Returning to Freud, 1980 **The Cambridge Companion to Lacan** Jean-Michel Rabaté, 2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan's life and works. Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries. He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline. Advocating a return to Freud by which he meant a close reading in the original of Freud's works, he stressed the idea that the unconscious functions like a language. All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis. This volume will bring fresh accessible perspectives to the work of this formidable and influential thinker. These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike. *Psychology After the Unconscious* Ian Parker, 2014-08-13 Ian Parker has been a leading light in the fields of critical and discursive psychology for over 25 years. The Psychology After Critique series brings together for the first time his most important papers. Each volume in the series has been prepared by Ian Parker and presents a newly written introduction and focused overview of a key topic area. Psychology After the Unconscious is the fifth volume in the series and addresses three central questions: Why is Freud's concept of the unconscious important today? Does language itself play a role in the creation of the unconscious? How does Lacan radicalize Freud's notion of the unconscious in relation to cultural research? The book provides a clear explanation of Freudian and Lacanian accounts of the unconscious. It also highlights their role in offering a new way of describing understanding and working with the human subject in clinical settings and in cultural research. Part One shows how the unconscious is elaborated in Freud's early case studies in *Studies on Hysteria* while Part Two focuses on Lacan's reworking of the unconscious and its relationship to language and culture in his influential public seminars. The book also provides access to key debates currently occurring in Freudian and Lacanian psychoanalysis, exploring both the clinical dimension and the consequences for psychological and cultural research. Psychology After the Unconscious is essential reading for students and researchers in psychology, psychosocial studies, sociology, social anthropology and cultural studies and to psychoanalysts of different traditions engaged in academic research. It will also introduce key ideas and debates within critical psychology to undergraduates and postgraduate students across the social sciences. **Jacques Lacan (Volume I) (RLE: Lacan)** Michael P. Clark, 2014-02-05 This bibliography in two volumes originally published in 1988 lists and describes works by and about Jacques Lacan published in French, English and seven other languages including Japanese and Russian. It incorporates and corrects where necessary all information from earlier published bibliographies of Lacan's work. Also included as background works are books and essays that discuss Lacan in the course of a more general study as well as all relevant items in various bibliographic sources from many fields. **Sartre and Psychoanalysis** Betty Cannon, 1991 Betty Cannon is the first to explore the

implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre's work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy *Lacanian Psychoanalysis* Ian Parker,2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice *Modern Movements in European Philosophy* Richard Kearney,1995-01-15 In this now classic textbook Richard Kearney surveys the work of nineteen of this century's most influential European thinkers The second edition has a new chapter devoted to Julia Kristeva whose work in the fields of semiotics and psychoanalytic theory has made a significant contribution to recent continental thought

Reading Lacan Jane Gallop,2018-08-06 The influence of the French psychoanalyst Jacques Lacan has extended into nearly every field of the humanities and social sciences from literature and film studies to anthropology and social work yet Lacan's major text *Ecrits* continues to perplex and even baffle its readers In *Reading Lacan* Jane Gallop offers a novel approach to Lacan's work based on his own theories of language Lacan locates truth in the letter rather than in the spirit in the ways statements are expressed rather than in their intended meaning Gallop here grapples with six of Lacan's essays from *Ecrits* The Seminar on The Purloined Letter The Mirror Stage The Freudian Thing The Agency of the Letter in the Unconscious The Signification of the Phallus and The Subversion of the Subject While other commentators have chosen not to confront Lacan's notoriously problematic style in their discussions of his ideas Gallop addresses herself directly to the problem and the practice of reading Lacan She takes her direction from Lacan's view of subjectivity and offers a deeply personal feminist reading of *Ecrits* Concentrating on the relation of desire and interpretation she opens up the rich implications of Lacan's thought for psychoanalytic theory for the act of reading and for knowledge itself Forceful and revealing yet utterly candid about its own areas of uncertainty Gallop's book will be indispensable to readers of Lacan and to scholars and students who have felt his impact **Technique and Practice of Listening in Intensive Psychotherapy**

Richard D. Chessick,1992-12-01 Criminal Personality Volume two Freud's Jaw and Other Lost Objects Lana Lin,2017-11-07 What does it mean to live with life threatening illness How does one respond to loss Freud's Jaw and Other

Lost Objects attempts to answer these questions and as such illuminates the vulnerabilities of the human body and how human beings suffer harm. In particular, it examines how cancer disrupts feelings of bodily integrity and agency. Employing psychoanalytic theory and literary analysis, Lana Lin tracks three exemplary figures: psychoanalyst Sigmund Freud, poet Audre Lorde, and literary and queer theorist Eve Kosofsky Sedgwick. Freud's sixteen-year ordeal with a prosthetic jaw, the result of oral cancer, demonstrates the powers and failures of prosthetic objects in warding off physical and psychic fragmentation. Lorde's life writing reveals how losing a breast to cancer is experienced as yet another attack directed toward her racially and sexually vilified body. Sedgwick's memoir and breast cancer advice column negotiate her morbidity by disseminating a public discourse of love and pedagogy. Lin concludes with an analysis of reparative efforts at the rival Freud Museums in London and Vienna. The disassembled Freudian archive, like the subjectivities in dissolution upon which the book focuses, shows how the labor of integration is tethered to persistent discontinuities. Freud's *Jaw* asks what are the psychic effects of surviving in proximity to one's mortality, and it suggests that violences stemming from social, cultural, and biological environments condition the burden of such injury. Drawing on psychoanalyst Melanie Klein's concept of reparation, wherein constructive forces are harnessed to repair damage to internal psychic objects, Lin proposes that the prospect of imminent destruction paradoxically incites creativity. The afflicted are obliged to devise means to reinstate at least temporarily their destabilized physical and psychic unity through creative reparative projects of love and writing.

Lacan's Cruelty Meera Lee, 2022-08-29 This collection, written by leading Lacanian psychoanalytic theorists and practitioners, is a unique exploration of the novel aspects of perversion from the perspective of cruelty, a psychoanalytic study that has never been sufficiently undertaken in an English-speaking world. Instead of reducing the notion of perversion to cultural representations, a historical discourse, or a clinical diagnosis, the authors in this collection draw on Freud, Kant, Hegel, Marquis de Sade, Derrida, Deleuze, and Lacan to untie the knot of psychic cruelty intrinsic to perversion and therefore to sexualize perverted acts. They do so by theorizing perversion in psychoanalytic concepts of the Oedipus complex, the Name of the Father, and jouissance, and furthermore in the perspective of the clinics of neurosis and psychosis in dialogue with a clinical praxis philosophy and literature.

False Self Linda Hopkins, 2018-04-24 In this book, clinical psychologist Linda Hopkins offers a balanced view of Masud Khan's rich and extremely problematic life, presenting transcripts of interviews with analysts and supervisees who describe Khan's clinical work.

Risking Difference Jean Wyatt, 2012-02-01 *Risking Difference* revises the dynamics of multicultural feminist community by exploring the ways that identification creates misrecognitions and misunderstandings between individuals and within communities. Drawing on Lacanian psychoanalysis, Jean Wyatt argues not only that individual psychic processes of identification influence social dynamics but also that social discourses of race, class, and culture shape individual identifications. In addition to examining fictional narratives by Margaret Atwood, Angela Carter, Sandra Cisneros, Toni Morrison, and others, Wyatt also looks at nonfictional accounts of cross-race relations by white feminists and feminists of

Howe,2008-03-17 This critical study of American detective fiction examines the history and development of the detective genre through the lens of psychoanalysis Applying the ideas of French psychoanalyst Jacques Lacan the author identifies and categorizes popular works according to the fictional protagonist s hysteria obsessive neurosis perversion or psychosis The first chapter identifies several instances of hysteria within the fiction of two of the genre s pioneers Edgar Allan Poe and Arthur Conan Doyle Chapter Two traces the development of the hard boiled detective s code of honor through the works of Dashiell Hammett Raymond Chandler and Mickey Spillane identifying the often paradoxical nature of this code and its origins in obsessive neurosis Chapter Three analyzes the anti detective fiction of Philip K Dick in terms of paranoid psychosis and the final chapter returns to the question of hysteria taking up the female hard boiled detectives of author Marcia Muller

Lacanian Psychotherapy Michael J. Miller,2011-07-02 The work of Jacques Lacan is associated more with literature and philosophy than mainstream American psychology due in large part to the dense language he employs in articulating his theory including often at the expense of clinical illustration As a result his contributions are frequently fascinating yet their utility in the therapeutic setting can be difficult to pinpoint Lacanian Psychotherapy fills in this clinical gap by presenting theoretical discussions in clear accessible language and applying them to several chapter length case studies thereby demonstrating their clinical relevance The central concern of the book is the usefulness of Lacan s notion that the unconscious is structured like and by language This concept implies a peculiar manner of listening to the letter and intervention which Miller applies to a number of common clinical concerns including including case formulation dreams transference and diagnosis including all in the context of real world psychotherapy
