Revelation And Experience:

Revelation and Experience Edward Schillebeeckx, Bastiaan Martinus Franciscus van Iersel, Bas van Iersel, 1979 A Crossroad book Includes bibliographical references *Revelation* John Ortberg, 2001-12-30 This study is designed to help readers find a humble biblical balance as they learn study and look closely at the book of Revelations **Suffering and Salvation** Aloysius Rego, 2006 Suffering especially that of the innocent and those unjustly treated is a universal experience which has perplexed and agonised humanity This reality is especially a challenge to believers in an all powerful good and loving God Within the Christian tradition in particular because of the centrality of the cross and the crucified and risen One there has been a tradition which has hallowed suffering In this perspective suffering per se whatever its origin is mystified as a necessary prelude to salvation Is suffering salvific Are all experiences of suffering saving What is God's attitude and involvement with suffering In this work these questions are explored through the lens of Edward Schillebeeckx's later theology which is primarily concerned with the development of a contemporary soteriology **Resonances: Neurobiology, Evolution and Theology** Markus Mühling, 2014-09-17 Markus Mühling presents an epistemological theory of revelation as perception and a relational narrative theological ontology based on the concept of dramatic coherence in which the triune life is understood not as an anomaly within ontology but rather as the decisive condition of its possibility Mühling further demonstrates that potential for resolving certain theological problems arises if new insights from the natural sciences such as the theory of the ecological brain in the neurosciences and the theory of niche construction in evolutionary theory are taken into account Similarly he also proposes that neuroscience and evolutionary biology can procure advantages from a dialogue with theology *The Experience of God* Dermot A. Lane, 1981 *The Experience Of God An Invitation To Do Theology* is an exciting synthesis of topical issues such as experience and God revelation and history faith and unbelief **Edward Schillebeeckx and Hans Frei** Marguerite Abdul-Masih, Canadian Corporation for Studies in Religion, 2001-11-09 Annotation This book addresses the relationship between theological method and experience *A SCENARIO of the THOUGHTs OF HUMANKIND & its POWERS* Charlene Ivery-Baba Ph.D. in Theology, 2023-06-22 People of faith ask the question what does it mean to be religious There are so many religions or philosophies which make it hard to choose the right one even if that is possible Thus selecting the right religion takes a person to perform research and obtain knowledge to determine what it means to be a genuinely religious person and what faith in God through religion means There are three parts of this book to help enlighten your thoughts about understanding religion and spiritual faith The book examined humankind's minds and choices made under different influences or choices and without being influenced As human beings we are influenced to make choices that might be right or might be wrong that can be helpful in some ways or harmful in others This book aims to see how the mine materialized and the pushing factors that assist our decision making *By what Authority?* Richard R. Gaillardetz, 2003 Authority is exercised in many ways and forms in the Catholic Church today By What Authority offers a

to doctrines such as divine action and justification is properly and fully theological SCM Studyguide to Religious and Spiritual Experience Jeff Astley, 2020-03-31 Spiritual religious sacred or mystical experiences may be broadly defined as subjective human experiences that appear to the person undergoing them or to others to convey or imply contact with or knowledge about a transcendent power presence or superior reality beyond the realm of the physical Research has shown that these forms of awareness of something beyond are of considerable significance in the ordinary lives of very many people as well as being elements of signal importance in the origin and development of religion not least by deepening characteristically spiritual or religious attitudes emotions beliefs values and practices along with fundamental orientations of life and quests for meaning This Studyguide provides a succinct and lucid introduction to the subject for those studying religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon

The Entangled Trinity Ernest L. Simmons, 2014 The Doctrine of the Trinity is an exercise in wonder It is drawn from the wonder of our own existence and the diverse experiences of the divine encountered by the early Christian community From the earliest days of Christianity theologians of the church have drawn upon the most sophisticated language and understandings of their time in an attempt to clarify and express that faith In this volume Ernest Simmons asks what the current scientific understanding of the natural world might contribute to our reflection upon the relationship of God and the world in a Trinitarian fashion

McCarroll,2013-12-24 How do we hope in the face of modernity s failure and postmodernity s absence of foundations How do we hope when the future seems fearful and no clear way forward appears How do we hope when despair indifference and cynicism dominate the psychic landscape of English speaking North America In dialogue with theologians of the cross George Grant and Douglas John Hall this book unmasks the failure of hope in our time and the vacuum of meaning that remains As an exercise in the theology of the cross Waiting at the Foot of the Cross explores the North American context as one in which true hope is discovered only when life s negations are engaged from a posture of waiting trust Such hope is not passive or blind Rather it is attentive active open and spiritually grounded in the One who meets us when all hope is spent The final chapter proposes a way toward hope for today that inspires subversive resilience in the face of the ambiguities and vicissitudes of life Readers interested in the theology of the cross in thinking theologically in our time and place and those interested in the character of Christian hope will find this book compelling **Heiden und Christen im 5. Christian Prophecy Niels Christian Hvidt,2007-04-19 Throughout the Hebrew Bible God guides and saves his people through the words of his prophets When the prophets are silenced the people easily lose their way What happened after the incarnation death and resurrection of Christ Did God fall silent The dominant position in Christian theology is that prophecy did indeed cease at some point in the past if not with the Old Testament prophets then with John the Baptist with Jesus with the last apostle or with the closure of the canon of the New Testament Nevertheless throughout the history of Christianity there have always been acclaimed saints and mystics most of them women who displayed prophetic traits In recent years the charismatic revival in both Protestant and Catholic circles has once again raised the question of the place and function of

prophecy in Christianity Scholarly theological attitudes toward Christian prophecy range from modest recognition to contempt Mainstream systematic theology both Protestant and Catholic has mostly marginalized or ignored the gift of prophecy In this book however Niels Christian Hvidt argues that prophecy has persisted in Christianity as an inherent and continuous feature in the life of the church Prophecy never died he argues but rather proved its dynamism by mutating to meet new historical conditions He presents a comprehensive history of prophecy from ancient Israel to the present and closely examines the development of the theological discourse that surrounds it Throughout though there is always an awareness of the critical discernment required when evaluating the charism of prophecy The debate about prophecy Hvidt shows leads to some profound insights about the very nature of Christianity and the church For example some have argued that Christianity is a perfect state and that all that is required for salvation is acceptance of its doctrines Others have emphasized how God continues to intervene and guide his people onto the right path as the full implementation of God's salvation in Christ is still far away This is the position that Hvidt forcefully and persuasively defends and develops in this ambitious and important work
