Revenge And Retribution:

Revenge and Retribution Josh Wilker, Austin Sarat, 1998 Uses literature and case studies to chronicle the historic shift in the philosophy of punishing wrongdoers and examines the continuing tension between the desire for personal vengeance and public interest in lawfulness **Revenge and Retribution** Anna Belfrage, 2014 *Getting Even* Charles K. B. Barton, 1999 The author of this text aims to show that revenge is a required form of justice that should be incorporated into the criminal justice system He argues that the current system disempowers those who are victims of crime the accused and their respective communities **Forgiveness or Revenge? Restitution or Retribution?** Sheila Bibb, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 The authors of this volume seek to understand the paradoxes which so often arise when an action warrants either forgiveness or revenge on the part of the wronged individual or group

ThirdWay, 1979-09 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **Handbook of Justice Research in Law** Joseph Sanders, V. Lee Hamilton, 2007-05-08 Justice a word of great simplicity and almost frightening scope When we were invited to edit a volume on justice in law we joked about the small topic we had been assigned Often humor masks fear and this was certainly one of those times Throughout the project we found daunting the task of covering even a fraction of the topics that usually fall under the umbrella of justice research in law Ultimately the organization of the book emerged from the writing of it Our introductory chapter provides a road map to how the topics weave together but as is so often the case it was written last not first It was only when we had chapters in hand that we began to see how the many strands of justice research might be woven together Chapters 2 4 on the basic forms of justice procedural retributive and distributive are the lynchpin of the volume they provide the building blocks that permit us to think and write about each of the other substantive and applied chapters in terms of how they relate to the fundamental forms of justice In the large central section of the volume Chapters 5 9 the contributors address many ways in which the justice dimensions relate to one another Most important for law is the relationship of perceptions of procedural justice and the two types of substantive justice retributive and distributive **Philosophical Explanations** Robert Nozick, 1981 Nozick develops new views on philosophy's central topics and weaves them into a unified perspective He ranges widely over philosophy's fundamental concerns the identity of the self knowledge and skepticism free will the question of why there is something rather than nothing the foundations of ethics the meaning of life **Punishment & Sentencing** Mirko Bagheri, 2001-07 Sentencing is the most important area of law yet ironically it is also arguably the least coherent This book suggests a way of introducing principle into sentencing by bridging the gap between the philosophical justification for punishment and sentencing law and practice *The Ethical Dimensions of Global Development* Verna V. Gehring, 2007 As a broad concept globalization denotes the declining significance of national boundaries At a deeper level globalization is the proposition that nation states are losing the power to control what occurs within their borders and that what transpires

across borders is rising in relative significance The Ethical Dimensions of Global Development An Introduction the fifth book in Rowman Littlefield's Institute for Philosophy and Public Policy Studies series discusses key questions concerning globalization and its implications including Can general ethical principles be brought to bear on questions of globalization Do economic development and self government require a duty of care Is economic destiny crucial to individual autonomy This collection provides readers with current information and useful insights into this complex topic
