta

ethics and in normative ethics There are essays in ethical theory and in applied ethics There are essays that draw on discoveries in empirical psychology

**Shame Punishment** Thom Brooks, 2019-10-28 Shame punishment has existed for perhaps as long as people have been punished and the issue has been revisited in recent years to help improve crime reduction efforts In this collection shame punishment is examined from various critical perspectives including its relation with expressivism the diversity of shame punishment used today the link between shame punishment and restorative justice the relationship between dignity and shame punishment shame punishment and its use for sex offenders and critics of shame punishment in its different incarnations The selected essays are from leading experts and represent the most important contributions to scholarly research in the field

**Truth, Rationality, Cognition, and Music** K. Korta, Jesús M. Larrazabal, 2013-03-14 A speech for the defence in a Paris murder trial a road safety slogan Hobbes political theory each appeals to reason of a kind but it remains an oblique and rhetorical Each relies on comparisons rather than on direct statements and none can override or supersede the conclusions of ethical reasoning proper Nevertheless just as slogans may do more for road safety than the mere recital of accident statistics or of the evidence given at coroners inquests so the arguments of a Hobbes or a Bentham may be of greater practical effect than the assertion of genuinely ethical or political statements however true and relevant these may be

Stephen Toulmin Reason in Ethics 1950 The International Colloquium on Cognitive Science ICCS held in Donostia San Sebastian every two years since 1989 has become one of the most important plazas for cognitive scientists in Europe to present the results of their research and to exchange ideas The seventh edition co organized as usual by the Institute for Logic Cognition Language and Information ILCLI and the Department of Logic and Philosophy of Science both from the University of the Basque Country took place from May 9 to 12 2001 addressing the following main topics

- 1 Truth Epistemology and Logic

**Thought-Contents** Steven E. Boër, 2006-11-23 According to our commonsense view of the matter beliefs desires intentions and the like are special kinds of internal states the possession of which by a creature potentially explains its behavior and otherwise renders the creature intelligible to us So called folk psychology provides us with a rough and ready network of counterfactuals delimiting the role supposedly played by these internal states vis perceptual input inference and behavioral output in a normal member of our species The exact empirical details of this network do not matter here for we are not undertaking further refinement or systematization of the relevant counterfactuals Instead our topic is the ontological analysis of the internal states that occupy the nodes of this complex network and the bearing of that analysis on the truth conditions of the sentences we use to ascribe beliefs and related states The relevant counterfactuals canonically describe particular belief desire and intention states as states of believing desiring and intending that such a creature The use of infinitival clauses to describe desires and intentions is not really an exception for desiring or intending to do A or to be F is just having

a self regarding desire or intention that oneself does A or that oneself is F By the lights of our commonsense psychology then to be in a particular belief desire or intention state is to bear the corresponding attitudinal relation believing desiring or intending to a certain content      *Language, Knowledge, and Representation* Jesus M. Larrazabal, Luis A. Pérez Miranda, 2013-11-09 Every two years since 1989 an international colloquium on cognitive science is held in Donostia San Sebastian attracting the most important researchers in that field This volume is a collection of the invited papers to the Sixth International Colloquium on Cognitive Science ICCS 99 written from a multidisciplinary cognitive perspective and addressing various essential topics such as self knowledge intention consciousness language use learning and discourse This collection reflects not only the various interdisciplinary origins and standpoints of the participating researchers but also the richness fruitfulness and exciting state of research in the field of cognitive science today A must read for anyone interested in philosophy linguistics psychology and computer science and in the perception of these topics from the perspective of cognitive science      Wholes, Sums and Unities A. Meirav, 2013-03-14 According to Ariel Meirav the root of some of our most noteworthy difficulties in the metaphysics of concrete entities has been the traditional tendency to focus on the horizontal dimension of wholes i e relations between the parts of a whole and to neglect the vertical dimension i e relations between the whole itself and its parts In *Wholes Sums and Unities* Meirav formulates a critique of widely accepted mereological assumptions presents a new conception of wholes as Unities and demonstrates the advantages of this new conception in treating a variety of metaphysical puzzles such as that of Tibbles the cat More generally he suggests that conceiving wholes as Unities offers us a new way of understanding the world in non reductive terms
