Fighting Authoritarianism Britt Haas,2021-05-20 This engaging study of progressive youth organizations charts their origins their quest to fashion an America true to its ideals and their demise Phillip Deery Victoria University Melbourne During the Great Depression young radicals in New York developed a vision of and for America molded by their understanding of the Great War and global economic collapse as well as other events unfolding both at home and abroad They worked to make their vision of a free equal democratic society based on peaceful coexistence a reality Their attempts were ultimately unsuccessful but their voices were heard on a number of issues including free speech racial justice and peace A major contribution to the historiography of the era Fighting Authoritarianism provides an important new examination of US youth activism of the 1930s including the limits of the New Deal and how youth activists pushed FDR Eleanor Roosevelt and other New Dealers to do more to address economic distress and social inequality and promote more inclusionary politics Britt Haas questions the interventionist versus isolationist paradigm and also explores the era not as a precursor to WWII but as a moment of hope about institutionalizing progress in freedom equality and democracy Fighting Authoritarianism corrects misconceptions about these activists vision heavily influenced by the American Dream they d been brought up to revere For them that meant embracing radical ideologies especially the socialism and communism widely discussed debated and promoted on the city s college campuses They didn t believe they were turning their backs on American values instead they thought such ideologies were the only way to make America live up to its promises This study also outlines the careers of Molly Yard Joseph Lash and James Wechsler how they retracted and for Yard and Lash reclaimed their radical past and how New York continued to hold a prominent platform in their careers Lash and Wechsler worked for the New York Post the latter as editor until 1980 Examining the decade from this perspective highlights the promise of America as young people understood it a historic moment when anything seemed possible *Revolt on the Campus. by James Wechsler* James Arthur Wechsler,1935 Hearings and Reports: State Department-file survey. State Department United States. Congress. House. Committee on Government Operations,1953 The City as Campus Sharon Haar,2011 A social and design history of the urban campus *Sidelined* Simon Henderson,2013-03-01 A sociologist and oral historian explores the interwoven histories of sports and civil rights activism in this extensively researched volume In 1968 noted sociologist Harry Edwards established the Olympic Project for Human Rights calling for a boycott of that year s games in Mexico City as a demonstration against racial discrimination Though the boycott never

materialized Edwards's ideas struck a chord with athletes and incited African American Olympians Tommie Smith and John Carlos to protest by raising their black gloved fists on the podium after receiving their medals. *Sidelined* draws upon a wide range of historical materials and more than forty oral histories with athletes and administrators to explore how the black athletic revolt used professional and college sports to promote the struggle for civil rights in the late 1960s. By examining activists' successes and failures in promoting racial equality on one of the most public stages in the world, Henderson sheds new light on an often overlooked subject and gives voice to those who fought for civil rights both on the field and off. **The American College and the Culture of Aspiration, 1915-1940** David O. Levine, 2019-06-30 Is higher education a right or a privilege? Who should go to college? What should they study there? These questions were hotly debated between the world wars when an unprecedented boom in college enrollments forced Americans to struggle between their belief in the importance of educational opportunity and their desire to preserve the existing social structure. In *The American College and the Culture of Aspiration, 1915-1940*, David O. Levine offers the first in-depth history of higher education during this era, a period when colleges and universities became arbiters of social and economic mobility and a hierarchy of schools evolved to meet growing demands for occupational training and socialization. **Howard Zinn's Southern Diary** Robert Cohen, 2018-09-15 The activist and author of *A People's History of the United States* records an in-depth and personal account of the Civil Rights Movement in Atlanta. During the Civil Rights Movement of the 1960s, students of Spelman College, a black liberal arts college for women, were drawn into the historic protests occurring across Atlanta. At the time, Howard Zinn was a history professor at Spelman and served as an adviser to the Student Nonviolent Coordinating Committee. Zinn mentored many of Spelman's students fighting for civil rights at the time, including Alice Walker and Marian Wright Edelman. Zinn's involvement with the Atlanta student movement and his closeness to Spelman's leading activists gave him an insider's view of the political and intellectual world of Spelman Atlanta University and the SNCC. He recorded his many insights and observations of the time in his Spelman College diary. Robert Cohen presents Zinn's diary in full, along with a thorough historical overview and helpful contextual notes. It is a fascinating historical document of the free speech, academic freedom, and student rights battles that rocked Spelman and led to Zinn's dismissal from the college in 1963 for supporting the student movement. *M. Stanton Evans* Steven F. Hayward, 2022-03-22 M. Stanton Evans died in 2015; he was one of the unsung heroes and key figures of the modern conservative movement, offering a model to be remembered and emulated in both thought and deed. A person of extraordinary breadth, he combined the roles of journalist, first-rank thinker, and political action, often at the center of crucial events for the conservative movement from the mid-1950s to his last decade in the 2010s. He was the principal author of the *Sharon Statement*, the founding document of Young Americans for Freedom. Evans was also a mentor to an entire generation of conservative writers and journalists, including Ann Coulter, John Fund, Martin Morse Wooster, Tim Carney, Richard Miniter, William McGurn, and this author. Evans was libertarian in economics and policy.

traditionalist in moral and social matters respectful of religion and resolutely anti Communist Over the years he wrote a number of elegant articles and one book *The Theme is Freedom* that reconciled many of the strains that often appear between these differing schools of conservative thought He also wrote a controversial defense of Joseph McCarthy Blacklisted by History which is one of many examples of his fearlessness in contesting the conventional wisdom Beyond his professional profile Stan was also known for his ironic dry wit which only came out in person as well as his personal modesty and kindness and fondness for fast food sports and classic rock and roll music trivia He was the conservative for the common man

When the Old Left Was Young Robert Cohen, 1993-04-29 The Depression era saw the first mass student movement in American history The crusade led in large part by young Communists was both an anti war campaign and a movement championing a broader and more egalitarian vision of the welfare state than that of the New Dealers The movement arose from a massive political awakening on campus caused by the economic crisis of the 1930s the escalating international tensions and threat of world war wrought by fascism At its peak in the late 1930s the movement mobilized at least a half million collegians in annual strikes against war Never before and not again until the 1960s were so many undergraduates mobilized for political protest in the United States The movement lost nearly all its momentum in 1939 when the signing of the Hitler Stalin pact served to discredit the student Communist leaders Adding to the emerging portrait of political life in the 1930s this book is the result of an extraordinary amount of research has fascinating individual stories to tell and offers the first comprehensive history of this student insurgency
