Collective Labour Rights for Self-Employed Workers Charalampos Stylogiannis, 2023-08-22 Platform work arrangements are often defended as an expression of technological progress with the potential to enable people to work as self employed individuals often without any supervision or control However by now it is well documented that platform work not only shares important features of flexibility and precariousness with other casual work arrangements that are on the rise around the world but it also entails the risk of excluding a significant portion of workers from the protection of fundamental collective labour rights including their coverage from collective agreements In this important and timely book the author shows how a human rights based approach HRBA towards collective labour rights can bridge this protection gap Such an approach identifies workers regardless of their employment status as rights holders that are entitled to rights like the right to collective bargaining derived from international human rights and labour rights instruments Fully describing the phenomenon of platform work as well as presenting a detailed global overview of responses related to the challenges stemming from platform work arrangements the research inter alia covers aspects such as the following problems challenges and questions related to platform work arrangements and how those are linked to broader labour market trends platform work s deeper foundational implications for labour law legal developments related to the regulation of platform work with an assessment of their limits when it comes to collective labour rights also recognised as human rights various ways in which platform workers and other atypical workers have managed to exercise their collective labour rights and promising indications of closer cooperation between organised labour and workers in non standard forms of employment The analysis draws on international human rights and labour rights treaties and conventions domestic legislation and regulations rulings from international and national courts and interpretative and authoritative sources including the relevant legal literature The book manifests and responds to a genuine need for in depth research with respect to the protection of the human rights of platform workers with an analytical framework that will ensure their adequate protection Its crucial observations will be welcomed by practitioners in labour law human rights law and competition law as well as by academics human resources professionals and labour and employment policymakers

inventing new forms of worker representation and power *Making EI Work* Keith Banting, Jon Medow, 2013-04-08 Since the inception and design of Canada's Employment Insurance (EI) program the Canadian economy and labour market have undergone dramatic changes. It is clear that EI has not kept pace with those changes and experts and advocates agree that the program is no longer effective or equitable. *Making EI Work* is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths, weaknesses, and future directions of EI. The authors identify the strengths and weaknesses of the system and consider how it could be improved to better and more fairly support those in need. They make suggestions for facilitating a more efficient Canadian labour market and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future. The chapters that comprise *Making EI Work* informed the task force's final recommendations and form an engaging dialogue that makes the case for and defines the parameters of a reformed support system for Canada's unemployed. Solidarity First Robert O'Brien, 2009-01-01 Debates about social cohesion reflect the unease of contemporary society as we face growing inequality and economic restructuring. *Solidarity First* examines the concept and practice of social cohesion from the perspective of its impact on and significance for workers. Contributors examine the functioning of social cohesion at multiple levels. Standard approaches are challenged by highlighting the experiences of women and non-Canadians. Attempts to construct corporate forms of cohesion and community efforts to forge cohesion via the new cultural economy are investigated, while the relationship between cohesion in Canada and the international environment is examined by considering the international activity of Canadian civic actors, the failure of Canada to live up to international labour obligations, and the implications of International Labour Organization reforms for informal sector workers. *Solidarity First* concludes by arguing that reinvigorated worker solidarity is a prerequisite to moving toward a more worker-friendly form of social cohesion.
