many of his best known stories Hence in order to understand the author and his work it is crucial to apprehend the historical background from which his stories arose The awareness of the Puritan legacy in Hawthorne s time and their Calvinist beliefs which contributed to the establishment of American identity serve as a basis for fathoming the intention behind Hawthorne s writings His forefathers concept of wilderness became an important part of their religious life and in many of Hawthorne s tales nature can be perceived as an active agent for the plot and the moral message Therefore it is indispensable to consider the development behind the Puritan perception as well as the prevailing opinion on nature during the writer s lifetime After the historical background has been depicted the author himself is focused His ambiguous character and non persistent lifestyle are the source of many themes which can be retrieved from his works Thus understanding the man behind the stories is necessary in order to analyze the tales themselves Seclusion nature and Puritanism are constantly recurring topics in the author s life and work To become familiar with Hawthorne s relation to nature his ancestors and religion it is essential to understand the vast amount of symbols his stories His stories will be brought into focus and will be analyzed on the basis of the historical and biographical facts and further his particular style and purpose will be taken into consideration The second part of this book analyzes two of the author s most eminent and esteemed works namely Young Goodman Brown and The Scarlet Letter in terms of nature symbolism and the underlying moral intention Further it is examined to which extent the images correspond to the formerly explained historical facts and Hawthorne s emphasized characteristic features The comparison of the two works focuses on the didactic purpose for in all of his works Hawthorne s aim was to give a lesson Thus it will
