non Chinese practitioners outside of China In 1998 the United States National Institutes of Health NIH held a consensus conference and endorsed the practice of acupuncture as an effective pain control agent since then acupuncture has become even more popular Clinical practice is always an inviting form of research In the field of acupuncture research concentrates on the neurological pathways of the meridians and acupoints the neurological functional changes within the central nervous system and innovative devices being invented etc It appears that there will be a long way before firm explanations can be acquired for the explanation of the physiological effects of acupuncture The technique of acupuncture is easily acquired although the evidence of efficacy remains subjective Before the evidence can be sorted out through scientific explorations confidence on efficacy can rely only on literature search and sharing of expert experiences This is a user friendly book for all professionals practicing acupuncture The contents consist of all the popular areas of clinical application viz pain control and neuromuscular training Each chapter is composed of two parts clinical evidences as previously recorded in literature and personal experiences of the author Acupuncture practice requires a thorough knowledge of the treatment choices relevant to particular conditions as well as their modifications This book offers quick references for this purpose *E-Book - The Channels of Acupuncture* Giovanni Maciocia,2006-08-28 One of the most highly regarded and respected authors and lecturers in the West Giovanni Maciocia illuminates and examines the art of traditional Chinese acupuncture with this in depth look at the secondary channels and other key structures encompassing the human body in Chinese anatomy This book describes in detail the pathways pathology diagnosis and treatment of the Luo Muscle and Divergent secondary channels as well as other key structures such as the Cou Li and Huang membranes and gives a thorough clear overview of subjects poorly understood and incompletely covered in other English language texts Over one third of the book is dedicated to the Eight Extraordinary Channels providing the reader with the most in depth information available in the English language Drawing on his broad clinical experience the author covers the energetic physiology pathology and points by body area providing ease of access for both the student and practitioner of acupuncture The Channels of Acupuncture presents comprehensive and clear information on an essential part of traditional Chinese medicine Covers key channels not thoroughly discussed in other texts giving all students and practitioners detailed and clear material to guide them in their practice of acupuncture Offers new information and insight on other key body structures in Chinese medicine including extraordinary vessels as well as the Cou Li and Huang membranes Clear illustrations depict the exact channel pathways diminishing any confusion about their location Case histories and research from Giovanni Maciocia present a wide range of experiences and examples of clinical practice and study *Serials in the British Library* ,1988 *American Journal of Acupuncture* ,1995 *Acupuncture* World Health Organization,2002-12-31 The therapy of acupuncture has a long history In its 2500 years of development a wealth of experience has been accumulated attesting to the wide range of diseases and conditions that can effectively be treated with its approach In the past two decades there have been extensive studies on acupuncture and great efforts have

been undertaken to conduct controlled clinical trials including the use of sham acupuncture or placebo acupuncture controls This document is a brief review of the current literature on acupuncture practice which may provide information about the effectiveness of different aspects of acupuncture therapy Since the methodology of clinical research on acupuncture is still under debate it is very difficult to evaluate acupuncture practice by any generally accepted measure In this publication only the results of controlled clinical trials that were formally published through the year 1998 and early 1999 for some journals are collected and reviewed so that the conclusions may be generally accepted In order to promote the appropriate use of acupuncture in those Member States where acupuncture has not been widely used this document is annexed with a brief abstract of each relevant reference for the assessment of acupuncture practice The clinical conditions covered in the existing data are also included It must be emphasized that the list of diseases symptoms or conditions covered in the publication is based on collected reports of clinical trials and so can serve only as a reference Only national health authorities can determine the diseases symptoms and conditions for which acupuncture treatment can be recommended
