Hackett,2009-01-21 The Christian world view contends the author both needs and embodies a thoroughgoing rational apologetic as a manifestation of its relevance to the contemporary mind Christian faith should be defended in terms of criteria which center in rational objectivity as the norm of truth and evaluation The author who stands in the tradition of Aquinas Butler Orr and Tennant deals first with the problem of epistemological approach part 1 Then he tackles the apologetic of natural revelation first setting forth the inadequacy of every major alternate to rational empiricism part 2 then demonstrating the existence of the God of theism part 3 Each chapter is well outlined and these outlines appear together in an Analytical Table of Contents This feature as well as a bibliography and index makes this a useful textbook for courses in apologetics and philosophy **William Herbert Perry Faunce, President of Brown University**

Marcet Haldeman-Julius, 1927 **Retrieving Liberalism from Rationalist Constructivism, Volume I** Walter B.
Weimer, 2022-05-07 This first volume History and its Betrayal traces the development of major themes of liberalism from the
increase in human population beyond the limits of the face to face society of tribalism and small groups up until the present

day It shows that the principles underlying liberalism are the evolutionary development of social organizations that have resulted from the complexity of human action rather than any conscious design or purpose This book draws out the differences between the classical liberalism dependent upon spontaneous and tacit ordering as a result of evolution and the explicit or conscious or directed version of progressivism It shows that the most important recent developments in the philosophy of rationality and the methodology of scientific research as well as in evolutionary epistemology and the philosophy of biology actually stem from the theories of complex social organization of the moralists such as Hume Ferguson and Smith The book shows clearly that classical liberalism was never refuted indeed no attempt to do so has been offered it has simply been ignored in favour of programs which sound beneficial and soothing but which cannot be instituted without returning to tribalism
