Sustainable Development of Biofuels in Latin America and the Caribbean Barry D. Solomon, Robert Bailis, 2013-10-30 This book examines recent developments in Latin American biofuel production Taking sustainable development as a central theme each chapter considers one country in the region and explores how biofuel production is evolving given concerns about food sovereignty trade and other social issues Environmental conservation as well as an increasingly complex and globalized economic structure Is also taken into account The contributions to this volume critically explore the ways in which biofuel production in Latin America impact social economic and environmental systems the so called three pillars of sustainability Numerous stakeholders drawn from government industry civil society and academia have attempted to define Sustainable Development in the context of biofuel production and to operationalize it through a series of principles criteria and highly specific indicators Nevertheless it remains a fluid and contested concept with deep political and social ramifications which each chapter explores in detail

Economic Development and Governance in Small Town America Daniel Bliss, 2018-01-31 Who governs And why How do they govern These remain vital questions in the politics of our small cities and towns In this new book author Daniel Bliss takes issue with those who believe that small towns and cities are fatally vulnerable to the pressures of a global economy Based on in depth analyses of small town America this book demonstrates how political agency can address and solve real problems affecting US towns including capital flight industrial closures and job losses Bliss illustrates how small localities exercise choices such as nurturing local businesses and developing infrastructure rather than engaging in a race to the bottom heavily mortgaging tax revenues to attract large box retailers and small box call centers while passively watching more productive firms and better paying jobs slip away Taking careful account of comparative literature as well as variations in city governments their planning agencies and their relations with state authorities this book explores the ways in which local politicians and public planning bodies can mobilize local constituencies to weather global challenges and common structural problems such as unfavorable demographics skill shortages and out migration Economic Development and Governance in Small Town America holds out the promise of meaningful democratic change even in unfavorable political and economic circumstances

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest

volume is completely new and features a preface written by the eminent geographer Gilbert White An Agenda for Sustainable Development Research Walter Leal Filho, Amanda Lange Salvia, Claudio Ruy Portela de Vasconcelos, 2024-09-20 This book involves establishing a set of priorities and a roadmap that can guide scholarly and practical efforts towards sustainability goals It encourages collaboration across disciplines to address complex sustainability issues that span social economic and environmental domains It also supports the development of robust methodologies for conducting research including quantitative qualitative and mixed methods approaches But despite the importance of and the need for an agenda for sustainable development research many efforts are isolated and thematically disconnected Also it is difficult to find information on how sustainability research is being undertaken and on the wide range of methods being used Against this backdrop and in order to facilitate a broad discussion on the contribution of sustainable development research this book is being produced The book gathers inputs from universities and research organisations working on matters related to sustainable development research in a variety of contexts It also provides a platform for the dissemination of information on the latest initiatives paving the way for technology transfer and networking Furthermore the book intends to provide a fertile basis upon which universities research centres and practitioners may cooperate more closely in this key area Last but not least a further aim of the book is to present methodological approaches and experiences deriving from case studies and projects which aim to show how sustainability research may be implementing across a range of disciplines Thanks to its scope and interdisciplinarity this books makes an excellent reading to everyone interested on sustainability research

Agricultural Growth, Natural Resource Sustainability, and Poverty Alleviation in Latin America Oscar Gonzales, 1997 Turning the Tide on Poverty Lionel J. Beaulieu, Alice Diebel, 2019-04-15 This book highlights the experiences of 14 high poverty communities in the rural South that accepted the invitation to be part of the Turning the Tide on Poverty Tide initiative While history would suggest that impoverished places have limited capacity to make good things happen Tide demonstrated otherwise This volume is a testament to the positive work that can be realized when people from all walks of life are accorded the opportunity to discuss deliberate and act on strategies designed to improve the lives of rural people and places in the South The message is clear when local residents are provided a safe space to weigh in on local issues and asked to give respectful consideration to the views of others in their community they create pathways for spurring positive changes Simply put civic engagement propels people to do more for their community and instils in them a sense of hope for what can be accomplished when local people work together This book was originally published as a special issue of the journal Community Development **A Rediscovered Frontier** Philip L. Jackson, Robert Kuhlken, 2006 A Rediscovered Frontier describes the changing land use issues taking place in the rapidly growing western United States paying special attention to the previously unexplored area of private lands planning and local growth management The book begins by exploring the term New West and then describes prototypical land use patterns found throughout the West It examines the

spatial circumstances of rural and small town growth patterns and provides examples of the kinds of development that could occur elsewhere in areas having similar geographic situations The book takes a close look at Oregon's statewide planning approach to managing growth and concludes with a forward looking cooperative approach to comprehensive planning Intended as a text for college students taking courses in land use planning a sourcebook for land use planning and environmental management professionals as well as anyone who cares about western environments A Rediscovered Frontier addresses the social economic political and above all geographical realities of land use in the West today *Environment and Development in Latin America* David Goodman, M. R. Redclift, 1991 An examination of how Latin America originally viewed by outsiders as a storehouse of natural resources which could be translated into wealth was not sustained in developmental terms in the colonial period Her ambivalent relationship with the developed world is analyzed to the present day *Corporate Management Ecosystem in Emerging Economies* Fred A. Yamoah, Adnan ul Haque, 2023-12-20 Emerging economies as actively changing societies invoke questions about the future direction for national and global development as well as equitable economic growth In this book the Editors argue that understanding the corporate management ecosystem of emerging economies is key to business success in the globalized economy Discussing the key attributes of emerging economies for example population dynamics labour and production patterns employment and foreign direct investment and the connection with governance marketing innovation management and supply chain research and practice the book highlights the distinctiveness of corporate management dynamics in comparison with existing knowledge that is dominated by developed country frameworks The book offers twenty one case studies that cover examples of corporate management research and practice in both local and international companies making this a valuable resource for students academics and industry stakeholders **The Puzzle of Latin American Economic Development** Patrice M. Franko, 2007 Provides the basic economic tools for students to understand the problems in the countries of Latin America This third edition analyzes challenges to the neoliberal model of development and highlights macroeconomic changes in the region It explores the contradictions of growth and focuses on factors of competitiveness [Regional Overview of Food Security and Nutrition in Latin America and the Caribbean 2020](#) Food and Agriculture Organization of the United Nations , World Food Programme , United Nations International Children's Fund , International Fund for Agricultural Development , Pan American Health Organization , 2021-05-19 The goals of the 2030 Agenda for Sustainable Development that are related to food security and nutrition will not be achieved as long as in some territories in Latin America and the Caribbean populations continue to live with malnutrition rates Economic opportunities in these areas are often limited public services are scant and exposure to severe climate events is high The public policies promoted in the region have had less impact in these historically lagging territories and there is a pressing need to produce a new agenda of public instruments that address the characteristics of the communities that inhabit them The full and sustainable development of the territories that are falling behind is not only an

obligation in terms of the realization of the rights of their inhabitants it would also allow these territories to activate their social economic environmental and cultural potential to the benefit of all societies It is hoped that the 2020 Regional Overview will help to highlight the challenges experienced by the territories with the worst indicators in terms of food and nutrition and that it will serve to mobilize political commitment and public attention towards those areas that are most highly lagging The year 2020 will be remembered for many decades as the year of the COVID 19 pandemic The indicators of the 2030 Agenda that are used in this publication do not yet show the different impacts of COVID 19 However there are references to the possible implications of the pandemic for the future

Report of the Tenth Regular Meeting of the Inter-american Board of Agriculture , Native Americans in the School System Carol J. Ward, 2005-06-24 Carol Ward examines persistent dropout rates among Native American youth which remain high despite overall increases in Native adult education attainment in the last twenty years Focusing on the experiences of the Northern Cheyenne nation she evaluates historical ethnographic and quantitative data to determine the causes of these educational failures and places this data in an economic political and cultural context She shows that the rate of failure in this community is the result of conflicting approaches to socializing youth the struggle between native capital and human capital development systems With high rates of unemployment poverty and school dropouts the Northern Cheyenne reservation provides some important lessons as Native Americans pursue greater educational success This volume will be of use to policy makers instructors of comparative education Native American studies sociology and anthropology

Report of the Twelfth Regular Meeting of the Inter-American Board of Agriculture 2003 , Asset Building & Community Development Gary Paul Green, Anna Haines, 2015-04-01 A comprehensive approach focused on sustainable change Asset Building and Community Development Fourth Edition examines the promise and limits of community development by showing students and practitioners how asset based developments can improve the sustainability and quality of life Authors Gary Paul Green and Anna Haines provide an engaging thought provoking and comprehensive approach to asset building by focusing on the role of different forms of community capital in the development process Updated throughout this edition explores how communities are building on their key assets physical human social financial environmental political and cultural capital to generate positive change With a focus on community outcomes the authors illustrate how development controlled by community based organizations provides a better match between assets and the needs of the community

New Institutions for Participatory Democracy in Latin America Kenneth E. Sharpe, 2012-11-09 This volume describes and analyzes the proliferation of new mechanisms for participation in Latin American democracies and considers the relationship between direct participation and the consolidation of representative institutions based on more traditional electoral conceptions of democracy

Water and Territory in Latin America Vladimir Arana, 2016-05-28 This book focuses in the current situation of water resources water supply and sanitation and population movement in Latin America It identifies new phenomena and challenges that will put

more pressure on water resources in the near future and that will create important socioeconomic constraints in population and their governments This volume offers an evaluation of water resources availability and consumption water supply and sanitation shortages management models and population growth and territory occupation trends in eighteen Latin American countries Also a set of recommendations policy proposals and projects is outlined **Latin American Development** David A. Preston, 2014-06-03 Provides an up to date analysis of many aspects of Latin America through a series of short essays written by experienced geographers *Encounters with Violence in Latin America* Cathy McIlwaine, Caroline Moser, 2004-08-02 Latin America is both the world's most urbanized fastest developing regions where the links between social exclusion inequality and violence are clearly visible The banal ubiquitous nature of drug crime robbery gang and intra family violence destabilizes countries economies and harms their people and social structures *Encounters with Violence Crime in Latin America* explores the meaning of violence and insecurity in nine towns and cities in Colombia and Guatemala to create a framework of how and why daily violence takes place at the community level It uses pioneering new methods of participatory urban appraisal to ask local people about their own perceptions of violence as mediated by family gender ethnicity and age It develops a typology which distinguishes between the political social and economic violence that afflicts communities and which assesses the costs of consequences of violence in terms of community cohesion and social capital This gives voice to those whose daily lives are dominated by widespread aggression and provides important new insights for researchers and policy makers
