Self And Immortality:

The Self and Immortality Hywel David Lewis,1985 Universe and Inner Self in Early Indian and Early Greek Thought Seaford Richard Seaford,2016-07-11 From the sixth century BCE onwards there occurred a revolution in thought with novel ideas such as such as that understanding the inner self is both vital for human well being and central to understanding the universe This intellectual transformation is sometimes called the beginning of philosophy And it occurred independently it seems in both India and Greece but not in the vast Persian Empire that divided them How was this possible This is a puzzle that has never been solved This volume brings together Hellenists and Indologists representing a variety of perspectives on the similarities and differences between the two cultures and on how to explain them It offers a collaborative contribution to the burgeoning interest in the Axial Age and will be of interest to anyone intrigued by the big questions inspired by the ancient world *The Secret of Your Immortal Self* Guy Finley,2015-01-08 Open the doors to self understanding and let go of suffering Guy Finley helps you seek a deeper relationship with the Divine and provides powerful insights on how to find a guiding light in any dark moment Filled with unique and meaningful essays this guide helps you remember a long forgotten part of your true timeless nature This recollection stirs the sleeping soul that once awakened leads you to the crowning moment of life contact with the immortal Self Once achieved this celestial union releases you from imagined self limitation and regret granting you the realization that death is not the end of life View the book trailer for *The Secret of Your Immortal Self* Praise for Guy Finley s *The Secret of Your Immortal Self* Guy Finley s *The Secret of Your Immortal Self* teaches us how to uproot the false beliefs underlying our fear anger uncertainty and self doubt and how we may access the inherent joy equanimity wisdom and creativity of our Authentic Self Michael Bernard Beckwith author of *Life Visioning* Guy Finley s thoughtful words of timeless wisdom in *The Secret of Your Immortal Self* will help inspire you to be your best self for yourself and for those you love Daniel G Amen MD NY Times Best Selling author of *Change Your Brain Change Your Life* Guy Finley embodies universal wisdom With his compassionate heart Guy teaches practical insights each of us can apply in our daily lives to realize our own divinity Philip M Hellmich Director of Peace at The Shift Network and author of *God and Conflict A Search for Peace in a Time of Crisis* Read all praise for *The Secret of Your Immortal Self*

Self, God and Immortality Eugene Fontinell,2018-09-18 Can we who have been touched by the scientific intellectual and experimental revolutions of modern and contemporary times still believe with and degree of coherence and consistency that we as individual persons are immortal Indeed is there even good cause to hope that we are In examining the present relationship of reason to faith can we find justifying reasons for faith These are the central questions in *Self God and Immortality* a compelling exercise in philosophical theology Drawing upon the works of William James and the principles of American Pragmatism Eugene Fontinell extrapolates carefully from data given in experience to a model of the cosmic process open to the idea that individual identity may survive bodily dissolution Presupposing that the possibility of personal

immortality has been established in the first part the second part of the essay is concerned with desirability Here Fontinell shows that far from diverting attention and energies from the crucial tasks confronting us here and now such belief can be energizing and life enhancing The wider importance of Self God and Immortality lies in its pressing both immortality believers and terminality believers to explore both the metaphysical presuppositions and the lived consequences of their beliefs It is the author s expressed hope that such explorations rather than impeding will stimulate co operative efforts to create a richer and more humane community

Rethinking the Western Understanding of the Self Ulrich

Steinvorth,2009-06-22 In this book Ulrich Steinvorth offers a fresh analysis and critique of rationality as a defining element in Western thinking Steinvorth argues that Descartes understanding of the self offers a more plausible and realistic alternative to the prevailing understanding of the self formed by the Lockean conception and utilitarianism When freed from Cartesian dualism such a conceptualization enables us to distinguish between self and subject Moreover it enables us to understand why individualism one of the hallmarks of modernity in the West became a universal ideal to be granted to every member of society how acceptance of this notion could peak in the seventeenth century and why it is now in decline though not irreversibly so Most importantly the Cartesian concept of the self presents a way of saving modernity from the dangers that it now encounters

Self Definition Teodros Kiros,2019-10-10

Self Definition argues that sex gender and race are constructions by the ineffable self as it seeks to define its possibilities free of domination The self s embodiments are themselves performances of self definition Teodros Kiros supports his argument by a careful reading of the literature from both the Global South and Global North that spans figures works and eras from antiquity to our late modern present These readings demonstrate that race gender and sex are performed in the Global South radically differently from in the Global North These three notions as markers of identity are fluid open and expansive and Kiros brilliantly shows this through inquiry into thought rooted in Egypt Ethiopia India and China By the time that the Global North forges possibilities of the self in the modern period race gender and sex become fixed Biology and anatomy become understood as destinies and the possibilities of the self are deeply constrained This book approaches case studies of key figures and movements chronologically and thematically and in doing so Kiros highlights the tensions between the openness of the Global South and the rigidity of the Global North through which human possibilities as exercises of self definition become clear under conditions of freedom Our views of self definition will forever be transformed after reading this important text

J.M.E.

McTaggart Ramesh K. Sharma,2015-12-03 J M E McTaggart seeks to critically expound and appraise the British philosopher

s thought with respect to three principal themes of his philosophy substance self and immortality Ramesh Kumar Sharma guides the reader through the labyrinths of McTaggart s intricate arguments and defends many of McTaggart s highly unorthodox doctrines and conclusions While doing this Sharma draws on the works of among others Berkeley Hegel and Leibniz and at the same time attacks numerous modern day physicalist theories that propound mind brain identity as against the presumed reality of the self and consciousness This work is thus recommended both for philosophers and researchers interested in 1 such perennial metaphysical subjects as reality existence possibility the basic ontological categories of substance qualities and relations universals 2 the question of the reality of the self 3 McTaggart s overall vision of the universe or Absolute and his rejection of the more or less predominant view that the Absolute is God 4 McTaggart s unique doctrine after Plato of the immortality of the self combined with the self s pre existence post existence and plurality of lives and 5 his extraordinary but important views on perception

Taylor,2019-04-23 This book deals with a central problem in the writings of Soren Kierkegaard the themes of time and the self as developed in the pseudonymous writings Arguing that a most effective way to grasp the unity of Kierkegaard s dialectic of the stages of existence is to focus on the dramatic presentation of time and the self that appears at each stage Mark C Taylor pursues these themes from the viewpoints of theology philosophy psychology and related areas of study The author works from the original texts and makes much use of untranslated primary and secondary material His concluding evaluation offerse a critical perspective from which to view Kierkegaard s interpretation of time and selfhood and indicates the importance of Kierkegaard s work for our time Mark C Taylor teaches religion at Williams College Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Self and Neighbour* Edward Wales Hirst,1919 *Handbook of Death and Dying* Clifton D. Bryant,2003-10 Dying is a social as well as physiological phenomenon Each society characterizes and consequently treats death and dying in its own individual ways ways that differ markedly These particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar economical educational religious and political implications The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work This two volume handbook will provide direction and momentum to the study of death related behavior for many years to come Key Features More than 100 contributors representing authoritative expertise in a diverse array of

disciplines Anthropology Family Studies History Law Medicine Mortuary Science Philosophy Psychology Social work Sociology Theology A distinguished editorial board of leading scholars and researchers in the field More than 100 definitive essays covering almost every dimension of death related behavior Comprehensive and inclusive exploring concepts and social patterns within the larger topical concern Journal article length essays that address topics with appropriate detail Multidisciplinary and cross cultural coverage The Vedanta Way to Peace and Happiness Swami Adiswarananda,2007

Guarded for centuries by saints and ascetics in the forests and mountains of India the universal principles of Vedanta were deemed too precious to be understood by the masses until Swami Vivekananda first introduced them in the West at the end of the nineteenth century Today Vedanta s principles of self awareness self knowledge and self control are available for anyone who wants to enrich their life by following this ancient tradition Fusing science philosophy meditation and contemplation these timeless teachings encourage spiritual growth by inviting critical inquiry encouraging honest doubt and providing realistic explanations of the mysteries of spiritual quest This comprehensive guide examines in detail the tenets of Vedanta its relationship to other spiritual paths as well as its applications for your own spiritual journey such as
