Hill, 2013-03-13 Post communist Russia turned against the West in the 2000s losing its earlier eagerness to collaborate with western Europe on economic and security matters and adopting a suspicious and defensive posture This book investigating a diplomatic negotiation involving Russia and the formerly Soviet Moldova explains this dramatic shift in Russian foreign policy William H Hill himself a participant in the diplomatic encounter describes a key episode that contributed to Russia s new attitude negotiations over the Russian leaning break away territory of Transdniestria in Moldova in which Moldova abandoned a Russian supported settlement at the last minute under heavy pressure from the West Hill s first hand account provides a unique perspective on historical events as well as information to assist scholars and policymakers to evaluate future scenarios When western leaders blocked what they saw as an unworkable settlement in a small remote post Soviet state Kremlin leaders perceived a direct geopolitical challenge on their own turf This event colored Russia s interpretations of subsequent western intervention in the region in Georgia after the Rose Revolution Ukraine in 2004 Kyrgyzstan Uzbekistan and elsewhere throughout the former Soviet empire **The Bear Next Door** Jaimy Melinda Wood, 2004 *Russia and the Commonwealth of Independent States* Zbigniew K Brzezinski, 2016-09-16 This work brings together major accords and protocols that form the institutional framework of the Commonwealth of Independent States CIS a selection of policy statements by the leaders of CIS countries a chronological record of political economic and military security developments and major crises in CIS hot spots and statistics and country profiles **Russia and Its Near Abroad** Nivedita Das Kundu, 2008-01-01 **Central Asia - Russia's Near Abroad or Crossroads of Asia?** Richard Pomfret, 2025-03-20 This Element assesses the claim that Central Asian countries hold a special position as Russia s near abroad The region has been important for millennia and only after conquest in the second half of the nineteenth century did Russia become important for Central Asia This connection became stronger after 1917 as Central Asia was integrated into the Soviet economy with rail roads and pipelines all leading north to Russia After independence these connections were gradually modified by new trade links and by new infrastructure while Russia s demand for unskilled labour during the 1999 2014 oil boom created a new economic dependency for Tajikistan and the

Kyrgyz Republic In 1991 political independence could not be accompanied by economic independence but over the next three decades economic dependence on Russia was reduced and the Central Asian countries have felt increasingly able to adopt political positions independent of Russia

**Near Abroad** Gerard Toal, 2016-12-16 Before Russia invaded Ukraine it invaded Georgia Both states are part of Russia's near abroad newly independent states that were once part of the Soviet Union and are now Russia's neighbors While the Russia Georgia war of 2008 faded from the headlines in the wake of the global recession the geopolitical contest that created it did not Six years later the spectre of a revanchist Russia returned when Putin's forces invaded and annexed the Crimean peninsula once part of Russia but an internationally recognized part of Ukraine since the Soviet collapse Crimea's annexation and follow on conflict in eastern Ukraine have generated the greatest geopolitical crisis on the European continent since the end of the Cold War In Near Abroad the eminent political geographer Gerard Toal moves beyond the polemical rhetoric that surrounds Russia's interventions in Georgia and Ukraine to study the underlying territorial conflicts and geopolitical struggles Central to understanding are legacies of the Soviet Union collapse unresolved territorial issues weak states and a conflicted geopolitical culture in Russia over the new territorial order The West's desire to expand NATO contributed to a growing geopolitical contest in Russia's near abroad This found expression in a 2008 NATO proclamation that Georgia and Ukraine will become members of NATO a red line issue for Russia The road to invasion and war in Georgia and Ukraine thereafter is explained in Near Abroad Geopolitics is often thought of as a game of chess Near Abroad provides an account of real life geopolitics one that emphasizes changing spatial relationships geopolitical cultures and the power of media images Rather than being a cold game of deliberation geopolitics is often driven by emotions and ambitions by desires for freedom and greatness by clashing personalities and reckless acts Not only a penetrating analysis of Russia's relationships with its regional neighbors Near Abroad also offers an analysis of how US geopolitical culture frequently fails to fully understand Russia and the geopolitical archipelago of dependencies in its near abroad

**Russia's Policy Challenges** Stephen K. Wegren, 2016-07-08 Designed for use in courses on contemporary Russia this volume explores Russia's policy dilemmas in three realms international security socio political and socio economic In each of these categories Russia faces daunting problems none of which is likely to be resolved quickly or easily Yet over the longer term the extent to which policymakers are successful in dealing with these challenges will go far in determining Russia's future place in the world how Russians will live and what kind of country Russia becomes Each expertly authored chapter outlines the nature of one major issue traces its evolution and policy developments under the Yeltsin and Putin presidencies and evaluates the effectiveness and prospects of efforts to come to grips with the challenge

*The New Russian Foreign Policy* Michael Mandelbaum, 1998 This book surveys Russia's relations with the world since 1992 and assesses the future prospect for the foreign policy of Europe's largest country Together these essays offer an authoritative summary and assessment of Russia's relations with its neighbors and with the rest of the world since the collapse of the Soviet Union

*National Identity and Ethnicity in Russia and the New States of Eurasia* Roman Szporluk, 1994 First Published in 1995 Routledge is an imprint of Taylor Francis an Informa company

**The State of Play in Russia's Near Abroad**, 2009 Right now Russia is engaged in a grand face saving gesture having lost the Cold War in so dramatic a fashion it is swapping dreams of global domination for dreams of Eurasian suzerainty Key to this aspiration is rigorous control over the activities alliances internal affairs and attitudes of the generally former Soviet states on its periphery and a new entrant the Arctic Ocean With World War II now woven into their being Russians want to be able to defeat an invader on foreign rather than Russian territory in buffer states such as Mongolia and the Muslim Slavic near abroad Thus their overwhelming desire to coopt these lands and create a sort of peripheral suzerainty where all others must fear to tread Attempts to control the next ring of former Warsaw Pact allies have been abysmal but that has not stopped Russia from trying witness for instance the political capital expended to prevent Kosovo's independence or to torpedo the proposed U S antiballistic missile defense system in Poland and the Czech Republic Highly reminiscent of America's own Monroe Doctrine Moscow is asserting a privileged sphere of influence and expecting the world to concur without objection It is increasingly laying down markers and drawing red lines in the sand so border states are constantly aware they can only go so far before displeasing their neighbor

**Russian Strategic Objectives in the Near Abroad** Alexei Savtchenko, 2014-05-16 Given Russian behavior during conflicts in Georgia and immediately following the Orange Revolution in Ukraine it is possible to identify the primary strategic goals that shape contemporary Russian foreign policy decision making Russian policy is driven by three major goals the maintenance of military and economic security with respect to neighboring states retaining regional hegemony and excluding other major actors from the near abroad and providing support to the Russian cultural empire left behind by the fall of the Soviet Union Each of these goals emerges from distinct ideological groups among the policy making elite striving to pursue their goals within the institutional structure of the contemporary Russian government During the gas disputes between 2005 and 2009 with

Ukraine and the war with Georgia in 2008 Russia demonstrated a keen adherence to these objectives Based on Russian actions in these two foreign policy crises it is possible to project what form Russian policy will take in post conflict Ukraine and in other future conflicts in Russia s near abroad     *Russia and the Near Abroad* Joshua Horton,1996     **Russia and the "Near Abroad"** ,1996     *The Russian Military into the 21st Century* Stephen J. Cimbala,2013-10-23 This work attempts to clarify the major problems facing Russia s armed forces in the present and immediate future It covers threats from terrorists break away republics and threats from outside Russia s borders The book also includes political and economic problems facing the military     **Struggle for Alliance** Abdolrasool Divsallar,2024-08-22 This book provides a comprehensive study of the complex impacts of the war in Ukraine on Russo Iranian relations and the resulting consequences for the international relations of the Middle East In contrast to dominant academic approaches which view Russo Iranian relations through the lens of an anti hegemonic agenda and confrontation with the US led international order this study presents an alternative angle stating that the war in Ukraine has sped up Moscow and Tehran s interdependency primarily because of the protective benefits that it brings to both states The book analyzes various debates about the impact of the war on Russo Iranian relations From the perspective of the emerging literature on authoritarian regionalism the book explores how domestic politics and common threat perceptions play a role in these states decisions to adjust to the systemic changes caused by the war Chapters address how changes in the strategic environment are affecting Moscow and Tehran s perception of each other what factors contribute the most to both states decision to pursue greater cooperation and how they manage the new conflicts of interest raised by the war The book also queries whether relations continue to be based on tactical partnership or whether a stronger alliance between Moscow and Tehran is unfolding and what the consequences of such a struggle for alliance will be for the wider region     **Russia and Eurasia 2017-2018** Brent Hierman,2017-09-01 Published and updated annually *Russia and Eurasia* deals with the twelve independent republics that became members of the Commonwealth of Independent States following the collapse of the Soviet Union in December 1992 The text focuses strongly on recent economic and political developments with shorter sections dealing with foreign policy the military religion education and specific cultural elements that help to define each republic and differentiate one from the other Approximately one third of the book is devoted to Russia but also includes sections on Ukraine Belarus Moldova Armenia Azerbaijan Georgia Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan How the Commonwealth of Independent States came into being and how it has evolved since 1992 is also discussed The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students
