**Legal Consciousness and the Rule of Law in Post-Conflict Societies** Holly Dunn, 2022-12-30 This book considers how legal reforms and awareness raising associated with building the rule of law have engaged the popular legal consciousness producing contradictions that have in turn shaped the nature of the resultant legality How are popular legal justice beliefs and practices transformed when legal reforms encounter local contexts and cultures For over a decade scholars have engaged with the argument that legal reform through rule of law building is the answer to the various ills of countries transitioning from war to peace or authoritarianism to democracy Yet scholars have also repeatedly critiqued rule of law building projects The rule of law in theory and in practice is a product of Western liberal thought and development and provides limited space for local culture norms and practices This tension has been playing out in multiple locations and in the Democratic Republic of Congo for about two decades This book examines how rule of law reforms in the Democratic Republic of Congo shape local understandings and practices of law and justice Instead of focusing on their so called successes and failures it explores popular legal consciousness how people think about perceive and engage with the law to draw broader conclusions about the practical everyday outcomes of attempts to build the rule of law This book will appeal to comparativists Africanists and socio legal scholars who study post conflict reconstruction rule of law building legal consciousness access to justice and legal pluralism as well as those with practical interests in these areas

**Religion, Law and the Constitution** Javier García Oliva, Helen Hall, 2017-08-10 This book examines the existing constitutional and legal system in England Wales and Scotland through the prism of its treatment of religion and belief The study encompasses questions of Church state relations but pushes far beyond these It asks whether the approach to religion which has spread out from establishment to permeate the whole legal framework is a cause of concern or celebration in relation to individual and collective freedoms The primary focus of the work is the synergy between the religious dimension of the juridical system and the fundamental pillars of the Constitution parliamentary sovereignty the rule of law separation of powers and human rights Javier García Oliva and Helen Hall challenge the view that

separation between public and religious authorities is the most conducive means of nurturing a free and democratic society in modern Britain. The authors explore whether counter intuitively for some the religious dynamic to the legal system actually operates to safeguard liberties and has a role in generating an inclusive and adaptable backdrop for our collective life. They suggest that the present paradigm brings benefits for citizens of all shades of religious belief and opinion including Atheist and Humanist perspectives as well as secondary advantages for those with profound beliefs on non religious matters such as pacifism and veganism. In support of their contentions Garc a Oliva and Hall examine how the religious dimension of the legal framework operates to further essential constitutional principles in diverse settings ranging from criminal to family law. In a groundbreaking move the authors also set the legal discussion alongside its social and cultural context. They consider how the theological perspectives of the larger faith traditions might influence members ideas around the key constitutional precepts and they include extracts from interviews which give the personal perspective of more than 100 individuals on contemporary issues of law and religious freedom. These voices are drawn from a range of fields and positions on faith. While the authors are at pains to stress that these sections do not support or advance their legal or theological conclusions they do provide readers with a human backdrop to the discussion and demonstrate its crucial importance in twenty first century Britain.
