Individual and Contextual Factors in the English Language Classroom Rahma Al-Mahrooqi, Christopher J. Denman, 2022-03-22 This edited volume examines a number of topics related to the roles of individual and contextual factors in English as second or foreign language ESL EFL settings by presenting chapters across the three sections of theoretical and pedagogical approaches teacher and learner research and research into the roles of technology The book has a focus on practical actions and recommendations related to individual and contextual factors in ESL EFL with a specific concern with issues of cognition metacognition emotion and identity and offers perspectives from a diverse range of international education settings For teachers of ESL EFL the effective recognition and integration of individual and contextual factors into the classroom may represent a significant challenge This is often the case in those settings where native English speaking teachers work in foreign language contexts where they may have limited understanding of local cultures and languages or where language instructors have class groups that are culturally and linguistically diverse In these and similar contexts the types and extent of individual and contextual factors impacting on language learning may challenge both learner and instructor expectations of what an effective and supportive classroom is While such a situation offers numerous opportunities for learners and teachers to expand their knowledge of themselves and each other it also presents the possibility for ineffective teaching and learning to occur It is within this framework that the book presents the latest theoretical pedagogical and research perspectives from around the world thereby providing a resource for all stakeholders with an interest in the roles individual and contextual factors play in the English learning process

Enhancing Self-esteem in the Classroom Denis Lawrence, 2006-03-01 Praise for the first edition The underlying philosophy of this practical book is that raising self esteem in pupils including dyslexics will lead to achievement of higher academic results and fewer behaviour problems This book is primarily for primary and secondary teachers but would provide much material for discussion among SpLD teachers given the unexpected and controversial results of Denis Lawrence s research Dyslexia Contact Many useful suggestions offered in this book about learning activities are likely to help pupils to feel better about themselves to learn to respect others and to experience how feelings can be expressed safely British Journal of Special Education Raising self esteem in pupils can lead to the achievement of higher academic results and fewer behavioural problems Outlining in simple terms what self esteem is and providing strategies to support it in the classroom this book includes clear explanations of the terminology and theory behind self esteem and lots of practical examples and useful activities for use with children The book also covers the main issues surrounding the self esteem of practitioners It sets out tried and tested strategies that teachers can use to recognise and reduce stress and maintain their self esteem This new edition has been fully updated and now
