The Pastor as Friend? Dan Holder,2025-01-23 Have you ever wondered what it means for pastors to be friends with people in their churches This is the fascinating question that Dan Holder dives into in this thought provoking book He uses in depth interviews with ordained pastors and their real life struggles and joys to get close to the essence of what friendship and friendliness mean in the pastoral setting Reflecting theologically on the findings and grappling with the thought and experience of figures such as Bonhoeffer Moltmann and C S Lewis he takes up in detail the four elements found to be essential to friendship mutuality affection freedom and openness Then envisioning what revised forms of practice for pastors in a local congregation might look like he formulates nine themes

for a fruitful approach to pastoral friendship Holder doesn't shy away from the tough questions or try to offer easy answers. Instead he invites readers into a nuanced thoughtful exploration of the topic one that acknowledges both the potential pitfalls and the profound opportunities of these relationships. Prepare to be inspired, challenged and encouraged. Who knows? Readers may just discover a new vision for the role of friendship in their own lives and ministries.

The Artist and the State 1777-1855

The Politics of Universal History in British French Painting is the first book-length study to examine political uses of universal history or the philosophy of history in European art from 1777 to 1855. Daniel R. Guernsey discusses a range of mural paintings and sculptural works produced in England and France between the American Revolution and the Universal Exposition of 1855, comparing the ways artists such as James Barry, Eugène Delacroix, Paul Chenavard, David d'Angers, and Gustave Courbet expressed linear or cyclical histories of progress and decline. By considering the work of these important European artists together, he reveals not only the rich artistic interaction that took place between England and France as well as Germany at this time but also how the notion of universal history was to become a major preoccupation in the work of these individual artists, each one participating in shaping a highly significant mode of eighteenth and nineteenth-century political art.

Wealth and the Will of God Paul G. Schervish, Keith Whitaker, 2010-03-22

How six great thinkers and Christian theologians addressed issues surrounding wealth, charitable giving, and human purpose. *Wealth and the Will of God* looks at some of the spiritual resources of the Christian tradition that can aid serious reflection on wealth and giving. Beginning with Aristotle, who is crucial for understanding later Christian thought, the book discusses Aquinas, Ignatius, Luther, Calvin, and Jonathan Edwards. Though the ideas vary greatly, the chapters are organized to facilitate comparisons among these thinkers on issues of ultimate purposes or aspirations of human life: on the penultimate purposes of love, charity, friendship, and care; on the resources available to human beings in this life; and finally on ways to connect and implement in practice our identified resources with our ultimate ends.
