become America's diverse food culture. Like many of today's foodies, the Founding Fathers were ardent supporters of sustainable farming and ranching, exotic imported foods, brewing, distilling, and wine appreciation. Washington, Jefferson, and Franklin penned original recipes, encouraged local production of beer and wine, and shared their delight in food with friends and fellow politicians. In *The Founding Foodies*, food writer Dave DeWitt entertainingly describes how some of America's most famous colonial leaders not only established America's political destiny but also revolutionized the very foods we eat. Features over thirty authentic colonial recipes, including Thomas Jefferson's ice cream, a recipe for beer by George Washington, Martha Washington's fruitcake, Medford rum punch, Terrapin soup, *Whisky and Other Spirits*. Graham Stewart, Julie Kellershohn, Inge Russell, 2021-09-22. *Whisky and Other Spirits: Technology, Production, and Marketing*, Third Edition, continues to provide details from raw materials to the finished product, including production, packaging, and marketing. It focuses on the science and technology of the process as well as the environment in which it is produced. Today, environmental concerns and sustainability of products has taken on a new level of importance. Traditional ways of packaging and marketing have also changed dramatically in recent years as the technology of packaging has moved from a staid bottle industry to spirit products that cross traditional beverage categories and packaging. This new edition provides the latest changes in industry and the beverages market. All chapters are updated with new chapters added to help improve research and development and to increase production of not only whiskey but other spirits such as gin and rum and white spirits. This new edition also discusses trendy reduced alcohol and no alcohol products. Presents a detailed look into current global situation for whisky and spirits production. Highlights craft distilling and the challenges craft distillers face by presenting the art of spirit production in clear detail. Presents insights into how marketing has changed for distilled products with an emphasis on new mobile technologies. **The New Encyclopedia of Southern Culture**. John T. Edge, 2009-08. The American South embodies a powerful historical and mythical presence, both a complex environmental and geographic landscape and a place of the imagination. Changes in the region's contemporary socioeconomic realities and new developments in scholarship have been incorporated in the conceptualization and approach of *The New Encyclopedia of the South*. *Precious Cargo*. David Dewitt, 2014-05-26. *Precious Cargo* tells the fascinating story of how western hemisphere foods conquered the globe and saved it from not only mass starvation but culinary as well. Focusing heavily on American foods, specifically the lowly crops that became commodities plus one gobbling protein source, the turkey, Dewitt describes how these foreign and often suspect temptations were transported around the world, transforming cuisines and the very fabric of life on the planet. Organized thematically by foodstuff, *Precious Cargo* delves into the botany, zoology, and anthropology connected to new world foods, often uncovering those surprising individuals who were responsible for their spread and influence, including same traders, brutish conquerors, a Scottish millionaire obsessed with a single fruit, and a British lord and colonial governor with a passion for peppers, to name a few. *Precious Cargo* is a must read for foodies and historians alike. [Distilled Spirits](#)

Annie Hill, Frances Jack, 2023-02-13 *Distilled Spirits* is the go to guide for identifying the best practices and options available for distilled spirits product development.
