Wegren, 2002-03-20 *Rural Reform in Post Soviet Russia* reviews change in agricultural and rural life since 1990 through historical political sociological and anthropological investigation The contributors interest is not so much in agriculture itself but in agrarian issues such as the relationship between rural interests and changing Russian institutions the economic and social organization of rural households and the quality of life in rural families and villages

**Agriculture and the State in Soviet and Post-Soviet Russia** Stephen Wegren, 2010-11-23 Winner 1999 Edward A Hewett Book Prize from AAASS A comprehensive original and innovative analysis of the social economic and political factors affecting contemporary Russian reform the book is organized around the central question of the role of the state and its effect on the course of Russian agrarian reform In the wake of the collapse of the USSR contemporary conventional wisdom holds the the Russian state is weak Stephen Wegren feels that the traditional approach to the weak strong state suffers from measurement and circular logic problems believing that the Russian state thought weaker than in its Soviet past is still relatively stronger than other actors The state s strength allows it to intervene in the rural sector in ways that other power contender cannot Specifically as a measure of state intervention Wegren analyzes how the state has influenced urban rural relations rural rural relations and the nonstate private agricultural sector Several dilemmas arose that have complicated successful agrarian reform as a result of the nature of state interventions how reform policies were defined and the incentives rhar arose from state sponsored policies During contemporary Russian agrarian reform urban rural differences have widened marked by a deterioration in rural standards of living and increased alienation of rural political groups from urban alliances At the same time within the rural sector reform failed to reverse rural egalitarianism In addition the nature of state interventions has undermined attempts to create a vibrant productive private rural sector based on private farming Wegren s research is based upon extensive field work interviews archival documents and published and unpublished source material conducted over a six year period and he demonstrates the link between agrarian reform and the success of overall reform in Russia This learned and often controversial volume will interest political scientists policy makers and scholars and students of contemporary Russia

*Rural Adaptation in Russia* Stephen K. Wegren, 2022-05-19 The current dominant approach to Russian peasant behaviour emphasizes rural resistance to reform in broad terms and to the introduction of market forces in particular Bringing together some of the finest scholars on rural Russia this groundbreaking volume examines this perception with an analysis of both historical and contemporary patterns of rural adaptation in Russia Four articles included analyze peasant responses in the post Soviet era and focus on the relationship between poverty and rural adaptation the social origins of private farmers in southern Russia and Ukraine response patterns by large farms formerly collective and state farms household adaptation using a standardized set of criteria This fascinating book gives an illuminating picture of the ways in which peasants respond to new environmental

conditions and stimuli created by reform The substantive material included draws on fieldwork and survey data collected from rural Russia from the Stolypin reforms in the pre Soviet era and collectivisation of agriculture during the 1930s in the Soviet era This book was previously as a special issue of The Journal of Peasant Studies Land Reform in Russia Stephen K. Wegren, 2009-11-24 This ambitious work is the definitive account of Russia's land reform initiatives from the late 1980s to today In Russia a country controlling more land than any other nation land ownership is central to structures of power class division and agricultural production The aim of Russian land reform for the past thirty years to undo the collectivization of the Soviet era and encourage public ownership has been largely unsuccessful To understand this failure Stephen Wegren examines contemporary land reform policies in terms of legislation institutional structure and human behavior Using extensive survey data he analyzes household behaviors in regard to land ownership and usage based on socioeconomic status family size demographic distribution and regional differences Wegren's study is important and timely as Russian land reform will have a profound effect on Russia's ability to compete in an era of globalization **Continuity And Change In Rural Russia A Geographical Perspective** Gregory Ioffe, Tatyana Nefedova, 2018-02-23 Contrary to the viewpoint of many Western scholars the authors of this penetrating analysis argue that private farming is not a viable option in Russia's future Instead a convergence of Soviet style subsidiary farming with traditional and reorganized collective farms is the most plausible path of evolution in most rural areas Grigory Ioffe and Tatyana Nefedova arrive at this conclusion by a careful examination of ongoing reform efforts in Russian agriculture against the backdrop of European and Russian agrarian history and rural spatial development since the late nineteenth century The comparisons at the national level are then filled in with consideration of a number of Russian provinces oblasti and regions raiony Their research reveals the substantial negative impact of rural depopulation on the Russian agrarian economy Seventy original maps richly complement and support the narrative *Agrarian Reform in Russia* Carol S. Leonard, 2010-12-06 This book examines the history of reforms and major state interventions affecting Russian agriculture the abolition of serfdom in 1861 the Stolypin reforms the NEP the Collectivization Khrushchev reforms and finally farm enterprise privatization in the early 1990s It shows a pattern emerging from a political imperative in imperial Soviet and post Soviet regimes and it describes how these reforms were justified in the name of the national interest during severe crises rapid inflation military defeat mass strikes rural unrest and or political turmoil It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long run trends It has chapters on property rights rural organization and technological change It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions Measuring Social and Economic Change in Rural Russia David J. O'Brien, V. V. Pat[i]iorkovskii, 2006-01-01 Measuring Social and Economic Change in Rural Russia is based upon nine household surveys in seven rural regions of Russia from 1991 to 2003 including a four

wave panel study over an eight year period The findings that O'Brien and Patsiorkovsky share in this important work are the only long term indicators of how ordinary people have learned to adapt to an economic system that was thrust upon them when the Soviet Union collapsed Three main themes are explored the relationship between formal and informal institutional change regional responses to reforms and the impact of household labor social networks and community involvement and physical capital on inequality in material social and psychological conditions This comprehensive study's conceptual and interdisciplinary approach will appeal to anyone interested in the transition of countries from socialist to market economies

Dilemmas of Transition in Post-Soviet Countries Joel C. Moses, 2003 Exploring the tensions inherent in transition this perceptive book offers a wide ranging overview of the impact of democracy and capitalism on the former Soviet republics Leading scholars assess the region's daunting problems in the key realms of privatization democratization foreign investment agrarian reform local governance and market economics The contributors argue that the central dilemma facing all these fledgling countries is the inherent contradiction between the immediate pursuit of privatization and foreign investment and the long term policy goal of democratization Offering both theoretical and comparative perspectives on the far reaching implications of nation building and democratic transition this valuable study will enable both students and scholars to comprehend the unique difficulties of transition

*The New Century of the Metropolis* Thomas Angotti, 2013 The problems created by metropolitanization have become increasingly apparent Strategies are needed to improve the world's major cities in the twenty first century Tom Angotti is fundamentally optimistic about the future of the metropolis but questions urban planning's inability to integrate urban and rural systems its contribution to the growth of inequality and increasing enclave development throughout the world Using the concept of urban orientalism as a theoretical underpinning of modern urban planning grounded in global inequalities Angotti confronts this traditional model with new progressive approaches to community and metropolis

*The Postsocialist Agrarian Question* C. M. Hann, 2003 This is an age of neo liberalism in which the advantages and virtues of private property are often taken for granted Post socialist governments have privatized

and broken up state farms and socialist cooperatives. However economic outcomes and the social insecurity now experienced by many rural inhabitants highlight the need for a broader anthropological analysis of property relations which go beyond changes of legal form. A century after Kautsky addressed The Agrarian Question in Germany it is necessary to address a post socialist Agrarian Question throughout Central and Eastern Europe, the former Soviet Union and China. The studies collected here derive from the first cycle of projects carried out at the Max Planck Institute for Social Anthropology. They are prefaced by a substantial introduction by Chris Hann. Chris Hann is Director of the Max Planck Institute for Social Anthropology Halle Saale.

**Nature and National Identity After Communism** Katrina Z. S. Schwartz, 2006-11-26 In this groundbreaking book Katrina Schwartz examines the intersection of environmental politics, globalization and national identity in a small East European country, modern day Latvia. Based on extensive ethnographic research and lively discourse analysis it explores that country's post Soviet responses to European assistance and political pressure in nature management, biodiversity conservation and rural development. These responses were shaped by hotly contested notions of national identity articulated as contrasting visions of the ideal rural landscape. The players in this story include Latvian farmers and other traditional rural dwellers, environmental advocates and professionals with divided attitudes toward new European approaches to sustainable development. An entrenched set of forestry and land management practices with roots in the Soviet and pre Soviet eras confront growing international pressures on a small country to conform to current Western notions of environmental responsibility, notions often perceived by Latvians to be at odds with local interests. While the case is that of Latvia the dynamics Schwartz explores have wide applicability and speak powerfully to broader theoretical discussions about sustainable development, social constructions of nature, the sources of nationalism and the impacts of globalization and regional integration on the traditional nation state.

Land, Law and Environment Allen Abramson, Dimitrios Theodossopoulos, 2000-11-20 This book takes issue with the idealist approach in which land and landscape are read as purely expressive and ultimately poetic. The authors argue that too much emphasis on the subjective construction of land obscures the fundamentally meaningful sense in which land is also used and appropriated while land may have some subjective ideological meaning it exists also as a practical resource. The essays focus on postcolonial legacies in land law, contemporary disputes and land claims surrounding ancestral lands, conservation issues and road protests. Areas covered include Western and Eastern Europe, West Africa, the Caribbean, Australia and the Pacific, India and Indonesia.

Rural Inequality in Divided Russia Stephen Wegren, 2013-07-24 This book examines economic and political polarisation in post Soviet Russia and in particular analyses the development of rural inequality. It discusses how rural inequality has developed in post Soviet Russia and how it differs from the Soviet period and goes on to look at the factors that affect rural stratification and inequality using human and social capital, profession, gender and village location as independent variables. The book uses survey data from rural households and fieldwork in Russia in order to highlight the multiplicity of divisions that act as fault lines in
