Rudolf Steiners Research Into Karma And The Mission Of The Anthroposophical Society:

Rudolf Steiner's Research Into Karma and the Mission of the Anthroposophical Society Sergei O.

Prokofieff,1995 In this inspiring lecture addressed to the anthroposophical movement Prokofieff explains that true modern Christian research into karma does not arise out of intellectual speculation curiosity or nebulous mystical experiences The process of karmic research based on spiritual science leads to a fundamental transformation of our human nature enabling us to fully experience the cosmos in which we exist Giving an overview of how the spiritual hierarchies and Christ the Lord of Karma work in the ordering of human karma Prokofieff leads us to the karma and mission of the Anthroposophical Society indicating what must come about before the end of the century if this karmic mission is to be fulfilled **Rudolf Steiner's Research Into Karma and the Mission of the Anthroposophical Society** Sergei O. Prokofieff,2010-10-15 Research into the sphere of karma forms the basis of the modern spiritual science of Anthroposophy For only by learning to understand these laws can the human being realize how spiritual forces work simultaneously in man and the cosmos and link the two into a higher unity In this inspiring lecture addressed primarily to followers of the anthroposophic movement Prokofieff gives an overview of how the spiritual hierarchies and Christ the Lord of Karma work in the ordering of human karma We are led to the karma and mission of the Anthroposophical Society with indications as to what needs to happen before that karmic mission can be fulfilled Prokofieff explains why true modern Christian research into karma does not arise from intellectual speculation curiosity or nebulous mystical experiences The process of karmic research based on spiritual science should lead to a fundamental transformation of human nature and lead to a full experience of the cosmos Rudolf Steiner's Sculptural Group Sergei O. Prokofieff,2013 Saved by good fortune from the flames that engulfed the first Goetheanum Rudolf Steiners wooden sculpture of the Christ the Representative of Humanity standing between the adversary forces of Lucifer and Ahriman remains intact although unfinished and on display to this day Unique in the history of art the Sculptural Group was deeply connected to Rudolf Steiners inner being The great Christian initiate even died by its side having made efforts to work on the sculpture days before he crossed the threshold *Rudolf Steiner's Path of Initiation and the Mystery of the Ego* Rudolf Steiner,Sergei O. Prokofieff,2013 2 lectures by Sergei O Prokofieff Bologna March 31 April 8 2011 A special conference took place in Bologna in spring 2011 marking the hundredth anniversary of a unique lecture Steiner delivered to a philosophically trained audience in the same city In his key exposition Steiner had given a concise description of the spiritual scientific theory of knowledge as well as a brief outline of the anthroposophic path of training In his contribution to the 2011 congress Prokofieff tackles two principal aspects On the one hand he describes how Steiner s Bologna lecture contained the essential foundations for a new science of the human ego the human I On the other hand Prokofieff states that Steiner was the first person to transform this theory into a practical path of knowledge following it to its very conclusion Thus the words of Steiner s lecture were based entirely on personal experience Together with a transcript of Steiner s full

Bologna lecture Prokofieff's lecture is reproduced here in an expanded version In addition this volume features Steiner's important summaries of essential points in which he develops and connects some of his key thoughts with further aspects of Anthroposophy especially in relation to their Christological foundations

The Burning Bush Edward Reaugh Smith, 1997 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of The Burning Bush is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit

Why Become a Member of the Anthroposophical Society? Sergei O. Prokofieff, 2012 Why become a member of the Anthroposophical Society Is the Anthroposophical Society really needed today The future of the society according to Sergei O Prokofieff depends directly on competent responses to such questions by each and every anthroposophist With these considerations it is not the author's concern to persuade the reader in an outward way to join the Anthroposophical Society He is concerned with the communication of a few esoteric viewpoints and possible motives so that the decision in this regard can develop in a fully aware and responsible manner based on a solid inner cognitive foundation For only when the decision in regard to membership in the Anthroposophical Society for whatever reason the individual might make it occurs on such a basis does it also have spiritual justification from the preface

May Human Beings Hear It! Sergei O. Prokofieff, 2014-03-12 During the Christmas period of 1923-4 Rudolf Steiner refounded the Anthroposophical Society at its headquarters in Dornach Switzerland This important event which has come to be known as the Christmas Conference can be studied on many levels and its many mysteries have been central to Sergei O Prokofieff's anthroposophical research over the years His beginning point has been an enduring question What did Rudolf Steiner mean when he called the Christmas Conference the start of a World Turning point of Time In this far reaching work the author working from several different viewpoints guides the reader towards an answer Prokofieff suggests that the impulse of the Christmas Conference can only be reenlivened today through

conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the Conference and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity s evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of May Human Beings Hear It are complete in themselves and can therefore be studied independently of each other

The Cycle of the Seasons and the Seven Liberal Arts Sergei O. Prokofieff,1995 The arts have always been characterized by a strong element of community building We can deepen and strengthen this impulse significantly today by establishing a connection between the various arts the cycle of the seasons and its festivals The great ideal of the synthesis of science art and religion

The Cycle of the Year as a Path of Initiation Sergei O. Prokofieff,2014-03-12 In ancient times humanity possessed an innate knowledge of the spiritual foundations of existence Such knowledge could be acquired through inwardly accompanying the cycle of the year and its connected great seasonal festivals But this instinctive knowledge had to be lost in order for human beings to discover individual freedom In our time as Sergei O Prokofieff demonstrates in this comprehensive work this knowledge must be found anew through the free light filled consciousness of the fully developed human personality Tracing the spiritual path of the yearly cycle Prokofieff penetrates to the deeper esoteric realities of the seven Christian festivals of Michaelmas Christmas Epiphany Easter Ascension Whitsun and St John s Tide Basing his research on the work of the twentieth century initiate Rudolf Steiner he reveals how these festivals are spiritual facts that exist independently of religious traditions and cultural customs Working with the festivals in an esoteric sense can provide a true path of initiation ultimately enabling an experience of the Being of the Earth Christ The journey of study through this book can thus lead the reader to an experience of the modern Christian Rosicrucian path along which it is possible to take the first steps towards life in partnership with the course of cosmic existence

The Esoteric Significance of Spiritual Work in Anthroposophical Groups Sergei O. Prokofieff,2007 The anthroposophical community seeks to lift human souls into supersensible realms so that they may enter the company of angels Rudolf Steiner Sergei Prokofieff traces the three stages of heavenly preparation of Anthroposophy the spiritual thunderstorm the Michael School in the Sun sphere and the imagination based cultus in the spiritual word nearest the Earth These events involved the nine spiritual hierarchies associating them with the karma of the anthroposophic movement The author goes on to elaborate the tasks of the Anthroposophical Society and indicates how these are connected with the spiritual hierarchies the Michael movement the Grail mysteries the work of new group souls and the Foundation Stone Meditation He shows that in an esoteric sense the General Anthroposophical Society was created so that people could learn to work with the gods This is a vital book for all those who care deeply about the future of the Anthroposophical Society and the proper evolution of humanity

Into the Heart's Land Henry Barnes,2005-08 Henry

Barnes the author of *A Life for the Spirit* brings us a comprehensive view of the roots and development of anthroposophy throughout North America. From its seminal beginnings with a few hearty souls in New York City it moved across the prairies to the west coast and beyond to Canada, Mexico and Hawaii and took root in the hearts and minds of the new world. Here is the story of those adventurous spirits who took responsibility for bringing the work of Rudolf Steiner to North America in the form of study groups, agricultural initiatives, Waldorf and special education, the arts and so much more. Rudolf Steiner's Core Mission T. H. Meyer, 2010. Rudolf Steiner's core mission repeatedly delayed owing to the lack of capacity in his colleagues was to pursue contemporary spiritual scientific research into the phenomena of reincarnation and karma. This stimulating book describes the winding biographical path of that mission. It focuses in particular on the mystery of Steiner's connection with the influential medieval philosopher and theologian Thomas Aquinas. Using numerous archival sources and publications, Thomas Meyer reveals many facts related to the core of Steiner's mission, showing the critical roles played by Wilhelm Anton Neumann and Karl Julius Schröter in its genesis and development. Meyer examines how Rudolf Steiner's students responded to his understanding of karma, placing this most intrinsic mission in the context of current divisions in the anthroposophic movement. He highlights especially the place of spiritual science in culture and history and shows how Steiner further developed the great scientific ideas of evolution propounded by Darwin by raising them to the plane of individual soul and spiritual development. As Steiner stated in 1903: "Scientific researchers explain the skull forms of higher animals as a transformation of a lower type of skull. In the same way one should explain a soul's biography through the soul biography which the former evolved from."

Relating to Rudolf Steiner Sergei O. Prokofieff, 2008. Even within the Anthroposophical Society and the anthroposophic movement, people's relationship to Rudolf Steiner is weakening and dissipating. This is problematic, says Prokofieff, as the future of both the Society and movement depends on a sufficient number of people aspiring to and realizing a true spiritual connection with the founder of Anthroposophy. Prokofieff deals in detail with this issue and asks: "Can one be an anthroposophist without being Rudolf Steiner's pupil?" In the second part of this book, Prokofieff elaborates on the mysteries surrounding the laying of the spiritual Foundation Stone at the Society's Christmas Meeting that began 1923. That event, he asserts, ensured that a personal relationship with Rudolf Steiner would not remain within the realm of the generally abstract or intellectual but would become a real inner deed. Thus Steiner gave each anthroposophist the possibility of connecting with him through free inner work on the Foundation Stone. Both parts of this book are linked in the sense that once a relationship with Steiner is established, an inner longing to work with the new mysteries will follow. In Prokofieff's words: "The will to take the foundation of the new mysteries seriously leads to a real inner connection with Rudolf Steiner."

Relating to Rudolf Steiner includes an essay on the problem of digitally publishing Steiner's most important esoteric texts and the esoteric background of the internet and electronic media in general. In response to readers' questions about how to counteract the harmful consequences of these developments, Prokofieff has expanded and

developed his original essay on this subject **The Creative Power of Anthroposophical Christology** Sergei O. Prokofieff, Peter Selg, 2011-10-18 Introductory essays written 1884-1897 CW 1 The holistic paradigm Gaia deep ecology and new alchemy all have a hidden ancestor Johann Wolfgang von Goethe 1749-1832 At the youthful age of twenty-one Steiner was chosen to edit Goethe's scientific writings for the principle Goethe edition of his time Goethe's literary genius was universally acknowledged it was Steiner's task to understand and comment on Goethe's scientific achievements Steiner recognized the significance of Goethe's work with nature and his epistemology and here began Steiner's own training in epistemology and spiritual science This collection of Steiner's introductions to Goethe's works re-vision the meaning of knowledge and how we attain it Goethe had discovered how thinking could be applied to organic nature and that this experience requires not just rational concepts but a whole new way of perceiving In an age when science and technology have been linked to great catastrophes many are looking for new ways to interact with nature With a fundamental declaration of the interpenetration of our consciousness and the world around us Steiner shows how Goethe's approach points the way to a more compassionate and intimate involvement with nature Nature's Open Secret is a translation of Goethe's *Naturwissenschaftliche Schriften Einleitungen* 1884-1897 Previous translations were titled *Goethe the Scientist* and *Goethean Science* GA 1 The Soul's Long Journey Edward Reaugh Smith, 2003-11 Here are amazing insights showing reincarnation to be deeply and powerfully revealed in the Bible's most fundamental aspects How and why have these insights escaped attention for so long At last they are uncovered here by a confluence of conventional Bible study and the epochal spiritual discoveries of Rudolf Steiner With particular emphasis on the organic provisions of the Old Testament Smith shows both what the assumptions of the Master's hearers were and how the New Testament confirms the ancient heritage Arising from the fullness of the canon is an exciting story of the long journey of humanity and every human soul each a beloved sheep whom the Creator is unwilling to lose Combining a lifetime of biblical study and teaching fifteen years investigating and contemplating Rudolf Steiner's vast works and almost three decades of applying the analytical skill required in an intense law practice Smith has produced a potential classic the serious Bible student can ill afford to ignore Why Become a Member of the School of Spiritual Science? Sergei O. Prokofieff, 2012-10-15 Abstract ideals will be replaced by concrete ideals corresponding to forward moving evolution If that does not succeed the Earth would submerge into materialism and humanity would have to start over again following a great catastrophe either on Earth itself or on a near planet The Earth needs Anthroposophy One who understands that is an anthroposophist Rudolf Steiner Feb 27 1910 Sergei O Prokofieff developed this little book from talks to members of the Anthroposophical Society They became opportunities for many to question potential membership of the First Class in a more conscious way and for some to take the decisive step of entering the Michael School This experience gave rise to the occasion for printing this lecture separately for interested individuals as a stimulus to consider their relationship to the Michael School on Earth against the background of the karma that guides

human beings in their present incarnation to anthroposophy In this sense the present text may well be an aid for some interested individuals to grasp to its full extent the unique significance of the establishment of the Esoteric School carried out as it was by Rudolf Steiner based on the Michael Spirit so as to gain the courage and will to become a member out of full inner conviction from the preface

The Appearance of Christ in the Etheric Sergei O. Prokofieff, 2012 Dedicated to the centenary of Rudolf Steiner's first proclamation of Christ's appearance in the etheric realm of the Earth this book discusses various aspects of that event that had not previously been addressed adequately Sergei Prokofieff points to three themes of primary importance all of which are connected directly with the tasks of the Society that Rudolf Steiner founded The preparation of humankind for the Second Coming Working with Christ as the Lord of Karma Recognizing in Anthroposophy the spiritual language through which questions can be posed to the etheric Christ today Prokofieff describes these and other critical undertakings such as forging a strong relationship with Michael and the importance of recognizing the adversarial forces attempting to falsify Christ's Second Coming The Appearance of Christ in the Etheric is of relevance to every individual who wishes to take an active role in fulfilling the needs of our time

The Whitsun Impulse and Christ's Activity in Social Life Sergei O. Prokofieff, 2010 What is Whitsun or Pentecost and how can its impulse be furthered for the future of society How can social life become the bearer of the Christ impulse and how can Christ himself enter social life directly In this small booklet Sergei Prokofieff discusses the significance of spiritual work conducted in a social setting and its crucial role in preparing for the future epoch of the spirit self The spiritual and social tasks before us he tells us can be achieved only through mutual efforts with one another Moreover for such social activity the General Anthroposophical Society with all of its different groups and branches which unite all anthroposophists in the world plays a fundamental role Thus the spiritual tasks of the General Anthroposophical Society gradually unite with the tasks of all humankind This booklet consisting of the report of a lecture and supplemented with an essay is an important companion to another publication by this author The Esoteric Significance of Spiritual Work in Anthroposophical Groups

The Mystery of the Resurrection in the Light of Anthroposophy Sergei O. Prokofieff, 2010 We live today at a time when the full mystery of the Resurrection body can become manifest to human beings out of the inspirations of Michael This was accomplished by Rudolf Steiner not just in a theoretical sense but also practically and came about through the establishing of a path accessible to all human beings which leads to a union with the forces of the Resurrection body Sergei Prokofieff approaches the deepest mysteries of the Turning Point of Time the Christ event through Rudolf Steiner's spiritual research At its heart stands the question of the restoration of the phantom of the physical body and its transformation into the resurrected body of Christ through the Mystery of Golgotha The author draws a broad and differentiated picture of the tasks and possibilities that the Easter event as well as Ascension and Pentecost present both for the individual and humanity The final chapter considers the mystery of Easter Saturday through which the two polar aspects of the Mystery of Golgotha death and resurrection interconnect also

explaining the relationship between the Earth Spirit and the interior of the Earth An appendix tackles the phenomenon of stigmatization from a spiritual scientific perspective *The Guardian of the Threshold and the Philosophy of Freedom*

Sergei O. Prokofieff, 2011 The mystery of the Guardian and the Threshold he protects belong among the central most significant themes on the path of modern initiation For without the encounter with the Guardian the Threshold to the spiritual world can never be crossed in full consciousness The consequence would then be that for all the experiences in the realm on the other side of the Threshold there can be no certainty as to the truth of their contents from the preface Just as an entire plant is contained in seminal form in its seed the whole of Anthroposophy can be discovered in Rudolf Steiner's central work *The Philosophy of Freedom* *Intuitive Thinking as a Spiritual Path* a book that lays the foundation for a modern scientific path to the spiritual world Given the centrality of the Guardian of the Threshold to modern initiation one may ask where this theme can be found in *The Philosophy of Freedom* Sergei Prokofieff presents his insights to this little researched question in the first part of this volume In the second part he investigates the connection of *The Philosophy of Freedom* to the content of Rudolf Steiner's research into to what he called *The Fifth Gospel* Prokofieff's thoughtful commentary sheds new light on the connection between Rudolf Steiner's early work and what he developed later in life Study of the relevant texts reveals that the roots of Steiner's early work lie in the same spiritual reality the Christ impulse as that of the later Anthroposophy he would develop
