Run Silent:

Run Silent, Run Deep Edward L. Beach, 2016-10-15 Universally praised for its powerfully authentic depiction of submarine warfare *Run Silent Run Deep* was an immediate success when published in 1955 and shot to the top of best seller lists nationwide In 1958 Hollywood adapted the novel for the big screen starring Clark Gable and Burt Lancaster The New York Times said of the novel If ever a book had a ring of reality this is it combat passages rank with the most exciting written about any branch of the service The Saturday Review called the book a classic and many reviewers compared its author to such greats as C S Forester and Erich Remarque Today these accolades still ring true for Edward L Beach's gripping first novel of American submariners confronting a formidable Japanese navy in a vicious battle to control the Pacific Beach's taut and dramatic narrative told with the intimacy of a confession deals with two strong headed men Edward Richardson the commander of the USS Walrus and his executive officer Jim Bledsoe Bound together by wartime duty the two are divided by jealousy pride and love for a beautiful woman But long after the details of this famous novel fade from memory what remains with us is a startling realization of the way it really was in the silent service during World War II Unlike many war novels here is a story that deals with war from the perspective of command With fidelity Beach creates the anguish agony and triumphs of command decisions Commander Richardson embodies all that is fine and human in an excellent naval officer This is a monument not to the misfits and the mistakes but to those men who rose to greatness under the sometimes unbearable tensions of action

FAA-AM., 1979 **Dodge Idea and Power and Transmission**, 1911 **The Films of Robert Wise** Richard C. Keenan, 2007-08-22 From his early days as a film editor at RKO studios where he helped Orson Welles shape *Citizen Kane* to his success as a director and producer of musical blockbusters of the 1960s Robert Wise had a long and illustrious film career Unlike contemporaries such as Alfred Hitchcock John Ford or Howard Hawks however Wise's films lack any clearly discernible characteristics to signify his work There are few striking camera angles or visual flourishes that might distract from the primary obligation to present the story And like Hawks Wise never specialized in one or two genres but brought his directing skills to all manner of films His work as a director resists auteur categorization and that is a

chief reason why some critics have been unduly negative in their consideration of his work In The Films of Robert Wise Richard Keenan examines the nearly forty features that represent the director s career from Curse of the Cat People in 1944 to A Storm in Summer 2001 the only television production Wise ever directed Keenan offers a reappraisal of Wise s films so that the true quality of his work can be better appreciated Keenan argues that if there was a flaw in Robert Wise as a director it was that he lacked the ego and temperament of the artist which was not necessarily a flaw at all Indeed Wise was a conscientious craftsman who saw his work not primarily as a vehicle for his own ideas and visual style but as an opportunity to present narrative that quite simply engages informs and entertains It was this perspective that helped produce a number of memorable films over the years including the gritty noir Born to Kill the one two punch of The Set Up and Somebody Up There Likes Me the sci fi prophecy The Day the Earth Stood Still and the gripping indictment of capital punishment I Want to Live classics all Wise also won a pair of Oscars for two of the most memorable not to mention successful musicals of all time West Side Story and The Sound of Music Drawing on more than 30 hours of interviews with Wise as well as additional interviews with a number of his collaborators Keenan offers a welcome reassessment of the director s work In his analysis of each film Keenan reveals both Wise the craftsman and the artist In doing so The Films of Robert Wise finally confers upon this underappreciated director the recognition he deserves

The Knowing Sharon Cameron, 2017-10-10 Sharon Cameron returns to the rich world of 1 New York Times bestseller The Forgetting with a companion novel as thrilling and intricately crafted as the first Samara is one of the Knowing and the Knowing do not forget Hidden deep in the comfort and splendor of her underground city a refuge from the menace of a coming Earth Samara learns what she should have never known and creates a memory so terrible she cannot live with it So she flees to Canaan the lost city of her ancestors to Forget Beckett has flown through the stars to find a dream Canaan the most infamous social experiment of Earth s antiquity Beckett finds Samara in the ruins of the lost city and uncovers so much more than he ever bargained for a challenge to all he s ever believed in or sworn to When planets collide and memories clash can Samara and Beckett save two worlds and remember love in a place that has forgotten it At once thought provoking and utterly thrilling this extraordinary companion novel to Sharon Cameron s 1 NEW YORK TIMES bestselling THE FORGETTING explores the truth and loss that lie within memory and the bonds that hold us together

The naval war film Jonathan Rayner,2013-07-19 This book undertakes a unique coherent and comprehensive consideration of the depiction of naval warfare in the cinema The films under discussion encompass all areas of naval operations in war and highlight varying institutional and aesthetic responses to navies and the sea in popular culture The examination of these films centres on their similarities to and differences from the conventions of the war genre and seeks to determine whether the distinctive characteristics of naval film narratives justify their categorisation as a separate genre or sub genre in popular cinema The explicit factual bases and drama documentary style of many key naval films such as In Which We Serve They Were Expendable and Das Boot also requires the consideration of these films as texts for popular historical transmission Their frequent reinforcement of establishment views of the past which derives from their conservative ideological position towards national and naval culture makes these films key texts for the consideration of national cinemas as purveyors of contemporary history as popularly conceived by filmmakers and received by audiences **Reprisal** Tom Reilly,2018-01-13 A Boeing 777 Global 10 freighter mysteriously disappears in the North Pacific one hour into its flight from Tokyo to Washington DC The cargo is top secret for national security reasons The pilot Bill Collins and first officer Stevens are decorated naval ensigns from Desert Storm flying Eagle F 16s experienced pilots now flying commercial aircraft But what is the mysterious cargo Two young CIA agents Steve Nelson and Gregg Johnson are assigned to the case which will take them on a wild journey of intrigue murder and terrorism to Washington DC Tokyo and Israel This is an action packed journey so unbelievable the reader will be hypnotically engrossed with the outcome and the ultimate ending that will shock the world a must novel for the ardent book reader **FBI Diary** Peter Klismet,2015-03-01 A fascinating story Read and enjoy this book as much as I did Roy Hazelwood Legendary FBI Profiler and best selling author of Dark Dreams and The Evil That Men Do Incredibly engaging David Gibb bestselling author of Camouflaged Killer Winner of the Public Safety Writers Association Writing Competition In this award winning book FBI Diary Profiles of Evil a criminal profiler takes us inside the revolutionary

Pluribus Unum**

Marvin V. Blake, 2019-03-15 *E Pluribus Unum From Many One* is an epic story 1861-1876 chronicling the lives of two individuals. One, a black man Jason Ruth, born into a life of perpetual slavery; the other, a white woman Rebecca Billings, the daughter of Henry Billings, master of the Rosewood Plantation, born into a pampered life of privilege as a member of the Southern aristocracy. Two people, one black, the other white, whose preordained statuses in life were at diametrically opposite ends of the South's Antebellum society. Two people with absolutely nothing in common, yet two people whose lives were inexorably linked due to the lust of Rebecca's father, Henry Billings, for his black slave, Ruth. Jason's mother, Henry Billings's coupling, white master with his black female slave, a common and socially accepted practice in the slave-holding South, resulted in the birth of Mandy, Jason and Rebecca's sister. While Jason and Rebecca are not related by blood, Jason, who had been born before his mother Ruth, caught the eye of the massa, and Rebecca, each shared a deep and enduring love for him and her only surviving sibling, their common link, their sister Mandy. The novel tells of Rebecca's life while raising a child of mixed blood in the South during the Civil War and during Reconstruction. It tells of Jason's life as a member of the Massachusetts 54th Infantry Division and his service as a member of the United States Army's 10th Cavalry, Buffalo Soldiers. The novel examines three coexisting nineteenth-century American cultures: the recently defeated South's response to the post-Civil War's era of Reconstruction; the former black slaves who are attempting to adjust to life as freedmen; and the noble, nomadic hunter-gatherer society of the Plains Indians fighting to defend and to maintain their way of life.

Escape from the Deep

Alex Kershaw, 2009-04-14 Their submarine was dead, one hundred and eighty feet below the surface of the Pacific Ocean. Somehow they survived. They were tortured and beaten. Somehow they survived. Alex Kershaw has done it again as he brings to life World War II's greatest submarine survival adventure. James Bradley, author of *Flags of Our Fathers* and *Flyboys*. In the early morning hours of October 24, 1944, the legendary U.S. Navy submarine *Tang* was hit by one of its own faulty torpedoes. The survivors of the explosion struggled to stay alive, one hundred eighty feet beneath the surface, while the Japanese dropped deadly depth charges. As the air ran out, some of the crew made a daring ascent through the escape hatch. In the end, just nine of the original eighty-man crew survived. But the survivors were beginning a far greater ordeal. After being picked up by the Japanese, they were sent to an interrogation camp known as the Torture Farm. When they were liberated in 1945, they were close to death, but they had revealed nothing to the Japanese, including the greatest secret of World War II. With the same heart-pounding narrative drive that made *The Bedford Boys* and *The Longest Winter* national bestsellers, Alex Kershaw brings to life this incredible story of survival and endurance.

Cognitive Remediation for Brain Injury and

Neurological Illness Marvin H. Podd, 2011-11-04 The purpose of this book is to teach psychologists with a neuropsychology background about cognitive remediation: the evidence in the research literature and how to develop and conduct a treatment plan and evaluate the effectiveness of the interventions. The approach is illustrated using the computer-assisted cognitive remediation program developed by the author, *NeurXercise*. Twenty-nine different cases are presented in depth, following the

outline presented in the earlier portions of the book Treatment planning emphasizes Luria's concepts of alternate functional systems and double dissociation Pre and post treatment neuropsychological testing results are presented along with ecological validity and generalization to daily functioning The cases are presented by etiology and each section concludes with what can be learned about that etiologic process from the cognitive remediation results This section includes blast injuries which are still being characterized in the literature as well as effective treatment of patients with head injury stroke post neurosurgical sequelae co morbid disorders subcortical disorders attention deficit disorder and learning disabilities The book identifies the most commonly used neuropsychological test instruments for evaluating cognitive deficits discusses their input and output characteristics and does the same for the NeurXercise computer based exercises so that the connection between testing and treatment is easy to see and develop In addition to discussing this in the appropriate sections of the book these are summarized in the appendixes as a reference for correlating test findings and appropriate exercises for remediating deficits

Zero Hour Clive Cussler, Graham Brown, 2014-06-03 It is called zero point energy and it really exists a state of energy contained in all matter everywhere and thus all but unlimited Nobody has ever found a way to tap into it however until one scientist discovers a way Or at least he thinks he has The problem is his machines also cause great earthquakes even fissures in tectonic plates One machine is buried deep underground the other is submerged in a vast ocean trench If Kurt Austin and Joe Zavala and the rest of the NUMA team aren't able to find and destroy them and soon the world will be on the threshold of a new era of earth tremors and unchecked volcanism
