Peirce, Signs, and Meaning Floyd Merrell, 1997-05-24 C S Peirce was the founder of pragmatism and a pioneer in the field of semiotics His work investigated the problem of meaning which is the core aspect of semiosis as well as a significant issue in many academic fields Floyd Merrell demonstrates throughout Peirce Signs and Meaning that Peirce s views remain dynamically relevant to the analysis of subsequent work in the philosophy of language Merrell discusses Peirce s thought in relation to that of early twentieth century philosophers such as Frege Russell and Quine and contemporaries such as Goodman Putnam Davidson and Rorty In doing so Merrell demonstrates how quests for meaning inevitably fall victim to vagueness in pursuit of generality and how vagueness manifests an inevitable tinge of inconsistency just as generalities always remain incomplete He suggests that vagueness and incompleteness generality overdetermination and underdetermination and Peirce s

phenomenological categories of Firstness Secondness and Thirdness must be incorporated into notions of sign structure for a proper treatment of meaning He also argues that the twentieth century search for meaning has placed overbearing stress on language while ignoring nonlinguistic sign modes and means Peirce Signs and Meaning is an important sequel to Merrell s trilogy Signs Becoming Signs Semiosis in the Postmodern Age and Signs Grow This book is not only a significant contribution to the field of semiotics it has much to offer scholars in literature philosophy linguistics cultural studies and other academic disciplines in which meaning is a central concern

Crisis Cinema in the Middle East Shohini Chaudhuri,2022-06-16 In recent years the Arab world and Iran have been afflicted by cataclysmic

events among them brutal state crackdowns of revolutions Yet filmmakers have persisted in their desire to tell their stories against the odds in creative acts that attest to their imagination courage and resilience In this book Shohini Chaudhuri examines a broad range of films made during the tumultuous period since 2009 ranging from internationally award winning festival favourites such as For Sama 2019 Capernaum 2018 and Taxi Tehran 2015 to lesser known films from the region While freedom of expression is often understood through the lens of state censorship she reveals the different types of obstacles that filmmakers face and their strategies for overcoming them so that those constraints are transformed into creative opportunities Using her original interviews with filmmakers such as Waad al Kateab Yasmin Fedda Larissa Sansour Mani Haghighi and Ossama Mohammed she identifies nine creative strategies for producing work under conditions of crisis Chaudhuri argues that creativity is indelibly shaped by constraints whether these are externally imposed by existing materials funding and socio political conditions or self imposed constraints through choices of genre or acceptance of rules and responsibilities She shows that the range of creative strategies emanating from the region is much wider than allegory and becoming ever more direct She thus opens up new lines of inquiry into cinematic creativity in sites of conflict and crisis in the Middle East and beyond

Chicago Hustle and Flow Geoff Harkness, 2014-09-01 On September 4 2012 Joseph Coleman an eighteen year old aspiring gangsta rapper was gunned down in the Englewood neighborhood of Chicago Police immediately began investigating the connections between Coleman s murder and an online war of words and music he was having with another Chicago rapper in a rival gang In Chicago Hustle and Flow Geoff Harkness points out how common this type of incident can be when rap groups form as extensions of gangs Gangs and rap music he argues can be a deadly combination Set in one of the largest underground music scenes in the nation this book takes readers into the heart of gangsta rap culture in Chicago From the electric buzz of nightclubs to the sights and sounds of bedroom recording studios Harkness presents gripping accounts of the lives beliefs and ambitions of the gang members and rappers with whom he spent six years A music genre obsessed with authenticity gangsta rap promised those from crime infested neighborhoods a ticket out of poverty But

while firsthand experiences with gangs and crime gave rappers a leg up it also meant carrying weapons and traveling collectively for protection Street gangs serve as a fan base and provide protection to rappers who bring in income and help to recruit for the gang In examining this symbiotic relationship Chicago Hustle and Flow ultimately illustrates how class stratification creates and maintains inequalities even at the level of a local rap music scene

Will the Circle Be Unbroken? John L. Hare,2020-04-03 First published in 2002 This work examines eight Virginia novels against the background of the political and social concerns of the Jacksonian years in which they were written arguing that the authors used familial processes as a metaphor to discuss issues that they regarded as critical Each chapter focuses on a single novel Swallow Barn Kentuckian in New York Cavaliers of Virginia Horse Shoe Robinson George Balcombe The

Partisan Leader and Knights of the Horseshoe and examines its connections to the social and political tensions of the time of its publication generational progress sectional unity executive authority class relations the nature of the ideal leader relations among sections and states socialist and perfectionist communities and westward expansion **Margaret Cavendish and the Exiles of the Mind** Anna Battigelli,2021-10-21 Margaret Cavendish duchess of Newcastle 1623 1673 led a dramatic life that brought her into contact with kings queens and the leading thinkers of her day The English civil wars forced her into exile accompanying Queen Henrietta Maria and her court to Paris From this vantage point she began writing voluminously responding to the events and major intellectual movements of the mid seventeenth century Cavendish published twenty three volumes in her lifetime including plays romances poetry letters biography and natural philosophy In them she explored the political scientific and philosophical ideas of her day While previous biographers of Cavendish have focused almost exclusively on her eccentric public behavior Anna Battigelli is the first to explore in depth her intellectual life She dismisses the myth of Cavendish as an isolated and lonely thinker arguing that the role of exile was a rhetorical stance one that allowed Cavendish to address and even criticize her world She like others writing during the period after the English civil wars focused squarely on the problem of finding the proper relationship between mind and world This volume presents Cavendish s writing self the self she treasured above all others **Philosophy in an Age of Pluralism** Charles Taylor,1994-11-24 This is the first comprehensive evaluation of Charles Taylor s work and a major contribution to the leading questions in philosophy and the human sciences as they face an increasingly pluralistic age Charles Taylor is one of the most influential moral and political philosophers of our time and these essays address topics in his thought ranging over the history of philosophy truth modernity and postmodernity theism interpretation the human sciences liberalism pluralism and difference *Knowledge and Commitment* Douwe W. Fokkema,Elrud Ibsch,2000-04-15 The authors present a new perspective on a wide range of issues in the study of literature and culture Some of the topics discussed such as interpretation canon formation and literary historiography belong to the traditional domain of literary studies Others cultural identity convention systems theory and empirical methods originate in the social sciences and are now being integrated into the humanities By referring to the work of authors as widely apart as Hayden White Edward Said Fredric Jameson Michel Foucault Jacques Derrida Reinhart Koselleck Pierre Bourdieu Niklas Luhmann Siegfried Schmidt Norbert Groeben and many others the full complexity of the field of literary studies becomes apparent The authors argue for a distinction between analysis of literary systems on the one hand and critical intervention on the other By distinguishing between research and criticism between knowledge and commitment they offer new ways for literary studies as well as for cultural critique **Between Literature and Science** Peter Swirski,2000 In *Between Literature and Science* Peter Swirski examines the true intellectual scope of Edgar Allan Poe and Stanislaw Lem Using a genuinely interdisciplinary approach he shows that they propose far reaching hypotheses in aesthetics epistemology cognitive science philosophy of science literary studies and

pragmatics as well as in cosmology artificial intelligence and futurology Swirski argues that previous studies of their science fiction works in neglecting these broader philosophical and scientific ambitions have misrepresented Poe and Lem's artistic achievements
