Rush To German Unity

Arturo Cuomo

Rush To German Unity:

The Rush to German Unity Konrad Hugo Jarausch, 1994 An ideal source for general readers and students The Rush to German Unity explores whether solving the old German problem by bringing down the Berlin Wall has merely created new difficulties for Germany and challenges to overcome

The Rush to German Unity Konrad Hugo Jarausch, 1994 The bringing down of the Berlin Wall is one of the most vivid images and historic events of the late twentieth century The reunification of Germany has transformed the face of Europe In one stunning year two separate states with clashing ideologies hostile armies competing economies and incompatible social systems merged into one The speed and extent of the reunification was so great that many people are still trying to understand the events Initial elation has given way to the realities and problems posed in reuniting two such different systems The Rush to German Unity presents a clear historical reconstruction of the confusing events It focuses on the dramatic experiences of the East German people but also explores the decisions of the West German elite Konrad H Jarausch draws on the rich sources produced by the collapse of the GDR and on the public debate in the FRG Beginning with vivid media images the text probes the background of a problem traces its treatment and resolution and then reflects on its implications Combining an insider's insights with an outsider's detachment the interpretation balances the celebratory and the catastrophic views The unification process was democratic peaceful and negotiated But the merger was also bureaucratic capitalistic and one sided Popular pressures and political manipulation combined to create a rush to unity that threatened to escape control The revolution moved from a civic rising to a national movement and ended up as reconstruction from the outside An ideal source for general readers and students The Rush to German Unity explores whether solving the old German problem has merely created new difficulties

Regional Integration and Democracy Jeffrey J. Anderson, 1999 This work explores the interrelationship between democracy and regional integration Although centred in Europe the volume shifts terms of discussion on integration and democracy by including case studies outside of Europe It also analyzes the European Union's democratic deficit the impact of regional integration of national democracy and the dynamic interactions between democracy and integration elsewhere in the world

Triumph of the Fatherland Brigitte F. Young, 2010-05-06 The East German uprising of 1989 was not a male revolution Indeed one of the most significant aspects of the fall of East Germany compared to that of other East European nations was the presence of women demanding a political role in the newly emerging social order As one slogan proclaimed Without Women There Is No State Yet despite the determination of these women and of West German feminist groups to help shape the future of the German state their influence remained in the end very limited In *Triumph of the Fatherland* political scientist Brigitte Young draws on in depth interviews archival sources newspapers and her own observations from 1989 to 1991 to study the goals strategies and eventual fate of the German women's movements during this tumultuous period Young focuses on the relationship between the state and its citizenry outlining the mobilization of women in four states the East German and West

German states before unification the stateless state in East Germany after the collapse of the Wall and the West German state during unification Ultimately she finds that the political opportunity structures opened during the stateless state closed again with unification resulting in what Young calls double gender marginalization Brigitte Young is Associate Professor Department of Political Science Otto Suhr Institute Free University Berlin Germany *Germany's New Politics* David P. Conradt, 1995 Four years after unification in the so called super election year of 1994 there were no less than nineteen elections in Germany culminating in the Bundestag vote on October 16th This book analyzes the elections which reveal the state of German unity and the interplay of new forces in post Cold War Europe placing them in the wider context of political and economic developments in Germany in the 1990s Modern German Studies vol 1 Ten Years of German Unification Jörn Leonhard, Lothar Funk, 2002-04-30 In May 2000 scholars of history law politics and economics gathered in London to compare their various methodological and empirical perspectives on the 1989 90 collapse of the Germanies into a unity and the aftermath of the event from the perspective of a decade on Their 14 studies cover histo **Encyclopedia of Contemporary German Culture** John Sandford, 2013-04-03 With more than 1 100 entries written by an international group of over 150 contributors the Encyclopedia of Contemporary German Culture brings together myriad strands of social political and cultural life in the post 1945 German speaking world With a unique structure and format an inclusive treatment of the concept of culture and coverage of East West and post unification Germany as well as Austria and Switzerland the Encyclopedia of Contemporary German Culture is the first reference work of its kind Containing longer overviews of up to 2 000 words as well as shorter factual entries cross referencing to other relevant articles useful further reading suggestions and extensive indexing this highly useable volume provides the scholar teacher student or non specialist with an astonishing breadth and depth of information **The German Wall** Marc Silberman, 2011-04-11 This interdisciplinary volume addresses the consequences of the fall of the Berlin Wall from the revitalizing effect it had on Germany to the new challenges of integrating socially and politically old and new minorities and forming a new European identity It also considers how the fall was represented by the media **German Foreign Policy** Scott Erb, 2003 Despite an array of predictions that Germany's foreign policy would be unable to adapt easily to the postunification post Cold War environment it has in fact remained effective even as it evolves in response to myriad challenges Scott Erb analyzes German policy with an emphasis on the transitions from 1980 to the present Erb argues that Germany's success in dealing with a rapidly changing world rests on principles of multilateralism and cooperative institution building developed during the Cold War These principles are especially well suited now he finds as interdependence and turbulence bring traditional notions of sovereignty and self interest into question Germany he concludes offers a sound model of foreign policy in an age of globalization **East German Historians since Reunification** Axel Fair-Schulz, Mario Kessler, 2017-06-29 Surveys how reunification in 1990 impacted historical scholarship in the former East Germany With German reunification and the demise of the German

Democratic Republic in 1990 East German historians and their traditions of historiography were removed from mainstream discourse in Germany and relegated to the periphery By the mid 1990s few GDR trained historians remained in academia These developments led to a greater degree of intellectual pluralism yet marginalized many accomplished scholars East German Historians since Reunification assesses what was gained and lost in the process of dissolving and remaking GDR institutions of historical scholarship The collection combines primary and secondary sources younger scholars offer analyses of East German historiography while senior scholars who lived through the dismantling process provide firsthand accounts Contributors address broad trends in scholarship as well as particular subfields and institutions What unites them is a willingness to think critically about the achievements and shortcomings of GDR historiography and its fate after German reunification

The Oxford Handbook of Modern German History Helmut Walser Smith, 2011-09-29 This is the first comprehensive multi author survey of German history that features cutting edge syntheses of major topics by an international team of leading scholars Emphasizing demographic economic and political history this Handbook places German history in a denser transnational context than any other general history of Germany It underscores the centrality of war to the unfolding of German history and shows how it dramatically affected the development of German nationalism and the structure of German politics It also reaches out to scholars and students beyond the field of history with detailed and cutting edge chapters on religious history and on literary history as well as to contemporary observers with reflections on Germany and the European Union and on multi cultural Germany Covering the period from around 1760 to the present this Handbook represents a remarkable achievement of synthesis based on current scholarship It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic often destructive integration into the community of modern nations As it brings this story to the present it also places the current post unification Federal Republic of Germany into a multifaceted historical context It will be an indispensable resource for scholars students and anyone interested in modern Germany

The German Problem Transformed Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe's central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the détente of the 1960s and 1970s

the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University

The Burden of German History Konrad H. Jarausch, 2023-04-14 As one of the leading historians of Modern Europe and an internationally acclaimed scholar for the past five decades Konrad H Jarausch presents a sustained academic reflection on the post war German effort to cope with the guilt of the Holocaust amongst a generation of scholars too young to have been perpetrators Ranging from his war time childhood to Americanization as a foreign student from his development as a professional historian to his directorship of the Zentrum für Zeithistorische Forschung and concluding with his mentorship of dozens of PhDs *The Burden of German History* reflects on the emergence of a self critical historiography of a twentieth century Germany that was wrestling with the responsibility for war and genocide This partly professional and partly personal autobiography explores a wide range of topics including the development of German historiography and its methodological debates the interdisciplinary teaching efforts in German studies and the role of scholarly organizations and institutions

The Oxford Handbook of German Politics Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022 Few countries have caused or experienced more calamities in the 20th century than Germany This handbook provides a comprehensive overview of some of the major issues of German domestic politics economics foreign policy and culture by leading experts in their respective fields

German Unification and the Union of Europe Jeffrey J. Anderson, 1999-06-10 This book explores the effects of Germany's unification in 1990 on its policies toward the European Union

German Migrant Historians in North America Karen Hagemann, Konrad H. Jarausch, 2024-11-01 The migration experiences career paths and scholarship of historians born in Germany who started emigrating to North America in the 1950s have had a unique impact on the transatlantic practice of Central European History *German Migrant Historians in North America* analyzes the experiences of this postwar group of scholars and asks what informed their education and career choices and what motivated them to emigrate to North America The contributors reflect on how these migration experiences informed their own research and teaching and particularly discuss the more general development of the transatlantic exchange between German and American historians in the scholarship on Modern Central European History

The Rise and Fall of the German Democratic Republic Feiwel Kupferberg, Most public debate on reunited Germany has emphasized economic issues such as the collapse of East German industry mass unemployment career difficulties and differences in wages and living standards The overwhelming difficulty resulting from reunification however is not persisting economic differences but the internal cultural divide between East and West Germans one based upon different moral values in the two Germanies The invisible wall that has replaced the previous highly visible territorial division of the German nation is rooted

in issues of the past the Nazi past as well as the German Democratic Republic past In emphasizing economic differences the media and academics have avoided dealing with typically German cultural traits These include the psychological posture of West Germany which emphasized not differences between East and West but the break with Germany's Nazi past The adversarial posture of certain professional groups in East Germany towards the liberal and democratic values of West Germany have also been an obstacle Reviewing the problems accompanying reunification chapter 1 explores German culture and history and the moral lessons evolved from the Nazi past Chapter 2 focuses on the East West mindset and how differences in attitude affect efforts to adapt to reunification Chapter 3 discusses the simulated break with Nazi Germany in the German Democratic Republic Chapters 4 5 and 6 analyze the roots of the adversary posture of the professional groups in East Germany towards the values of the Berlin Republic Chapter 7 demonstrates the strong presence of inherited typically German cultural traits among East Germans such as a lack of individualism suspicion of strangers and obedience to authority Chapter 8 documents the extent to which a right wing extremist culture has remained latent in Eastern Germany Chapter 9 documents the extent to which moral reasoning in the GDR relieves the individual of any kind of responsibility for the actions of the state reproducing the way ordinary Germans rationalized their participation in the Nazi regime immediately after World War II Chapter 10 concludes with an overview of the historical and sociological factors revolving around the discussion of Nazi Germany the GDR and inner unification This volume will be important for historians political scientists anthropologists sociologists and a general public interested in Germany's reunification

Strategies of Humor in Post-Unification German Literature, Film, and Other Media Jill Twark, 2011-01-18 The fourteen chapters in this anthology feature original analyses of contemporary German language literary texts films political cartoons cabaret and other types of performance The artworks display a wide spectrum of humor modes such as irony satire the grotesque Jewish humor and slapstick as responses to unification with the accompanying euphoria but also alienation and dislocation Kerstin Hensel's Lärchenau Christoph Hein's Landnahme and vignette collections by Jakob Hein Antrag auf ständige Ausreise und andere Mythen der DDR and Wladimir Kaminer Es gab keinen Sex im Sozialismus are interpreted as examples of the grotesque The popular films Lola rennt Sonnenallee Herr Lehmann NVA Alles auf Zucker and Mein Führer Die wirklich wahrste Wahrheit über Adolf Hitler are reexamined through the lens of traditional and more recent humor or comic book theories The contributors focus on how each artwork enriches four prominent postwall German cultural trends post unification identity reconstruction Vergangenheitsbewältigung including Hitler humor New German Popular Literature Christian Kracht's ironic subtexts and immigrant perspectives a third voice in the East West binary reflected here pointedly in Eulenspiegel cartoons To date no other scholarly work provides as comprehensive an overview of the diverse strategies of humor used in the past two decades in German speaking countries

Bernhard Heisig and the Fight for Modern Art in East Germany April A. Eisman, 2018 Introduction Why Heisig matters From the Nazi past to the Cold War present Art for an educated nation

Against the wall murals modern art and controversy The contentious emergence of the Leipzig school Portraying workers and revolutionaries Conclusion the quintessential German artist **The Neo-Nazis and German Unification** Rand C. Lewis, 1996-09-09 This book traces the activity of the neo Nazis in Germany from the fall of the Berlin wall in 1989 to the present Lewis who lived in Germany based this pioneering study on first hand research He emphasizes the impact of unification on the growth of right wing militancy throughout Germany providing examples of neo Nazi and skinhead activities as well as the government s efforts to control the growing extremist movement Although the movement remains relatively small five years after unification it is one that bears watching The first chapter reviews the events surrounding the unification and sets the stage for the increasingly vocal neo Nazi movement The primary goal of the following chapters is to trace the movement s chronological evolution from unification through the high points in 1992 and 1993 to the governmental efforts to reduce the growing threat in 1994 Key to the discussions are the examples of violence and brutality directly linked to the neo Nazis in the 1990s Numerous incidents are cited that reflect the sheer brutality and wanton disregard for authority in a newly formed nation struggling financially and emotionally with bringing two divergent societies together Imbedded in the chronological dialogue are short personal sketches of leading neo Nazis both inside and outside Germany who directly influence the movement The entire book encapsulates the rise once again of those elements of Hitler s Third Reich that were so abhorrent in the 1930s and 1940s

Eventually, you will entirely discover a other experience and triumph by spending more cash. nevertheless when? get you understand that you require to acquire those all needs bearing in mind having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to comprehend even more as regards the globe, experience, some places, like history, amusement, and a lot more?

It is your entirely own era to put-on reviewing habit. in the course of guides you could enjoy now is **Rush To German Unity** below.
