Retrieving Experience Subjectivity And Recognition In Feminist Politics:

Retrieving Experience Sonia Kruks, 2018-09-05 In *Retrieving Experience* Sonia Kruks engages critically with the postmodern turn in feminist and social theory. She contends that although postmodern analyses yield important insights about the place of discourse in constituting subjectivity, they lack the ability to examine how experience often exceeds the limits of discourse. To address this lack and explain why it matters for feminist politics, Kruks retrieves and employs aspects of postwar French existential theory, a tradition that she argues postmodernism has obscured by militantly rejecting its own genealogy. Kruks seeks to refocus our attention on the importance for feminism of embodied and lived experiences. Through her original readings of Simone de Beauvoir and other existential thinkers including Sartre, Fanon, and Merleau-Ponty, and her own analyses inspired by their work, Kruks sheds new light on central problems in feminist theory and politics. These include debates about subjectivity and individual agency, questions about recognition and identity politics, and discussion of whether embodied experiences may sometimes facilitate solidarity among groups of different women. *Gender History in Practice* Kathleen Canning, 2006 The eight essays collected in this volume examine the practice of gender history and its impact on our understanding of European history. Each essay takes up a major methodological or theoretical issue in feminist history and illustrates the necessity of critiquing and redefining the concepts of body, citizenship, class, and experience through historical case studies. Kathleen Canning opens the book with a new overview of the state of the art in European gender history. She considers how gender history has revised the master narratives in some fields within modern European history, such as the French Revolution, but has had a lesser impact in others, Weimar and Nazi Germany. *Gender History in Practice* includes two essays now regarded as classics: *Feminist History after the Linguistic Turn* and *The Body as Method*, as well as new chapters on experience, citizenship, and subjectivity. Other essays in the book draw on Canning's work at the intersection of labor history, the history of the welfare state, and the history of the body, showing how the gendered social body was shaped in Imperial Germany. The book concludes with a pair of essays on the concepts of class and citizenship in German history, offering critical perspectives on feminist understandings of citizenship. Featuring an extensive thematic bibliography of influential works in gender history and theory that will prove invaluable to students and scholars, *Gender History in Practice* offers new insights into the history of Germany and Central Europe, as well as a timely assessment of gender history's accomplishments and challenges. **On Female Body Experience** Iris Marion Young, 2005-01-27 Written over a span of more than two decades, the essays by Iris Marion Young collected in this volume describe diverse aspects of women's lived body experience in modern Western societies. Drawing on the ideas of several twentieth-century continental philosophers, including Simone de Beauvoir, Martin Heidegger, Luce Irigaray, Julia Kristeva, and Maurice Merleau-Ponty, Young constructs rigorous analytic categories for interpreting embodied subjectivity. The essays combine theoretical description of experience with normative evaluation of the unjust constraints on their freedom and opportunity that continue to burden many women.

The lead essay rethinks the purpose of the category of gender for feminist theory after important debates have questioned its usefulness. Other essays include reflection on the meaning of being at home and the need for privacy in old age residences as well as essays that analyze aspects of the experience of women and girls that have received little attention even in feminist theory such as the sexuality of breasts or menstruation as punctuation in a woman's life story. Young describes the phenomenology of moving in a pregnant body and the tactile pleasures of clothing. While academically rigorous, the essays are also written with engaging style incorporating vivid imagery and autobiographical narrative. *On Female Body Experience* raises issues and takes positions that speak to scholars and students in philosophy, sociology, geography, medicine, nursing, and education.

Simone de Beauvoir's Political Thinking Lori Marso, Patricia Moynagh, 2024-04-22. By exploring the life and work of the influential feminist thinker Simone de Beauvoir, this book shows how each of us lives within political and social structures that we can and must play a part in transforming. It argues that Beauvoir's careful examination of her own existence can also be understood as a dynamic method for political thinking. As the contributors illustrate, Beauvoir's political thinking proceeds from the bottom up, using examples from individual lives as the basis for understanding and transforming our collective existence. For example, she embraced her responsibility as a French citizen as making her complicit in the French war against Algeria. Here she sees her role as an oppressor. In other contexts, she looks to the lives of individual women, including herself, to understand the dimensions of gender inequality. This volume's six tightly connected essays home in on the individual's relationship to community and how one's freedom interacts with the freedom of other people. Here Beauvoir is read as neither a liberal nor a communitarian. The authors focus on her call for individuals to realize their freedom while remaining consistent with ethical obligations to the community. Beauvoir's account of her own life and the lives of others is interpreted as a method to understand individuals in relations to others and as within structures of personal, material, and political oppression. Beauvoir's political thinking makes it clear that we cannot avoid political action. To do nothing in the face of oppression denies freedom to everyone, including oneself.

Manufactured Uncertainty Lorraine Code, 2020-11-01. In this provocative work, Lorraine Code returns to the idea of epistemic responsibility as developed in her influential 1987 book of the same name to confront the telling new challenges we now face to know the world with some sense of responsibility to other knowers and to the sustaining nonhuman world. *Manufactured Uncertainty* focuses centrally on the environmental and cultural crises arising from postindustrial, man-made climate change, which have spawned new forms of passionately partisan social media that directly challenge all efforts to know with a sense of collective responsibility. How can we agree to act together? Code asks, even in the face of inevitable uncertainty given the truly life-threatening stakes of today's social and political challenges. How can we engage responsibly with those who take every argument for an environmentally grounded epistemology as an unacceptable challenge to their assumed freedoms, comforts, and rights? Through searching critical dialogue with leading epistemologists, cultural theorists, and feminist scholars, this book poses a

timely challenge to all thoughtful knowers who seek to articulate an expanded and deepened sense of epistemic responsibility to a human society and a natural world embraced together in the most inclusive spirit

psychology and moral philosophy The Location of Experience shows that through manipulating the psychological dimensions of fiction's formal features Victorian women novelists produced a philosophical account of experience that rivaled and complemented that of the male philosophers of the period *Merleau-Ponty* Rosalyn Diprose, Jack Reynolds, 2014-12-05 Having initially not had the attention of Sartre or Heidegger Merleau Ponty's work is arguably now more widely influential than either of his two contemporaries Merleau Ponty Key Concepts presents an accessible guide to the core ideas which structure Merleau Ponty's thinking as well as to his influences and the value of his ideas to a wide range of disciplines The first section of the book presents the context of Merleau Ponty's thinking the major debates of his time particularly existentialism phenomenology the history of philosophy and the philosophy of history and society The second section outlines his major contributions and conceptual innovations The final section focuses upon how his work has been taken up in other fields besides philosophy notably in sociology cognitive science health studies feminism and race theory **The Body and the Screen** Kate Ince, 2017-01-12 Winner of the British Association of Film Television and Screen Studies Best Book Prize 2018 Since the 1980s the number of women regularly directing films has increased significantly in most Western countries in France Claire Denis and Catherine Breillat have joined Agnès Varda in gaining international renown while British directors Lynne Ramsay and Andrea Arnold have forged award winning careers in feature film This new volume in the Thinking Cinema series draws on feminist philosophers and theorists from Simone de Beauvoir on to offer readings of a range of the most important and memorable of these films from the 1990s and 2000s focusing as it does so on how the films convey women's lives and identities Mainstream entertainment cinema traditionally distorts the representation of women objectifying their bodies minimizing their agency and avoiding the most important questions about how cinema can do justice to female subjectivity Kate Ince suggests that the films of independent women directors are progressively redressing the balance reinvigorating both the narratives and the formal ambitions of European cinema Ince uses feminist philosophers to interpret such films as *Sex Is Comedy* *Morvern Callar* *White Material* and *Fish Tank* anew suggesting that a philosophical understanding of female subjectivity as embodied and ethical should underpin future feminist film study
