The gospel of peace. you will save the world daide appi,2022-06-14 A BOOK DEDICATED TO HOPE Humanity is at a crossroads between self destruction and change Are you negative and pessimistic Do you feel uneasy about the future Are you unhappy because of your daily problems not to mention wars crises and pollution I will give you many reasons to become positive peaceful and able to achieve peace beyond imagination I will take you on a fantastic journey into your own mind to go beyond it In fact the ordinary mind thinks it can change things but it cannot That is why we never solve our own problems and those of the planet But how do we go beyond the mind to generate real change Meditation is the main tool to change ourselves and the world around us We can stop wars we can stop crime there is no limit to what we can do The Maharishi effect which has been scientifically studied many times shows that with the power of our intention and meditation we can actually do something in terrible situations such as armed conflicts violence and crime And if it works for the most extreme cases this means that even in less tragic situations such as our daily lives we have a much greater margin of intervention in events close to us than we are used to believing A limited number of street lamps are needed to illuminate the streets of an entire city just as 1% of the population of a city of a nation or of the entire planet who are able to reach a state of deep meditation are enough to bring light and remove the darkness from consciousness A small group of awakened people are enough to irradiate and enlighten all other people who will unconsciously change their way of thinking and acting Does all this sound like science fiction too good to be true Whether

you believe you can or believe you can't you are still right Since the Universe is subjective our way of believing the world our beliefs becomes our reality What we are and what we think spreads and reflects throughout the Universe Do you realise the implications of this With our thinking we not only influence ourselves but also the environment we live in our planet and even the entire Universe We are a miniature Universe but a hologram of the Whole and we embody the infinite possibilities of the Universe itself Translator Alessandra Cervetti PUBLISHER TEKTIME **ThirdWay** ,2003-10 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **On Kindness** Adam Phillips,Barbara Taylor,2010-04-14 In this brilliant epigrammatic book the eminent psychoanalyst Adam Phillips and the social historian Barbara Taylor examine the terrors of kindness and return to the reader the intense satisfactions of generosity and compassion Kindness is the foundation of the world's great religions and most enduring philosophies Why then does being kind feel so dangerous If we crave kindness with such intensity why is it often the last pleasure we permit ourselves And why despite our longing are we often suspicious when we are on the receiving end of it Drawing on intellectual history literature psychoanalysis and contemporary social theory this brief and essential book will return to its readers what Marcus Aurelius declared was mankind's greatest delight the intense satisfactions of generosity and compassion *You Have Seen Me and I Am Grateful* Peter C. Wilcox,2023-12-27 In the Gospel of Mark chapter 10 Jesus passes by Bartimaeus a blind beggar Bartimaeus calls out Master let me see again Jesus cures him and gives him back his sight So many things in life depend on the way we see things This book is an invitation to look at the way we see things in life We may not be physically blind like Bartimaeus but each of us can be blind in our own ways Reading through these pages will hopefully give you the opportunity to change the way you look at something that holds you back from growing psychologically and spiritually Using the Scriptures stories and examples from over thirty years as a psychotherapist and spiritual director as well as insights from a variety of authors this book invites us to reflect on our own ways of being blind so that like Bartimaeus we might be able to call out to Jesus Master let me see again **ThirdWay** ,2003-10 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **"A Journey Towards Happiness"** Aufie Zophy,2025-04-12 In a small poem a little purple flower finds happiness So will you through walking on this path paved with poems and short essays about gems of wisdom on living a life filled with happiness Enjoy the poetic voyage that will unmistakably awaken your awareness about some of the biggest gifts that life offers us on a daily basis The author enkindles the peace from without and from within He will put your heart and soul on fire for experiencing beauty with all your senses The most exquisite poetic diamonds you will find in the chapter on love and kindness before embarking on a trip of creativity and courage to reach in the end full insight on the significance of our contributions to the world Enjoy the poems of happiness enjoy the happiness Kindness Wars Noel A. Cazenave,2023-09-15 Kindness Wars rescues our understanding of kindness from the clutches of an intellectually and morally myopic popular psychology and returns it to the stage of big ideas

in keeping with the important Enlightenment era debates about human nature and possibilities Cazenave conceptualizes kindness not just as a benevolent feeling a caring thought or a generous action but as a worldview a theory or an ideology that explains who we are and justifies how we treat others Here kindness wars refer to the millennia old kindness theory and ideological conflicts over what kind of societies humans can and should have The book's title denotes the two types of kindness wars it analyzes conflict over 1 whether to be kind or not i.e. the conflicts between kindness and other societal values and ideologies and 2 what it means to be kind i.e. the wars within kindness over different ideas as to what it means to be kind and to whom Using a conflict theoretical perspective Kindness Wars examines the history of the kindness concept its many struggles with opposing notions of our true nature and possibilities and what the lessons of that history and those battles offer us toward the development of a large robust and politically engaged conceptualization of kindness

The Kindness Revolution Ed Horrell, Edward Horrell, 2006 Reenergize your company's customer service and inspire greater customer loyalty using the power of kindness Despite what some may think the war against bad customer service will not be won on the front lines by changing specific techniques and processes at the customer contact level Rather it's a culture of kindness and consideration up and down the entire organization that fundamentally changes employee attitudes toward customers It's what makes the difference between a short term relationship and long term customer loyalty Based on extensive research and featuring real life examples from companies known for their outstanding customer service such as L L Bean FedEx and Chick-fil-A The Kindness Revolution examines how eliminating indifference in the workplace from the top down helps fuel unbelievably positive customer interactions The book shows readers what kind companies have in common a widespread culture of dignity respect courtesy and kindness and how to replicate it at their own organization Inspiring and practical The Kindness Revolution shows readers how to take the critical step toward truly outstanding and self-perpetuating customer service
