Selections From Dynamics Of Democracy

Anna Lührmann, Wolfgang Merkel

Selections From Dynamics Of Democracy:

The Selection of Ministers in Europe Keith Dowding, Patrick Dumont, 2008-11-19 This volume examines through a series of case studies of countries with differing institutional and cultural structures the process of selection shuffling and removal of ministers in national cabinets since 1945

Party and Democracy Piero Ignazi, 2018-01-26 Party and Democracy questions why political parties today are held in such low estimation in advanced democracies The first part of the volume reviews theoretical motivations behind the growing disdain for the political party In surveying the parties lengthy attempt to gain legitimacy particular attention is devoted to the cultural and political conditions which led to their emergence on the ground and then to their political and theoretical acceptance as the sole master in the chain of delegation The second part traces the evolution of the party s organization and public confidence against the backdrop of the transition from industrial to post industrial societies The book suggests that in the post war period parties shifted from a golden age of organizational development and positive reception by public opinion towards a more difficult relationship with society as it moved into post industrialism Parties were unable to master societal change and thus moved towards the state to recover resources they were no longer able to extract from their constituencies Parties have become richer and more powerful thanks to their interpenetration into the state but they have paid for their pervasive presence in society and the state with a declining legitimacy Even if some changes have been introduced recently in party organizations to counteract their decline they seem to have become ineffective even worse they have dampened democratic standing inside and outside parties favouring plebiscitary tendencies The party today is caught in a dramatic contradiction It has become a sort of Leviathan with clay feet very powerful thanks to the resources it gets from the state and to its control of the societal and state spheres but very weak in terms of legitimacy and confidence in the eyes of the mass public However it is argued that there is still no alternative to the party Democracy is still inextricably linked to the party system

Democracy, Leadership and Governance - Application of Artificial Intelligence K. Gireesan, Jos Chathukulam, 2024-10-10 In today s rapidly evolving political landscape the intersection of democracy leadership and governance with artificial intelligence AI has become a focal point for academic inquiry and practical explorations This book is a machine generated literature overview that explores the opportunities challenges and impacts of integrating AI technologies in democratic processes leadership dynamics and sustainable governance Through a collection of thought provoking chapters readers will gain insights into the transformative potential of AI that revisits the tenets of deliberative democracy redefines leadership roles and rejuvenates public service delivery This volume offers a comprehensive exploration of the processes and practices of democratic decision making leadership development and sustainable governance It serves as a valuable resource to academics policymakers and practitioners navigating through the concepts dimensions and praxis of democracy leadership and governance It is an important value addition to the body of knowledge and paves the way for informed decision making and responsible

application of digital technologies for good governance *Politics of Random Selection* Gil Delannoi, 2025-01-07 What should you do when you have decided to use the drawing of lots in a procedure What practical questions arise What options are available What are the details What advantages and disadvantages should we expect from each option What are the risks to be aware of and the precautions to take The literature on sortition consists of three main genres monographs arguments for and against and the history of the procedure in one or more dimensions This book stands a little apart from this framework Its method is largely deductive and theoretical in reasoning It has a practical purpose which is aimed at specialists as well as naïve users and interested parties precise enough to satisfy an informed public and simple enough to be accessible to citizens and practitioners Gil Delannoi begins with a general theory of political procedures and its relations with the typology of political regimes Sortitive democracy is also studied as a third option distinct from the familiar representative and direct types Sortition is analysed through its main uses effects and objectives Several detailed potential uses are proposed for political actors at the end of the book Treating procedures like delicate flowers or rare birds is far from superfluous To forget this aspect is to stick to generalities and to ignore crucial details **Hard Choices** Donald K Emmerson, 2003-08-01 The region's most powerful organization ASEAN is being challenged to ensure security and encourage democracy while simultaneously reinventing itself as a model of Asian regionalism Should ASEAN's leaders defend a member country's citizens against state predation for the sake of justice and risk splitting ASEAN itself Or should regional leaders privilege state security over human security for the sake of order and risk being known as a dictators club Should ASEAN isolate or tolerate the junta in Myanmar Is democracy a requisite to security or is it the other way around How can democratization become a regional project without first transforming the Association into a people-centered organization But how can ASEAN reinvent itself along such lines if its member states are not already democratic How will its new Charter affect ASEAN's ability to make these hard choices How is regionalism being challenged by transnational crime infectious disease and other border jumping threats to human security in Southeast Asia Why have regional leaders failed to stop the perennial regional haze from brush fires in democratic Indonesia Does democracy help or hinder nuclear energy security in the region In this timely book the second of a three book series focused on Asian regionalism ten analysts from six countries address these and other pressing questions that Southeast Asia faces in the twenty first century **Associative Democracy and the Crises of Representative Democracies** Veit Bader, Marcel Maussen, 2023-08-18 The familiar problems of democratic capitalism have given way to a deep crisis challenging the basic forms of governance introduced around the late 18th century and then gradually expanded and developed until the late 20th century Associative Democracy and the Crises of Representative Democracies argues that we are in urgent need of normative guidelines and a strong understanding of a broad range of institutional options and innovative experiments in associative democracy in order to address the structural problems that existing institutional arrangements are confronted with whilst maintaining and

strengthening democratic forms of government and governance The argument is developed against the background of a thorough survey of empirical social scientific studies on the crises of capitalisms and representative democracies This book focuses primarily on democratic alternatives though it also works out principles and institutions of democratic socialism as alternatives to capitalism After introducing the theoretical approach the book illustrates the ways this framework of analysis can be of use with particular focus on three issues that are highly topical when it comes to the challenges our institutions are confronted with democratic governance in relation to ecological crises and uncertainty the threats to democracy raised by the crisis of political parties and representative party democracy and the challenges related to privatization and marketization of public services particularly in healthcare The book concludes by exploring opportunities to democratize the economy locating viable alternatives to capitalism in the tradition of democratic socialism This urgent and thought provoking book will be of great interest to academics and students in various disciplines in the humanities and social sciences including political science sociology and economics **Understandings of Democracy** Jie Lu, Yun-han Chu, 2021-12-14

Understandings of Democracy examines why democracy is in trouble in today's world even when most people profess to love democracy Jie Lu and Yun han Chu argue that people hold distinct understandings of democracy and popular understandings of democracy have critically shaped how citizens respond to authoritarian or populist practices in contemporary politics Using large scale comparative surveys and survey experiments from seventy two societies and a national survey in the United States this book captures how people respond when presented with the tradeoffs between the intrinsic and instrumental values of democracy as well as the attitudinal and behavioral implications of such responses *Resilience of Democracy* Anna Lührmann, Wolfgang Merkel, 2023-02-28 Illiberalism and authoritarianism have become major threats to democracy across the world In response to this development research on the causes and processes of democratic declines has blossomed Much less scholarly attention has been devoted to the issue of democratic resilience Why are some democracies more resilient than others to the current trend of autocratization What role do institutions actors and structural factors play in this regard What options do democratic actors have to address illiberal and authoritarian challenges This book addresses all these questions The present introduction sets the stage by developing a new concept of democratic resilience as the ability of a democratic system its institutions political actors and citizens to prevent or react to external and internal challenges stresses and assaults The book posits three potential reactions of democratic regimes to withstand without changes to adapt through internal changes and to recover without losing the democratic character of its regime and its constitutive core institutions organizations and processes The more democracies are resilient on all four levels of the political system political community institutions actors citizens the less vulnerable they turn out to be in the present and future This edited volume will be of great value to students academics and researchers interested in politics political regimes and theories democracy and democratization autocracy and autocratization polarization social democracy and comparative government The chapters

in this book were originally published as a special issue of Democratization Courthouse Democracy and Minority Rights
 Robert J. Hume, 2013-05-02 In Courthouse Democracy and Minority Rights Same Sex Marriage in the States Robert J Hume shows how increasing the democratic accountability of courts has limited the ability of judges to act as reform agents When judges are elected or when their decisions can be easily overturned with initiative amendment procedures they lose the capacity to stand up for the rights of the minorities *The Politics of Party Leadership* William Cross, Jean-Benoit Pilet, 2015-11-26 Making use of a unique data set that includes more than 1000 leadership elections from over 100 parties in 14 countries over an almost 50 year period this volume provides the first comprehensive comparative examination of how parties choose their leaders and the impact of the different decisions they make in this regard Among the issues examined are how leaders are chosen the factors that result in parties changing their selection rules how the rules affect the competitiveness of leadership elections the types of leaders chosen the impact of leadership transition on electoral outcomes the factors affecting the length of leadership tenures and how leadership tenures come to an end This volume is situated in the literature on intra party decision making and party organizational reform and makes unique and important contributions to our understanding of these areas The analysis includes parties in Australia Austria Belgium Canada Denmark Germany Hungary Israel Italy Portugal Romania Spain Norway and the United Kingdom Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu

Anti-democracy in England 1570-1642 Cesare Cuttica, 2022-04-28 Anti democracy in England 1570 1642 is a detailed study of anti democratic ideas in early modern England By examining the rich variety of debates about democracy that took place between 1570 and 1642 it shows the key importance anti democratic language held in the late Tudor and early Stuart periods In particular it argues that anti democratic critiques were addressed at popular government as a regime that empowered directly and fully the irrational uneducated dangerous commonalty it explains why and how criticism of democracy was articulated in the contexts here under scrutiny and it demonstrates that the early modern era is far more relevant to the development of democratic concepts and practices than has hitherto been acknowledged The study of anti democracy is carried out through a close textual analysis of sources often neglected in the history of political thought and by way of a contextual approach to Elizabethan Jacobean and Caroline history Most importantly the study re evaluates the role of religion and cultural factors in the history of democracy and of political ideas more generally The point of departure is at a time when the establishment and Presbyterians were at loggerheads on pivotal politico ecclesiastical and theoretical matters the end coincides with the eruption of the Civil Wars Cesare Cuttica not only places the unexplored issue of anti democracy at the centre of historiographical work on early modern England but also offers a novel analysis of a precious portion of

Western political reflection and an ideal platform to discuss the legacy of principles that are still fundamental today

Democratic Crossroads Richard Youngs, 2024 In *Democratic Crossroads* Richard Youngs argues that there are three crises altering the balance between democratic and authoritarian dynamics around the world: climate change, the Covid 19 pandemic and its economic legacy, and geopolitical conflict. Yet while they add to the strains on democracy, they are also awakening a momentum of democratic resilience and renewal. Youngs argues that without stronger commitments to uphold and improve democratic norms and practices, democracy may not weather these challenges. In a moment of pivotal change, this book highlights key factors that will determine democracy's fortunes in the future.

Schools of Democracy Clayton Sinyai, 2006 In this new political history of the labor movement, Clayton Sinyai examines the relationship between labor activism and the American democratic tradition. Sinyai shows how America's working people and union leaders debated the first questions of democratic theory and in the process educated themselves about the rights and responsibilities of democratic citizenship. In tracing the course of the American labor movement from the founding of the Knights of Labor in the 1870s to the 1968 presidential election and its aftermath, Sinyai explores the political dimensions of collective bargaining, the structures of unions and businesses, and labor's relationships with political parties and other social movements. *Schools of Democracy* analyzes how labor activists wrestled with fundamental aspects of political philosophy and the development of American democracy, including majority rule versus individual liberty, the rule of law, and the qualifications required of citizens of a democracy. Offering a balanced assessment of mainstream leaders of American labor from Samuel Gompers to George Meany and their radical critics including the Socialists and the Industrial Workers of the World, Sinyai provides an unusual and refreshing perspective on American labor history.

Managing Conflicts in Africa's Democratic Transitions Akanmu G. Adebayo, 2012-08-31 The democratization process, which bolstered a culture of periodic elections, has also fostered election-related violent conflicts. As democratic transitions gained currency in the new millennium, orderly transitions through the ballot boxes began replacing military coups, but deaths and destructions came in the wake of elections in many countries. Inspired by decades-long pro-democracy movements across Africa that culminated in the Arab Spring of 2010-2011 and motivated by the desire to find long-term solutions to election-related violent conflicts in the continent, this book explores the terrain of democratization, elections, and conflict management. It raises and answers many questions such as: What are the root causes of election-related conflicts? How free, fair, and credible are elections in many African countries? What institutional mechanisms are available for ballot and voter security and for mandate protection? What has been the role of civil society organizations in conflict prevention and management? What are the responsibilities of the international community, especially regional organizations like the Economic Community of West African States (ECOWAS) and the African Union (AU) in conflict resolution? What indigenous mechanisms for conflict management have been identified that may be proactively engaged?

Democracy Without Politics in EU Citizen Participation Alvaro Oleart, 2023-10-30 How does

the dominant understandings of the democratic subject in the EU and of democracy more broadly shape the EU's democratic innovations on citizen participation. What are the politically and normatively preferable alternatives both in terms of the conceptualisation of the democratic subject in the EU and in the ensuing political practices? The book addresses these questions combining a political theory with a political sociology perspective contrasting the democracy without politics approach of the EU in the context of the Conference on the Future of Europe with that of ongoing transnational activist processes. In doing so it develops an agonistic alternative to the people's as the political imaginary of democracy in the EU which is based on the idea of the decolonial multitude. Thus the book puts forward a diagnosis of current debates on EU democratic legitimacy as well as proposing an alternative.

The Evolution of Economic Diversity Antonio Nicita, Ugo Pagano, 2013-12-16 The traditional role of evolutionary theory in the social sciences has been to explain the existence of an object in terms of the survival of the fittest. In economics this approach has acted as a justification for hypotheses such as profit maximisation or the existence of institutions in terms of their overall efficiency. This volume challenges that view and argues that one of the first tasks of economic theory should be to explain the enormous diversity of institutional arrangements that has characterised human societies.

Democracy Within Parties Reuven Y. Hazan, Gideon Rahat, 2010-07 This text presents a new approach to understanding political parties. It sheds light on the inner dynamics of party politics and offers a comprehensive analysis of one of the most important processes any party undertakes: its process of candidate selection.

Turkey's Democracy Saga Ali Bulac, 2015-07-07 Over the last decade the Middle East has been in a state of extraordinary at times violent flux. Once the region's biggest empire then its model democracy and always the bridge between the region and the West, Turkey has played a unique role in these movements: sometimes as inspirational model, sometimes as actor and sometimes as observer. In this collection of essays Ali Bula eruditely addresses issues as diverse as Turkey's uphill battle for democracy, its relationship with global powers, the Kurdish issue, the AKP Hizmet row and the Erdogan administration's escalating authoritarianism and its horrific attacks on free speech and the rule of law in an attempt to cover up massive government corruption. Bula leverages a wealth of knowledge to dissect Turkey's vital role in the ongoing conflicts in Syria, Iraq and Israel, and he uses his position as a government outsider to examine Turkey's internal dynamics from a fresh perspective. With unprecedented insight, searing commentary and a profound intellect, these essays by Ali Bula form an ideal introduction to the socio-cultural and political canvas of both Turkey and the Middle East.

A LANDMARK ON THE INDIAN CONSTITUTION Prasanna S, 2023-09-04 In the heart of India's rich legal history lies an extraordinary tale that changed the course of the nation's destiny. *A Landmark on the Indian Constitution* delves into the captivating story of a pivotal moment in the journey of India's democracy. Selections From Dynamics Of Democracy Introduction

In today's digital age, the availability of Selections From Dynamics Of Democracy books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Selections From Dynamics Of Democracy books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Selections From Dynamics Of Democracy books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Selections From Dynamics Of Democracy versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Selections From Dynamics Of Democracy books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Selections From Dynamics Of Democracy books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Selections From Dynamics Of Democracy books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion,

Selections From Dynamics Of Democracy books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Selections From Dynamics Of Democracy books and manuals for download and embark on your journey of knowledge?

FAQs About Selections From Dynamics Of Democracy Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Selections From Dynamics Of Democracy is one of the best book in our library for free trial. We provide copy of Selections From Dynamics Of Democracy in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Selections From Dynamics Of Democracy. Where to download Selections From Dynamics Of Democracy online for free? Are you looking for Selections From Dynamics Of Democracy PDF? This is definitely going to save you time and cash in something you should think about.
