Bachelor Japanists Christopher Reed, 2016-11-15 Challenging clich s of Japanism as a feminine taste Bachelor Japanists argues that Japanese aesthetics were central to contests over the meanings of masculinity in the West Christopher Reed draws attention to the queerness of Japanist communities of writers collectors curators and artists in the tumultuous century between the 1860s and the 1960s Reed combines extensive archival research analysis of art architecture and literature the insights of queer theory and an appreciation of irony to explore the East West encounter through three revealing artistic milieus the Goncourt brothers and other japonistes of late nineteenth century Paris collectors and curators in turn of the century Boston and the mid twentieth century circles of artists associated with Seattle s Mark Tobey The result is a groundbreaking integration of well known and forgotten episodes and personalities that illuminates how Japanese aesthetics were used to challenge Western gender conventions These disruptive effects are sustained in Reed s analysis which undermines

FDR's Ambassadors and the Diplomacy of Crisis David Mayers, 2013 What effect did personality and circumstance have on US foreign policy during World War II This incisive account of US envoys residing in the major belligerent countries Japan Germany Italy China France Great Britain USSR highlights the fascinating role played by such diplomats as Joseph Grew William Dodd William Bullitt Joseph Kennedy and W Averell Harriman Between Hitler's 1933 ascent to power and the 1945 bombing of Nagasaki US ambassadors sculpted formal policy occasionally deliberately other times inadvertently giving shape and meaning not always intended by Franklin D Roosevelt or predicted by his principal advisors From appeasement to the Holocaust and the onset of the Cold War David Mayers examines the complicated interaction between policy as conceived in Washington and implementation on the ground in Europe and Asia By so doing he also sheds needed light on the fragility ambiguities and enduring urgency of diplomacy and its crucial function in international politics *Continental*

Crosscurrents J. B. Bullen, 2005-08-25 *Continental Crosscurrents* is a series of case studies reflecting British attitudes to continental art during the nineteenth and the early twentieth centuries It stresses the way in which the British went to the continent in their search for origins or their pursuit of sources of purity and originality This cult of the primitive took many forms it involved a reassessment of medieval German and Italian art and offered new ways of interpreting Venetian painting it opened up new readings of architectural history and the discovery of the Romanesque it generated a debate about the value of returning to religious subjects in art and it raised the question of the relationship between modern art and Byzantine art in the early twentieth century J B Bullen's original study presents some exciting findings Few critics have noticed how much in advance of his time was Coleridge's passion for medieval art Ruskin's debt in the *Stones of Venice* to Victor Hugo's *Notre Dame de Paris* has hardly been noted and Browning's involvement with the debate on the morality of Christian art is explored more extensively than previously Three chapters are devoted to the role of British criticism in identifying the Romanesque style in architecture and differentiating it from the Gothic They trace the concept as it arose in criticism at the beginning of the nineteenth century its employment in the remarkable buildings of Edmund Sharpe and Sara Losh and the way in which it reached a climax in Waterhouse's enigmatic choice of Romanesque for the Natural History Museum in London The collection concludes with two continental episodes from the history of modernism One is the explosive British reaction to the primitivism of Gauguin the other involves the identifying of one of the characters in D H Lawrence's novel *Women in Love* Curious evidence suggests that the malevolent figure of Loerke was based on a German sculptor whom Lawrence met in Italy before the First World War *Reason and Imagination* Learned Hand, 2013-01-17 *Reason and Imagination* The Selected Correspondence of Learned Hand provides readers with an intimate look into the life and mind of Judge Learned Hand an icon in American Law This new book brings to light previously unpublished letters and gives readers insight into Hand's thoughts on American jurisprudence and policy This new collection includes a preface by Ronald Dworkin

Ernest Hemingway on Writing Larry W. Phillips, 2002-07-25 A collection of reflections on writing and the nature of the writer from one of the greatest American writers of the 20th century Throughout Hemingway's career as a writer he maintained that it was bad luck to talk about writing that it takes off whatever butterflies have on their wings and the arrangement of hawk's feathers if you show it or talk about it Despite this belief by the end of his life he had done just what he intended not to do In his novels and stories in letters to editors friends fellow artists and critics in interviews and in commissioned articles on the subject Hemingway wrote often about writing And he wrote as well and as incisively about the subject as any writer who ever lived This book contains Hemingway's reflections on the nature of the writer and on elements of the writer's life including specific and helpful advice to writers on the craft of writing work habits and discipline The Hemingway personality comes through in general wisdom with humor and insight and in his insistence on the integrity of the writer and of the profession itself From the Preface by Larry W Phillips *Philosophy, Humor, and the Human Condition* Lydia

Amir, 2019-12-19 This book presents an original worldview Homo risibilis wherein self-referential humor is proposed as the path leading from a tragic view of life to a liberating embrace of human ridicule Humor is presented as a conceptual tool for holding together contradictions and managing the unresolvable conflict of the human condition till Homo risibilis resolves the inherent tension without epistemological cost This original approach to the human condition allows us to effectively address life's ambiguities without losing sight of its tragic overtones and brings along far-ranging personal and social benefits By defining the problem that other philosophies and many religions attempt to solve in terms we can all relate to Homo risibilis enables an understanding of the Other that surpasses mere tolerance Its egalitarian vision roots an ethic of compassion without requiring metaphysical or religious assumptions and liberates the individual for action on others' behalf It offers a new model of rationality which effectively handles and eventually resolves the tension between oneself others and the world at large Amir's view of the human condition transcends the field of philosophy of humor An original worldview that fits the requirements of traditional philosophy Homo risibilis is especially apt to answer contemporary concerns It embodies the minimal consensus we need in order to live together and the active role philosophy should responsibly play in a global world Here developed for the first time in a complete way the Homo risibilis worldview is not only liberating in nature but also illuminates the shortcomings of other philosophies in their attempts to secure harmony in a disharmonious world for a disharmonious human being Victorian and Edwardian Responses to the Italian Renaissance John E. Law, Lene

Østermark-Johansen, 2017-03-02 The historiography of the Italian Renaissance has been much studied but generally in the context of a few key figures Much less appreciated is the extent of the enthusiasm for the subject in the 19th and early 20th centuries when the subject was discovered by travellers and men and women of letters historians artists architects and photographers and by collectors on both sides of the Atlantic The essays in *Victorian and Edwardian Responses to the Italian Renaissance* explore the breadth of the responses stimulated by the encounter between the British the Americans and the

Italians of the Renaissance The volume approaches the subject from an interdisciplinary perspective While recognising the abiding importance of the familiar great names it seeks to draw attention to a wider cast of people many of whom led colourful energetic lives knew Italy well and wrote eloquently about the country and its Renaissance Several essays show that Renaissance studies became a field in which female historians could explore areas of relevance to the New Woman Other chapters examine the aims and politics of collecting and the place of the collector in literature and in the rediscovery of Renaissance artists The contribution of teachers and other less formal champions of the Italian Renaissance is explored as is the role of photographers who re framed and re viewed Florence the Renaissance city for Victorian and later eyes A. Mary F. Robinson Patricia Rigg,2021-09-15 Born in England in 1857 Agnes Mary Frances Robinson contributed to cultural and literary currents from nineteenth century Victorianism to twentieth century modernism she was equally at home in London and Paris and prolific in both English and French Yet Robinson remains an enigma on many levels This literary biography integrates Robinson s unorthodox life with her development as a writer across genres Best known for her poetry Robinson was also a respected biographer history writer travel writer and contributor of reviews and articles to the Times Literary Supplement for nearly forty years She had a romantic friendship with the writer Vernon Lee and two happy and celibate marriages Her salons in London and Paris were attended by major literary and artistic figures and she counted amongst her friends Robert Browning Oscar Wilde John Addington Symonds Gaston Paris Ernest Renan and Maurice Barr s Reflecting a decade of research in international archives and family papers A Mary F Robinson reveals the extraordinary woman behind the popular writer and critically acclaimed poet **Approaches to the Study of Attic Vases** Philippe Rouet,2001 This book concerns the history of the interpretation of Attic painted vases and is based on a comparative study of the works of Edmond Pottier 1855 1934 the founder and organizer of the Corpus Vasorum Antiquorum and John Beazley 1885 1970 who carried out the majority of vase attributions The comparison between the two men involves an examination of two intellectual traditions which run through the history of the study of pottery The first of these accentuates the documentary value of vases and the need to ensure their global publication while the second views vases as objets d art and endeavours to trace the development of artistic forms by constructing a history of vase painters In reality these approaches are not directly conflicting but represent two poles around which the discipline of pottery scholarship is organized By showing how both interpretations have gained support in the more recent past this work aims to provide a better understanding of the issues involved in the study of pottery today Gurdjieff Was Wrong But His Teaching Works Orest Stocco,2016-02-07 Gurdjieff was wrong but his teaching works is the story of one man s remarkable journey of self discovery which dispels the Gurdjieffian premise that man is not born with an immortal soul With his own quest Orest Stocco illustrates that we are all born with a spark of divine consciousness but not until we take evolution into our own hands which Gurdjieff s teaching helped him to do will we realize our true self
