*The Oxford Handbook of Apocalyptic Literature* John Joseph Collins,2014 Apocalypticism arose in ancient Judaism in the last centuries BCE and played a crucial role in the rise of Christianity It is not only of historical interest there has been a growing awareness especially since the 2001 terrorist attacks on the United States of the prevalence of apocalyptic beliefs in the contemporary world To understand these beliefs it is necessary to appreciate their complex roots in the ancient world and the multi faceted character of the phenomenon of apocalypticism The Oxford

Handbook of Apocalyptic Literature is a thematic and phenomenological exploration of apocalypticism in the Judaic and Christian traditions. Most of the volume is devoted to the apocalyptic literature of antiquity. Essays explore the relationship between apocalypticism and prophecy, wisdom and mysticism, the social function of apocalypticism and its role as resistance literature, apocalyptic rhetoric from both historical and postmodern perspectives, and apocalyptic theology focusing on phenomena of determinism and dualism and exploring apocalyptic theology's role in ancient Judaism, early Christianity, and Gnosticism. The final chapters of the volume are devoted to the appropriation of apocalypticism in the modern world, reviewing the role of apocalypticism in contemporary Judaism and Christianity and more broadly in popular culture, addressing the increasingly studied relation between apocalypticism and violence, and discussing the relationship between apocalypticism and trauma, which speaks to the underlying causes of the popularity of apocalyptic beliefs. This volume will further the understanding of a vital religious phenomenon too often dismissed as alien and irrational by secular western society.

*Transforming Graduate Biblical Education* Elisabeth Schüssler Fiorenza, Kent Harold Richards, 2010. This unique collection of essays originating in seminars held at SBL's Annual and International Meetings explores the current ethos and discipline of graduate biblical education from different social locations and academic contexts. It includes international voices of well-established scholars who have urged change for some time alongside younger scholars with new perspectives. The individual contributions emerge from a variegated set of experiences in graduate biblical studies and a critical analysis of those experiences. The volume is divided into four areas of investigation. The first section discusses the ethos of biblical studies and social location, and the second explores different cultural national formations of the discipline. The third section considers the experiences and visions of graduate biblical studies, while the last section explores how to transform the discipline. All the contributions offer ways to transform graduate biblical education so that it becomes a socializing power that in turn can transform the present academic ethos of biblical studies.

Back cover *The Oxford Handbook of New Testament, Gender, and Sexuality* Benjamin H. Dunning, 2019-10-10. Over several decades, scholarship in New Testament and early Christianity has drawn attention both to the ways in which ancient Mediterranean conceptions of embodiment, sexual difference, and desire were fundamentally different from modern ones and also to important lines of genealogical connection between the past and the present. The result is that the study of gender and sexuality in early Christianity has become an increasingly complex undertaking. This is a complexity produced not only by the intricacies of conflicting historical data but also by historicizing approaches that query the very terms of analysis whereby we inquire into these questions in the first place. Yet at the same time, recent work on these topics has produced a rich and nuanced body of scholarly literature that has contributed substantially to our understanding of early Christian history and also proved relevant to ongoing theological and social debates. *The Oxford Handbook of Gender and Sexuality in the New Testament* provides a roadmap to this lively scholarly landscape, introducing both students and other scholars to the relevant problems, debates, and issues. Leading

scholars in the field offer original contributions by way of synthesis critical interrogation and proposals for future questions hypotheses and research trajectories

**Postcolonial Theology of Religions** Jenny Daggers, 2013-07-18 This original and ambitious book considers the terms of engagement between Christian theology and other religious traditions beginning with criticism of Christian theology of religions as entangled with European colonial modernity Jenny Daggers covers recent efforts to disentangle Eurocentrism from the meeting of the religions and investigates new constructive possibilities arising in the postcolonial context In dialogue with Asian and feminist theologies she reflects on ways forward for relations between the religions and offers a particularist model for theology of religions standing within a classical Trinitarian framework

*The Biafran War and Postcolonial Humanitarianism* Lasse Heerten, 2017-09-28 In the summer of 1968 audiences around the globe were shocked when newspapers and television stations confronted them with photographs of starving children in the secessionist Republic of Biafra This global concern fundamentally changed how the Nigerian Civil War was perceived an African civil war that had been fought for one year without fostering any substantial interest from international publics became Biafra the epitome of humanitarian crisis Based on archival research from North America Western Europe and Sub Saharan Africa this book is the first comprehensive study of the global history of the conflict A major addition to the flourishing history of human rights and humanitarianism it argues that the global moment Biafra is closely linked to the ascendance of human rights humanitarianism and Holocaust memory in a postcolonial world The conflict was a key episode for the re structuring of the relations between the West and the Third World

*Revelations of Dominance and Resilience* Apoh, Wazi, 2019-07-25 Chinua Achebe The art of fiction famously observed that until lions have their own historians the history of the hunt will always glorify the hunter In this volume chronicling the complex imperial and colonial entanglements of the Kpando region in eastern Ghana over recent centuries the lions have found their proverbial historian Drawing on an array of sources archaeological oral historical and documentary Wazi Apoh brings locally nuanced perspective to the complex social political economic entanglements among Akpini German and British actors His illumination of previously silenced histories provides a rich platform from which to provoke us to imagine and act on the possibilities for

restorative repatriation in the present Its novel combination of historical study with analysis of ongoing dialogues over repatriation is a unique contribution to African studies      *Postcolonialism and Development* Cheryl McEwan,2008-11-20

While the possibility of producing a de colonized postcolonial knowledge in development studies became a subject of considerable debate in the 1990s there has been little dialogue between postcolonialism and development However the need for development studies that is postcolonial in theory and practice is now increasingly acknowledged This means recognizing the significance of language and representation the power of development discourse and its material effects on the lives of people subject to development policies It also means acknowledging the already postcolonial world of development in which contemporary reworkings of theory and practice such as grassroots and participatory development indigenous knowledge and global resistance movements inform postcolonial theory *Postcolonialism and Development* explains reviews and critically evaluates recent debates about postcolonial approaches and their implications for development studies By outlining contemporary theoretical debates and examining their implications for how the developing world is thought about written about and engaged with in policy terms this book unpacks the difficult complex and important aspects of the relationship between postcolonial approaches and development studies making them accessible interesting and relevant to both students and researchers Each chapter builds an understanding of postcolonial approaches their historical divergences from development studies and more recent convergences around issues such as discourses of development knowledge and power and agency within development Up to date illustrations and examples from across the regions of the world bring to life important theoretical and conceptual issues This topical book outlines an agenda for theory and practice within postcolonial development studies and illustrates how while postcolonialism and development pose significant mutual challenges both are potentially enriched by each others insights and approaches      *Extravagant Postcolonialism* Brian T. May,2014-11-03 Brian T May argues that contrary to widely held assumptions of postcolonial literary criticism a distinctive subset of postcolonial novels significantly values and scrupulously explores a healthy individuality These extravagant postcolonial works focus less on collective social reality than on the intimate subjectivity of their characters Their authors most of whom received some portion of a canonical western education do not subordinate the ambitions of their fiction to explicit political causes so much as create a cosmopolitan rhetorical focus suitable to their western educated western trained audiences May pursues this argument by scrutinizing novels composed during the thirty year postindependence postcolonial era of Anglophone fiction a period that began with the Nigerian Chinua Achebe s *Things Fall Apart* and that ended many would say with the Ayatollah Khomeini s 1989 publication of the *Rushdie Fatwa* May contends that the postcolonial authors under consideration Naipaul Rushdie Achebe Rhys Gordimer and Coetzee inherited modernism and refashioned it His account of their work demonstrates how it reflects and transfigures modernists such as Conrad Eliot Yeats Proust Joyce and Beckett Tracing the influence of humanistic values and charting the ethical and aesthetic significance of individualism May demonstrates that these works of

extravagant postcolonialism represent less a departure from than a continuation and evolution of modernism The Routledge Companion To Postcolonial Studies John McLeod, 2007-10-09 The Routledge Companion to Postcolonial Studies offers a unique and up to date mapping of the postcolonial world and is composed of essays as well as shorter entries for ease of reference Introducing students to the history of the great European empires and the cultural legacies created in their wake this book brings together an international range of contributors on such topics as the colonial histories of Britain France Spain and Portugal the diverse postcolonial and diasporic cultural endeavours from Africa the Americas Australasia Europe and South and East Asia the major theoretical formulations poststructuralist materialist culturalist psychological With a comprehensive A to Z of forty key writers and thinkers central to contemporary postcolonial studies and featuring historical maps this is both a concise introduction and an essential resource for any student of postcolonial culture whatever their field
