Machine Art, 1934

Jennifer Jane Marshall,2019-01-23 In 1934 New York s Museum of Modern Art staged a major exhibition of ball bearings airplane

propellers pots and pans cocktail tumblers petri dishes protractors and other machine parts and products The exhibition

titled Machine Art explored these ordinary objects as works of modern art teaching museumgoers about the nature of beauty and value in the era of mass production Telling the story of this extraordinarily popular but controversial show Jennifer Jane

Marshall examines its history and the relationship between the museum s director Alfred H Barr Jr and its curator Philip

Johnson who oversaw it She situates the show within the tumultuous climate of the interwar period and the Great Depression considering how these unadorned objects served as a response to timely debates over photography abstract art the end of

the American gold standard and John Dewey s insight that how a person experiences things depends on the context in which they are encountered An engaging investigation of interwar American modernism Machine Art 1934 reveals how even simple

things can serve as a defense against uncertainty

Cincinnati Magazine ,2008-02 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and

culture and giving readers a ringside seat on the issues shaping the region *The American Design Adventure, 1940-1975*

Arthur J. Pulos, 1988 *The American Design Adventure* continues the fascinating and detailed examination of industrial design begun by Arthur Pulos in *American Design Ethic*. The first volume discussed and illustrated the objects and artifacts the major designers and schools of design from Colonial times to the 1940s. This second splendidly illustrated volume carries the story into the heroic era of American industrial design from the 1940s to the 1970s. These were the decades of American industrial design's dominance when special exhibitions and world fairs made design a subject of national pride. Big business realized the influence that trademarks, packaging and corporate identity programs could have on their bottom line and the world of fashion created a consumer demand for name brands and well designed products. Industrial design flourished under the capable hands of Raymond Loewy and Charles Eames while corporations like IBM, RCA, Herman Miller and Knoll were sponsors of the great American design adventure. The extraordinary collection of illustrations that Pulos has assembled documents all of these important design trends while evoking the nostalgia of the 50s and 60s when Pop and Rock held sway. Pulos probes all aspects of industrial designers and their work in education and private corporations, in professional organizations and governmental agencies. He also covers prefabricated housing, graphics, manufactured products from the exotic to the pragmatic and public systems from the sociopolitical to the economic.

Introduction to Modern Design George H. Marcus, 2019-12-26 With some 280 colour illustrations *Introduction to Modern Design* takes us on a visual survey of design from the Industrial Revolution of the eighteenth century to the Maker Movement of today. It offers a new understanding of the birth of modern design in the early twentieth century and chronicles the way its meaning has changed over the decades. The narrative is supported by twenty six readings from significant texts by designers and critics offering readers an opportunity to learn about design from those who created it and those who commented on it as it was done. The focus of this book is on the objects themselves from industrial design, furniture, ceramics, textiles, graphics, electronics to automobiles and explores the development of these designs in relation to industrialization, technology, environmental responsibility, consumerism, individual needs and the expression of the social values of their day. Clearly written and accessible *Introduction to Modern Design* provides a succinct history of and fascinating insights into the world of design.

American Furniture Designers Oscar P. Fitzgerald, 2022-04-01 A 2023 Choice Reviews Outstanding Academic Title. The 20th century furniture is hot. *American Furniture Designers 1900 to the Present* highlights the furniture produced by the 20 most important American furniture designers of the 20th and early 21st centuries plus a selection of the best known European designers whose work is sold by Knoll International and Herman Miller. The designers are organized into five chapters. Introductions to each section summarize the evolution of furniture design as it evolved through the 20th and early 21st centuries. The book begins with the Arts and Crafts era before World War I, moves into the interwar period when Modernism gained a foothold in America, continues through the Postwar heyday of Mid century Modern, highlights the

furniture from the 1970s and into the 21st century with a focus on the foremost promoters of modern furniture Knoll International and Herman Miller and concludes with a selection of the top Studio Furniture makers and their innovative creations The book focuses on the leading American designers from each of these periods including Gustav Stickley and Charles Rohlfs during the Arts and Crafts movement Paul Frankl and Gilbert Rohde in the interwar period Charles and Ray Eames and George Nelson for Mid century Modern and Wendell Castle and George Nakashima for Studio Furniture to name just a few All their furniture is explained and profusely illustrated with 280 color photos For anyone curious about the modern material culture that surrounds them the book will explain everything about American furniture from 1900 into the 21st century when it was made where it was made who made it what it was made of how it was designed how long it was in production and how the furniture related to its contemporaries *Landmarks of Twentieth-century Design* Kathryn B. Hiesinger, George Marcus, 1993 Hiesinger and Marcus Phila Museum of Art have assembled 400 examples of industrial and graphic design furniture lighting appliances and decorative objects 100 photos in color Arrangement is chronological About half the average page is given to photos Artifacts are related back and forward in time direct cross references would save index use Good book The title is accurate landmarks does not suggest beauty the 20th c has produced myriad design horrors Annotation copyright by Book News Inc Portland OR **Design in the USA** Jeffrey L.
