

RURality BITES

Current agricultural and rural policy in Australia, among governments and major industry groups alike, 'is a recipe for continued rural decline and the increasing dominance of agriculture by global agri-business. Indeed, so is a threat to the past.'

RURality BITES is the first comprehensive book on the social and environmental transformation sweeping rural Australia at the beginning of the 21st century.

RURality BITES proposes that the destiny of the future in rural Australia is an increasingly knowledge intensive one and the concerns, issues and identities of those Australians must be addressed if a positive future is to be realised. In this book it is apparent that the seeds of a new approach – one that acknowledges the increasingly globalised context for all activity, but also looks social and natural capital locally – have already been sown. The issue now is to nurture them and ensure that they allow for new enterprises, forms of knowledge, types of community service and forms of governance to develop, and evolve, in the face of ever shifting circumstances.

Recent books have taken Australia rural and environmental knowledge and research seriously and provided the nation's institutions for cultural research, management, teaching and learning a critical and critical function.

The book is a comprehensive overview of the history of the rural and the current issues and challenges facing rural Australia from a global perspective and includes a comprehensive bibliography.

Rurality Bites:

Rurality Bites Stewart Lockie, Lisa Bourke, 2001 An overview of the extraordinary social environmental political and cultural changes and conflicts sweeping rural Australia All too often community decline environmental degradation and agricultural restructuring are treated as separate issues This book brings them together to identify what is behind these issues

Handbook of Rural Studies Paul Cloke, Terry Marsden, Patrick Mooney, 2006-01-26 This is a unique interpretation of rural issues that will become essential reference for students scholars politicians developers and rural activists Imre Kovach President European Society for Rural Sociology Research director Institute for Political Sciences Budapest

Rural Crime and Community Safety Vania A Ceccato, 2015-08-27 Crime is often perceived as an urban issue rather than a problem that occurs in rural areas but how far is this view tenable This book explores the relationship between crime and community in rural areas and addresses the notion of safety as part of the community dynamics in such areas Rural Crime and Community Safety makes a significant contribution to crime science and integrates a range of theories to understand patterns of crime and perceived safety in rural contexts Based on a wealth of original research Ceccato combines spatial methods with qualitative analysis to examine in detail farm and wildlife crime youth related crimes and gendered violence in rural settings Making the most of the expanding field of Criminology and of the growing professional inquiry into crime and crime prevention in rural areas rural development and the social sustainability of rural areas this book builds a bridge by connecting Criminology and Human Geography This book will be suitable for academics students and practitioners in the fields of criminology community safety rural studies rural development and gender studies

Sustainable Rural Systems Guy Robinson, 2016-04-01 In a neo liberal era where society in the Developed World is reliant on mass produced cheap foods and living standards are based on high consumption of non renewable energy and materials this book investigates the growing significance of sustainable systems in rural areas Drawing on a wide range of topical case studies primarily in the UK it provides an in depth analysis of the progress made towards sustainability within rural systems focusing specifically upon sustainable agriculture and sustainable rural communities The authors provide an overview of the various systems of sustainability currently being applied in the Developed World They highlight key environmental economic and social issues including post productivism alternative food networks organic farming GM foods conservation rural development programmes sustainable tourism local training schemes and community participation The various studies provide important lessons in the ongoing search for greater sustainability and suggest positive directions for future policy practice

Crime and Safety in the Rural Vania Ceccato, Jonatan Abraham, 2022-06-22 Criminology has until recently neglected the nature and levels of crime outside the urban realm This is not a surprise as crime tends to concentrate in urban areas and the police directs resources where the problems are Yet there are many reasons why scholars decision makers and society as a whole should care about crime and safety in rural areas This book highlights 20 reasons why crime and safety in

rural areas is a topic of relevance We attempt to untangle currently simplistic views of the rural by discussing a number of facets of the countryside as both safe and criminogenic and more importantly a hybrid place worth to be examined in its own right We adopt the notion of a rural urban continuum that captures the nuances of places of varied nature spanning from remote and desolate spaces to accessible and connected environments of the urban fringe Areas on the rural urban continuum may be in constant transformation given local and global influences which imposes challenges for policing and long term social sustainability Then the book critically reviews a rich body of English language literature in rural criminology that extends over more than four decades a scholarship that has engaged researchers and practitioners in all continents The books finishes with a discussion of the emergent research questions of the field and offers implications for practice and the 2030 Sustainable Development Goals

Tracking Rural Change Francesca Merlan, David Raftery, 2009-04-01 A key intensifying change affecting rural areas in the last few decades has been a decline in the proportion of national populations whose principal livelihood is farming The corresponding re distribution of population has typically resulted in a net population loss to rural areas and diversification of rural activity The corporatization and technological modification of food production has prompted new policy challenges and has bound rural and urban populations together in new relationships articulated in moral discourses of custodianship food safety and sustainability Contributors to this volume came together in the attempt to stimulate collective insight into trends of rural change in Australia New Zealand and Europe The first two countries have been characterised by avowedly neoliberal rural policy with considerable departures from it in practice Europe on the other hand by a mix of policy measures which attempt to integrate land management and sustainability diversification and maintenance of a competitive farming sector within an overarching policy framework more overtly though only partially oriented towards sustaining rural society Aiming to build on research relating to the character of rural transitions this volume offers substantive and critical contributions to the understanding of the sources of unpredictability instability and continuity that underpin rural transition The papers explore changes and continuities in policy the governance of rural spaces technological developments relating to rural areas and populations and social forms of subjectivation and participation in increasingly diverse rural settings

Sustainability and Change in Rural Australia Chris Cocklin, Jacqui Dibden, 2005 By addressing themes such as social and economic change government policy and gender relations this volume tackles the thematic complexities of sustainability It attempts to understand how small rural communities have survived in the past what factors shaped them and how these factors will impact on their future survival
