Margaretta Jolly, 2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company *The
Canon of Supreme Mystery by Yang Hsiung* Michael Nylan, 2014-02-01 This is a translation with a commentary and a long
contextualizing introduction of the only major work of Han 206 B C to 220 A D philosophy that is still available in complete
form It is the first translation of the work into a European language and provides unique access to this formative period in
Chinese history Because Yang Hsiung's interpretations drew upon a variety of pre Han sources and then dominated
Confucian learning until the twelfth century this text is also a valuable resource on early Chinese history philosophy and
culture beyond the Han period The Tai hs an is also one of the world's great philosophic poems comparable in scale and
grandeur to Lucretius De rerum naturum Nathan Sivin has written that this is one of the titles on the short list of Chinese
books every cultivated person should read Han thinkers saw in this text a compelling restatement of Confucian doctrine that
addressed the major objections posed by rival schools including Mohism Taoism Legalism and Yin Yang Five Phase Theory
Since this Han amalgam formed the basis for the state ideology of China from 134 B C to 1911 an ideology that in turn
provided the intellectual foundations for the Japanese and Korean states the importance of this book can hardly be
overestimated *The Constitution of Ancient China* Su Li, 2018-08-07 How was the vast ancient Chinese empire brought
together and effectively ruled What are the historical origins of the resilience of contemporary China's political system In *The
Constitution of Ancient China* Su Li China's most influential legal theorist examines the ways in which a series of
fundamental institutions rather than a supreme legal code upholding the laws of the land evolved and coalesced into an
effective constitution Arguing that a constitution is an institutional response to a set of issues particular to a specific society
Su Li demonstrates how China unified a vast territory diverse cultures and elites from different backgrounds into a whole He
delves into such areas as uniform weights and measurements the standardization of Chinese characters and the building of
the Great Wall The book includes commentaries by four leading Chinese scholars in law philosophy and intellectual history
Wang Hui Liu Han Wu Fei and Zhao Xiaoli who share Su Li's ambition to explain the resilience of ancient China's political
