

- Україна – це територія гідності й свободи. Такими нас зробила не одна, а дві революції – наш Майдан 2004 року, який був Святом Свободи, і Революція 2013 року, Революція Гідності. Це був надзвичайно важкий іспит для України, коли українці продемонстрували свою європейськість, гідність, своє прагнення до свободи.

Revolution Alexander Petrunkevitch, 1918 **The Russian Revolution** Sheila Fitzpatrick, 2017-09-29 The Russian Revolution had a decisive impact on the history of the twentieth century In the years following the collapse of the Soviet regime and the opening of its archives it has become possible to step back and see the full picture Starting with an overview of the roots of the revolution Fitzpatrick takes the story from 1917 through Stalin's revolution from above to the great purges of the 1930s She tells a gripping story of a Marxist revolution that was intended to transform the world visited enormous suffering on the Russian people and like the French Revolution before it ended up by devouring its own children This updated edition contains a fully revised bibliography and updated introduction to address the centenary what does it all mean in retrospect **The History of the Russian Revolution** Lev Trotskii, 1961 **Revolution** Enzo Traverso, 2024-04-30 Brilliant and beautiful Now this book exists it's hard to know how we did without it China Miéville author of *October* A cultural and intellectual balance sheet of the twentieth century's age of revolutions This book reinterprets the history of nineteenth and twentieth century revolutions by composing a constellation of dialectical images Marx's locomotives of history Alexandra Kollontai's sexually liberated bodies Lenin's mummified body Auguste Blanqui's barricades and red flags the Paris Commune's demolition of the Vendôme Column among several others It connects theories with the existential trajectories of the thinkers who elaborated them by sketching the diverse profiles of revolutionary intellectuals from Marx and Bakunin to Luxemburg and the Bolsheviks from Mao and Ho Chi Minh to Jos Carlos Mariátegui C. L. R. James and other rebellious spirits from the South as outcasts and pariahs And finally it analyzes the entanglement between revolution and communism that so deeply shaped the history of the twentieth century This book thus merges ideas and representations by devoting an equal importance to theoretical and iconographic sources offering for our troubled present a new intellectual history of the revolutionary past [The Russian Revolution, 1905-1921](#) Mark D. Steinberg, 2017 A new history of the Russian Revolution exploring how people experienced it in their own lives from Bloody Sunday in 1905 to the final shots of the civil war in 1921 The Russian Revolution 1905-1921 focuses on human experience to address key issues of inequality power and violence and ideas of justice and freedom **The Process of Revolution** George Sawyer Pettee, 1938 **The History of the Russian Revolution** Lev Davidovič Trockij, 1967 **Reflections on the Revolution of Our Time** Harold Laski, 2017-07-05 Harold J. Laski saw World War Two as a period of revolutionary change as profound as any in the modern history of the human race In his view the period's inner nature was as significant in its essentials as those which saw the fall of the Roman Empire the birth in the Reformation of capitalist society or as in 1789 the final chapter in the dramatic rise of the middle class to power All of these were not revolutions made by thinkers though some of them may have foreseen its coming but of ordinary people who shaped the large outlines of the direction of these changes Laski held that revolutions of our time have been rooted in all that goes to give its present character to our society We can recognize its advent and prepare for it in that event we might build a civilization richer and more secure than any of which we so far have knowledge Or we may choose to resist its onset in

which case it will appear to some future generation that our age has sought rather to sweep back the tides of the ocean than to oppose the decrees of men The curse of our social order is its persistent inequalities Either we must find ourselves able to co operate in their removal or we shall move rapidly to conflict about them Laski argues that the middle class must co operate with workers in essential revisions as the aristocracy was wise enough to do a century ago over the Reform Bill or violent revolution will be unleashed by means that transforms the ends of either party to the conflict in view This is the choice that lies before us Just how accurate or wide of the mark Laski was is brilliantly articulated in the critical introduction by Sidney A Pearson Jr Permanent Revolution Leon Trotsky, 2008-11 PERMANENT REVOLUTION PREFACE AMERICAN EDITION As THIS book goes to press in the English language the whole thinking part of the international working class and in a sense the whole of civilized humanity listens with particularly keen interest to the reverberations of the economic turn taking place on the part of the former czarist empire The greatest attention in this connection is aroused by the problem of collectivizing the peasant holdings And no wonder in this sphere the break with the past assumes a particularly clear cut character But a correct evaluation of collectivization is unthinkable without a general conception of the socialist revolution And here on an even higher plane we are again convinced that everything in the field of Marxian theory is bound up with practical activity The most remote and it would seem abstract disagreements if they are thought out to the end will sooner or later be expressed in practice and the latter allows not a single theoretical mistake to be made with impunity The collectivization of peasant holdings is it is understood the most necessary and fundamental part of the socialist transformation of society The volume and tempo of collectivization however are not only determined by the governments will but in the final analysis by the economic factors by the height of the countrys economic level the relationship between industry and agriculture PERMANENT REVOLUTION and consequently by the technical resources of agriculture itself Industrialization is the motive force of the whole newer culture and by that the only conceivable basis of socialism In the conditions of the Soviet Union industrialization means first of all the strengthening of the base of the proletariat as a ruling class Simultaneously it creates the material and technical premises for the collectivization of agriculture The tempos of both these processes are interdependent The proletariat is interested in the highest tempos for these processes in so far as the new society that is to be created is thus best protected from external danger and at the same time creates a source for systematically improving the material level of the toiling masses However the tempo that can be accomplished is limited by the whole material and cultural position of the country by the mutual relationship between the city and village and by the most urgent needs of the masses who can sacrifice their today for the sake of tomorrow only up to a certain point The best and most advantageous tempos are those which not only produce the most rapid development of industry and collectivization at the given moment but secure the necessary resistance of the social regime that is first of all the strengthening of the alliance of the workers and peasants which alone prepares the possibility of further successes From this

point of view the general historical criterion by which the party and state leadership directs the development of industry as planned economy assumes decisive significance Here two principal variants are possible a the course described above towards the economic entrenchment of the proletarian dictatorship in one country until further victories of the international proletariat revolution the viewpoint of the Left Opposi tion b the course towards the construction of an isolated national socialist society and at that in the shortest PREFACE historical time the present official viewpoint These are two distinct and in the final analysis directly opposed theoretical conceptions of socialism Out of these flow basically different strategy and tactics In the limits of this foreword we cannot consider anew the question of the cofcstruction of socialism in one country Other of our works are devoted to this particularly The Criticism of the Draft Program of the Comintern Here we limit ourselves to the fundamental elements of the question Russian Revolution Henry Freeman,2016-05-30 Russian Revolution The Russian Revolution in 1917 was a moment in time when the will of the people put an end to a system of government that had been in place for centuries The story of Russia s transition from Imperial reign to eventual Communist dictatorship is a tale rooted in the ranks of the common people and the men who rose to lead them Inside you will read about Czarist Rule Karl Marx and Friedrich Engels Nicholas Romanov Rasputin World War Lenin October Revolution Stalin And much more Dedication to the ideals of socialism remade Russian society Worker s Rights human equality world war murder mysticism blood and tyranny collide in the heart of Russia to irrevocably alter the culture of this great nation and the world
