Country Reports on Human Rights Practices, 2003 "Enduring Freedom" Human Rights Watch (Organization), 2004 Background Operation Enduring Freedom Violations by U S forces International legal context Conclusions Recommendations Appendix U S criticisms of mistreatment and torture practices Acknowledgments **The Department of Labor's ... Findings on the Worst Forms of Child Labor**, 2003 **The Department of Labor's 2001 findings on the worst forms of child labor : Trade and Development Act of 2000.** , **The Department of Labor's 2002 Findings on the Worst Forms of Child Labor** , 2003 **Ruling Russia** William Alex Pridemore, 2005-07-25 Law crime and justice are among the most salient issues in any country This is especially true for a transitional nation like Russia that is facing tremendous social political and economic changes many of which create conditions conducive to crime These ongoing changes have had profound effects on every major social institution in the country and the transition from totalitarianism and a command economy toward rule of law and a free market is resulting in shifts in fundamental cultural values In this environment governmental agencies are often left without a clear mission especially given their sometimes dubious roles during the Soviet era and are rarely provided with the resources necessary to fulfill the difficult duties that are so vital to a functional democracy This volume with chapters by highly respected scholars in several disciplines provides a comprehensive sourcebook of scholarly analysis of the effects of these changes on legal developments and rule of law in Russia its changing patterns and nature of crime and its criminal justice system Contributions by Adrian Beck William E Butler Linda J Cook Galina N Evdokushkina Leonid A Gavrilov Natalia S Gavrilova Alla E Ivanova Janet Elise Johnson Roy King Robert W Orttung Letizia Paoli Laura Piacentini William Alex Pridemore Annette Robertson Daniel G Rodeheaver Richard Sakwa Olga Schwartz Victoria G Semyonova Louise I Shelley Peter H Solomon Jr Janine R Wedel and James L Williams **Between Dictatorship and Democracy** Michael McFaul, Nikolay Petrov, Andrei Ryabov, 2010-04 For hundreds of years dictators have ruled Russia Do they still In the late 1980s Soviet President Mikhail Gorbachev launched a series of political reforms that eventually allowed for competitive elections the emergence of an independent press the formation of political parties and the sprouting of civil society After the collapse of the Soviet Union in 1991 these proto democratic institutions endured in an independent Russia But did the processes unleashed by Gorbachev and continued under Russian President Boris Yeltsin lead eventually to liberal democracy in Russia If not what kind of political regime did take hold in post Soviet Russia And how has Vladimir Putin s rise to power influenced the course of democratic consolidation or the lack thereof Between Dictatorship and Democracy seeks to give a comprehensive answer to these fundamental questions about the nature of Russian politics **Understanding Ukrainian Politics: Power, Politics, and Institutional Design** Paul D'Anieri, 2015-01-28 Ukraine made headlines around the world during the winter of 2004 05 as the colorful banners of the Orange Revolution unfurled against the snowy backdrop of Kyiv signaling the bright promise of democratic rebirth But is that

what is really happening in Ukraine In the early post Soviet period Ukraine appeared to be firmly on the path to democracy The peaceful transfer of power from Leonid Kravchuk to Leonid Kuchma in the election of 1994 followed by the adoption of a western style democratic constitution in 1996 seemed to complete the picture But the Kuchma presidency was soon clouded by dark rumors of corruption and even political murder and by 2004 the country was in full blown political crisis A three stage presidential contest was ultimately won by Viktor Yushchenko who took office in 2005 and appointed Yulia Tymoshenko as premier but the turmoil was far from over The new government quickly faltered and splintered This introduction to Ukrainian politics looks beyond these dramatic events and compelling personalities to identify the actual play of power in Ukraine and the operation of its political system The author seeks to explain how it is that after each new beginning power politics has trumped democratic institution building in Ukraine as in so many other post Soviet states What is really at work here and how can Ukraine break the cycle of hope and disillusionment *Migration, Refugee Policy, and State Building in Postcommunist Europe* Oxana Shevel, 2011-10-24 Why do similar postcommunist states respond differently to refugees Why do some states privilege certain refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the Czech Republic Poland Russia and Ukraine

Russia and Its Constitution Gordon B. Smith, Robert Stewart Sharlet, 2008 How is the Russian Constitution ratified in 1993 being implemented today A team of distinguished scholars assesses the promise and the realities of Russian constitutionalism in a number of critical areas **Berkeley Journal of International Law**, 2003 **China** Constantine Christopher Menges, 2005 In a book that is as certain to be as controversial as it is meticulously researched a former special assistant to the president for National Security Affairs and senior official of the Central Intelligence Agency shows that the U S could be headed toward a nuclear face off with communist China within four years And it definitively reveals how China is steadily pursuing a stealthy systematic strategy to attain geopolitical and economic dominance first in Asia and Eurasia then possibly globally within the next twenty Using recently declassified documents statements by Russian and Chinese leaders largely overlooked in the Western media and groundbreaking analysis and investigative work Menges explains China's plan thoroughly exposing China's methods of economic control China's secret alliance with Russia and other anti America nations including North Korea China's growing military and nuclear power over 90 ICBMs many of them aimed at U S cities How China and Russia have been responsible for weaponizing terrorists bent on harming the U S Damage caused by China's trade

tactics since 1990 we've lost 8 million jobs thanks to China trade surpluses
