Beliefs of a Reasoning Mind Dr. V V Rampal,2012-07-26 The articles in this book are not thematically sequential but a record of thoughts that came from day to day They are however scattered around the core of religion and rationality You may find a few spots concerned with humanism and science Some thoughts are short and some spilling over to more than a page or two It is more in the format of a diary than a detailed discussion on one theme They represent a freethinking Many may disagree with them but that is what constitutes variety in thought

So That'S How It Is The Commoner,2018-04-11 The first chapter is an annotated autobiography of the author to introduce the reader to the background that the author is drawing from for his conclusions He is a working class a commonerno silver spoon here He spent most of his life struggling to make ends meet while working in the private sector and then in the final years of his work life he worked in the public sector and got involved in the labor movement and politics where the political work was done The revelations of his findings will probably not going to win him any friends within either party because as the book discloses nobody has clean hands including the people that go to the polls or sit at home and throw stones at the gladiators The book throws stones at everybody including himself The books suggests where we as a people began to go wrong and stray from the path our

ancestors laid out for us It is the books assertion that our nation is in decline because our culture has been compromised and is in decline Its purpose is to strike a note toward fixing our problems starting in the home

The Teaching / Learning Process: Undergirded by Biblical Teachings Dr. Constance B. Nealey, 2010-02-09 Educators have a moral as well as a professional responsibility to address the needs of persons entrusted in their care That moral responsibility involves 1 acknowledging one s Christian conscience which is non negotiable 2 respecting the Christian conscience of others while taking seriously the educational needs of students and 3 maintaining relationships with varied stakeholders to the extent that they are cognizant of their overall responsibilities to the children and young adults served My goal in this book is to share strategies for achieving and maintaining improved student achievement Recognition of the magnitude of all the variables which lie therein led to the formulation of the text The Teaching Learning Process Undergirded by Biblical Teachings Through this synergy of effort combined with elements of spirituality we shall experience noticeable changes in attitudes pedagogy and teacher student expectations Biblical quotations contained herein are from the King James Version Because of the dismal educational circumstances facing our nation it is imperative that leaders in the school system teachers parents community and governmental leaders and prospective teachers seek to develop a spirit of excellence in our educational institutions Each of us has a responsibility to God to those whom we serve and to ourselves to safeguard our schools Where do we go for help We go to the scriptures one of which is Proverbs 3 5 Trust in the Lord with all thine heart and lean not to thine own understanding Where do we start We begin with faith hope and love We must have faith in God faith in ourselves and faith in our children There must be a firm hope in what will come tomorrow Tomorrow comes with positive rewards when there are scriptural acknowledgements Finally love places quality into service When one has love his her words and actions are magnified Love lasts and what it does will last Love is the greatest gift and has the greatest rewards because God is love 1 John 4 8 The thesis of the proposed textbook is that the teaching learning process is effective when undergirded by scriptural principles Stated succinctly the thesis posits that we should teach and learn the Bible way Certainly such actions assure positive rewards

The Image before the Weapon Helen M. Kinsella, 2011-05-02 Since at least the Middle Ages the laws of war have distinguished between combatants and civilians under an injunction now formally known as the principle of distinction The principle of distinction is invoked in contemporary conflicts as if there were an unmistakable and sure distinction to be made between combatant and civilian As is so brutally evident in armed conflicts it is precisely the distinction between civilian and combatant upon which the protection of civilians is founded cannot be taken as self evident or stable Helen M Kinsella documents that the history of international humanitarian law itself admits the difficulty of such a distinction In The Image before the Weapon Kinsella explores the evolution of the concept of the civilian and how it has been applied in warfare A series of discourses including gender innocence and civilization have shaped the legal military and historical understandings of the civilian and she documents how these discourses converge at particular junctures to

demarcate the difference between civilian and combatant Engaging with works on the law of war from the earliest thinkers in the Western tradition including St Thomas Aquinas and Christine de Pisan to contemporary figures such as James Turner Johnson and Michael Walzer Kinsella identifies the foundational ambiguities and inconsistencies in the principle of distinction as well as the significant role played by Christian concepts of mercy and charity She then turns to the definition and treatment of civilians in specific armed conflicts the American Civil War and the U S Indian wars of the nineteenth century and the civil wars of Guatemala and El Salvador in the 1980s Finally she analyzes the two modern treaties most influential for the principle of distinction the 1949 IV Geneva Convention Relative to the Protection of Civilian Persons in Times of War and the 1977 Protocols Additional to the 1949 Conventions which for the first time formally defined the civilian within international law She shows how the experiences of the two world wars but particularly World War II and the Algerian war of independence affected these subsequent codifications of the laws of war As recognition grows that compliance with the principle of distinction to limit violence against civilians depends on a firmer grasp of its legal political and historical evolution *The Image before the Weapon* is a timely intervention in debates about how best to protect civilian populations

Law, Science, Liberalism, and the American Way of Warfare Stephanie Carvin, Michael John Williams, 2015 Founded and rooted in Enlightenment values the United States is caught between two conflicting imperatives when it comes to war achieving perfect security through the annihilation of threats and a requirement to conduct itself in a liberal and humane manner In order to reconcile these often clashing requirements the US has often turned to its scientists and laboratories to find strategies and weapons that are both decisive and humane In effect a modern faith in science and technology to overcome life's problems has been utilized to create a distinctly American Way of Warfare Carvin and Williams provide a framework to understand the successes and failures of the US in the wars it has fought since the days of the early Republic through to the War on Terror It is the first book of its kind to combine a study of technology law and liberalism in American warfare

What Every 18 Yr. Old Needs To Know Paul from White Lake, 2008-11-03 Why is there so much bipartisan bickering Why are some folks so darned adamant about their political viewpoints Should we all actually develop a political belief system But who really gives a hoot about politics anyways Have the schools of this USofA adequately prepared our 18 year olds for one of the important privileges that they can now engage namely to vote And even after 18 years old how and when does each of us actually become EXPERT at selecting our politicians How can any one person know who to vote for and does it really make any difference which way we vote They say that if I don't vote then I have no right to complain about who we get in our government But that doesn't make any sense or is it just me Some say that the MEDIA is biased but how can that be They just report the news don't they Why won't our government just do more to FIX things and to HELP people What SHOULD our government REALLY do to help us solve our problems I've even heard people talk about dark and strange conspiracy theories about people who are so super rich and powerful who plan things in secret and that THEY are the REAL
