The Lost Art of Scripture Karen Armstrong,2019-11-05 A book that shines fresh light on the world s major religions to help us build bridges between faiths and rediscover a creative and spiritual engagement with holy texts from the New York Times bestselling author of A History of God An unusual often dazzling blend of theology history and neuroscience The New Yorker The significance of scripture may not be immediately obvious in our secular world but its misunderstanding is perhaps the root cause of many of today s controversies The sacred texts have been co opted by fundamentalists who insist that they must be taken literally and by others who interpret scripture to bolster their own prejudices These texts are seen to prescribe ethical norms and codes of behavior that are divinely ordained they are believed to contain eternal truths But as Karen Armstrong shows in this chronicle of the development and significance of major religions such a narrow peculiar reading of scripture is a relatively recent modern phenomenon For most of their history the world s religious traditions have regarded these texts as tools that enable the individual to connect with the divine to experience a different level of consciousness and to help them engage with the world in more meaningful and compassionate ways

**Be Here Now** Ram Dass,1971-10-12 Beloved guru Ram Dass tells the story of his spiritual awakening and gives you the tools to take control of your life in this counterculture bible The New York Times featuring powerful guidance on yoga meditation and finding your true self When Be Here Now was first published in 1971 it filled a deep spiritual emptiness launched the ongoing mindfulness revolution and established Ram Dass as perhaps the preeminent seeker of the twentieth century Just ten years earlier he was known as Professor Richard Alpert He held appointments in four departments at Harvard University He published books

drove a Mercedes and regularly vacationed in the Caribbean By most societal standards he had achieved great success And yet he couldn't escape the feeling that something was missing Psilocybin and LSD changed that During a period of experimentation Alpert peeled away each layer of his identity disassociating from himself as a professor a social cosmopolite and lastly as a physical being Fear turned into exaltation upon the realization that at his truest he was just his inner self a luminous being that he could trust indefinitely and love infinitely And thus a spiritual journey commenced Alpert headed to India where his guru renamed him Baba Ram Dass servant of God He was introduced to mindful breathing exercises hatha yoga and Eastern philosophy If he found himself reminiscing or planning he was reminded to Be Here Now He started upon the path of enlightenment and has been journeying along it ever since Be Here Now is a vehicle for sharing the true message and a guide to self determination

A Guide to Oriental Classics Wm. Theodore De Bary, Ainslie Embree, Amy Vladeck Heinrich, 1989-05-03 A Guide to Oriental Classics

Hua-Yen Buddhism Francis H. Cook, 2010-11 Hua yen is regarded as the highest form of Buddhism by most modern Japanese and Chinese scholars This book is a description and analysis of the Chinese form of Buddhism called Hua yen or Hwa yea Flower Ornament based largely on one of the more systematic treatises of its third patriarch Hua yen Buddhism strongly resembles Whitehead's process philosophy and has strong implications for modern philosophy and religion Hua yen Buddhism explores the philosophical system of Hua yen in greater detail than does Garma C C Chang's The Buddhist Teaching of Totality Penn State 1971 An additional value is the development of the questions of ethics and history Thus Professor Cook presents a valuable sequel to Professor Chang's pioneering work The Flower Ornament School was developed in China in the late 7th and early 8th centuries as an innovative interpretation of Indian Buddhist doctrines in the light of indigenous Chinese presuppositions chiefly Taoist Hua yen is a cosmic ecology which views all existence as an organic unity so it has an obvious appeal to the modern individual both students and layman

Buddhist Thought Paul Williams, Anthony Tribe, Alexander Wynne, 2002-01-04 Buddhist Thought guides the reader towards a richer understanding of the central concepts of classical Indian Buddhist thought from the time of Buddha to the latest scholarly perspectives and controversies Abstract and complex ideas are made understandable by the authors' lucid style Of particular interest is the up to date survey of Buddhist Tantra in India a branch of Buddhism where strictly controlled sexual activity can play a part in the religious path Williams' discussion of this controversial practice as well as of many other subjects makes Buddhist Thought crucial reading for all interested in Buddhism
