Return To The African Mother Principle Of Male And Female Equality:

Return to the African Mother Principle of Male and Female Equality Oba T'Shaka, 1995-01-01 *The Afrikan Revolution in Ayiti* Kimoni Yaw Ajani, 2023-12-18 Throughout the history of Western academia there have been scholars who have interpreted and examined various aspects of human history and made it a point to universalize their own interpretations of different people's histories and cultures. This type of scholarship tends to ignore the contributions and historical realities of other people. This case is especially true of the scholars who have interpreted the historiography around the Afrikan revolution in Ayiti, otherwise known as The Haitian Revolution. Kimoni Yaw Ajani's *The Afrikan Revolution in Ayiti: Liberty or Lanm Freedom or Death* is an Afrocentric re-examination and interpretation around the historiography of the Revolution in Ayiti and provides an in-depth study that highlights several significant Afrikan epistemological and cosmological aspects that led to freedom. These aspects include but are not limited to the persistence of Afrikan complementary forces in Ayiti: Vodou, Vodun, and Afrikan cosmology; Afrikan combat traditions such as Tire Machet and the numerous Afrikan languages, personalities, and roles that emerged from the growing numbers of Afrikans brought to Ayiti as a result of the European slave trade. Ajani calls for building communities on the best of Afrikan epistemological foundations and reclaiming Afrikan history.

African American Rhetoric(s) Elaine B. Richardson, Ronald L. Jackson, 2007-02-12 *African American Rhetoric(s): Interdisciplinary Perspectives* is an introduction to fundamental concepts and a systematic integration of historical and contemporary lines of inquiry in the study of African American rhetorics. Edited by Elaine B. Richardson and Ronald L. Jackson II, the volume explores culturally and discursively developed forms of knowledge, communicative practices, and persuasive strategies rooted in freedom struggles by people of African ancestry in America. Outlining African American rhetorics found in literature, historical documents, and popular culture, the collection provides scholars, students, and teachers with innovative approaches for discussing the epistemologies and realities that foster the inclusion of rhetorical discourse in African American studies. In addition to analyzing African American rhetoric, the fourteen contributors project visions for pedagogy in the field and address new areas and renewed avenues of research. The result is an exploration of what parameters can be used to begin a more thorough and useful consideration of African Americans in rhetorical space. **The Righteous Way**

It features an exclusive interview with Allah B. on the history of the Nation and *The Word*, the Nation's first national newspaper, and is Part 1 of *The Righteous Way Trilogy*. **African**

Ponterotto, 2001-04-25 This Second Edition of the Handbook of Multicultural

Counseling marks an important turning point. It brings together the voices of some pioneers who have paved the way and introduces us to new voices who while influenced by the pioneers have taken different paths. Because the multicultural community is well represented in content and scholarship in this second addition the reader can be assured that the view points represented in this book speak to the core issues of the field. I am excited about this Handbook because the authors answer the question that is often heard at many a conference: Where is the research to support multicultural counselling? I am equally excited about this Handbook because it breaks new ground by using as its anchor oral histories which demonstrate that for many of us multicultural counselling is not simply a research agenda but a life long journey that cannot always be measured. The underlying theme of social justice only reinforces our commitment to this journey. Drs Ponterotto, Casas, Suzuki and Alexander have once again helped shape the multicultural conversation. To those who have often said: Where is the research? Look no further. Donald B. Pope-Davis, University of Notre Dame. Its First Edition set a standard for a then emerging field. Now The Handbook of Multicultural Counseling, Second Edition presents not merely an update of the original but a completely reconceived work reflecting the many developments that continue to expand the field of multicultural counselling. This new edition features mostly brand new chapters and expanded coverage of historical perspectives on the field highlighted by personal accounts from some of the pioneers in the area. Professional and ethical issues, counselling's role in fighting oppression, psychological measurement theories, research design, gender issues and higher education issues. With contributions once again from the field's key leaders as well as top emerging scholars, this new edition maintains the breadth and comprehensiveness of the original. The Handbook of Multicultural Counseling, Second Edition is a critical resource for counsellors, counselling students and other mental health professionals who seek to improve their competence in treating a culturally diverse clientele.

New African Intellectuals and New African Political Thought in the Twentieth Century Mbukeni Herbert Mnguni, 2015. This book is purposely and deliberately entitled *New African Intellectuals and New African Political Thought in the Twentieth Century*. It encapsulates the recent debate about the political and cultural role played by the New African intellectuals in developing modern African political thought. The authors argue that the New African Intellectuals was a culturally and politically dominant movement of the twentieth century despite the fact that it was suppressed and oppressed by white colonialism and racism. It was a political and cultural expression of the oppressed and disposed people. During its cultural and political splay the New African Intellectuals was preoccupied with three inseparable historical issues forming the concept of the New African: constructing the foundations of African modernity and formulating the principles of African Nationalism. Offering fresh insights that are both empirically and theoretically informed, this book

illuminates the processes and consequences of the New African scholars and writers The political contribution made by the New African intellectuals is traced from its origins in literature music and language The discussion concludes with an exploration of the dilemma faced by African languages as they are dominated by European languages The authors argue that this dominance has resulted to the petrification and mummification of African languages because outstanding even great African writers are not using them in relation to modern technological and linguistic experience The authors believe that this broad ranging book will be of interest to all those studying African politics and culture and who are concerned with understanding modern African societies in the light of post colonialism *Serving African American Children* Sondra
