Noonomy Sergey Bodrunov, 2024-11-26 In this visionary work the author suggests an original novel concept the general theory of a new industrial society of the second generation that evolves toward a new quality of public existence noonomy The volume explores the effect of modern technological shifts on human society The author shows that technologies are about to undergo qualitative changes that will create new opportunities for personal development and the satisfaction of wants and simultaneously engender risks associated with growth opportunities of human interference with nature and technogenic stress on the environment Based on the study of cutting edge technologies and resulting socioeconomic shifts Bodrunov makes the conclusion about the upcoming civilizational crisis The crisis can be overcome through the formation of a new industrial society of the second generation reliant on knowledge intensive material production and gradual removal of humans from immediate material production processes These two trends can fully develop only subject to the transition from the current socioeconomic formation to a non economic one the noonomy The book determines the limits of humans as rational self interested agents who make decisions to maximize their own interests who remain the key figure of mainstream economy In order to move beyond these

limits and prevent self destruction of human civilization the author proposes a new methodology for the organization of socioeconomic knowledge noonomy which uses technological progress to introduce a rational core into the management of the chaotically developing economy something which the author posits we have failed to accomplish so far due to cultural regression and moral decay Systematically substantiating his theory by drawing on a wide range of sources and extensive empirical data Dr Bodrunov incorporates various components of rational socio philosophical political and economic analysis with institutional theory and sociocultural analysis and focuses on the geopolitical economy approach to the issue under consideration The volume begins with a discussion of the basic principles of the research method used in the book along with the an explanation of how the key role of material production constitutes an essential principle that underlies the approach to explaining social development processes The author emphasizes an essential and ever increasing role of knowledge in the development of production technologies that occurs through a change in technological modes and is accompanied by changes in the structure of manufactured products and evolution in the level of saturation and structure of human wants The volume then assesses the first steps towards transitioning to a new stage of industrial production a new type of knowledge intensive material production that manufactures knowledge intensive products The volume considers the risks associated with the unchecked development of new technologies which while expanding opportunities for the satisfaction of human wants also increases environmental stress and requires the need for finding occupations for people who used to be employed in dying professions The volume examines how humans withdrawal from immediate production and the disappearance of economic relations serves as a non economic way of regulating production activities of an autonomous technosphere by steering its development in accordance with personal development needs Introducing the English speaking audience to a wide array of Russian twentieth century authors that are little known abroad and whose studies on technological economic and sociocultural transformations hold truly global significance this eye opening book will be of interest to those teaching and interested in the social philosophy of development of the human civilization and strategy of social and economic development

In Search of the Common Good Jack E. Brush, 2016-05-27 In Search of the Common Good Guideposts for Concerned Citizens is a sequel to the author s book Citizens of the Broken Compass Ethical and Religious Disorientation in the Age of Technology As the title indicates the work is not addressed to an academic audience but rather to a general readership i e to concerned citizens who are interested in thinking through some of the ethical and moral issues facing us today Still the book is not a work on ethics or even on morality in the strict sense but rather an attempt to locate certain guideposts for thinking about the common good in society The basic theme of the entire book is this Concern for the common good should be the context in which individual human rights are interpreted *The Self* Constantine Sedikides, Steven J. Spencer, 2011-02-25 This volume provides a cutting edge exposition to research on the self Sixteen authoritative overviews highlight the role of the self around four themes Throughout the volume the exposition is both scholarly and accessible It also offers critical

assessments along with thoughtful discussions of challenges and problems ahead as well as the generation of novel hypotheses As such the book aspires to influence the research agenda for several years to come **Self-Awareness in Health Care** Dev M Rungapadiachy,2017-09-16 Being self aware is particularly important for healthcare professionals who need to manage their cognitive affective and behavioural self in order to engage effectively in therapeutic relationships This book examines how self awareness can be developed and applied in practice by combining theoretical and practical approaches **Autonomy, Oppression, and Gender** Andrea Veltman,2014 This collection of new essays by leading scholars examines philosophical issues at the intersection of feminism and autonomy studies Contributors advance central debates in autonomy theory by examining basic components normative commitments and applications of autonomy with particular attention to issues of gender and oppression **Honing Self-Awareness of Faculty and Future Business Leaders** Payal Kumar,Tom Elwood Culham,Richard J.
