**Self, War, and Society** Mary Jo Deegan, 2017-09-08 George Herbert Mead 1863-1931 is a founding figure in the field of sociology His stature is comparable to that of his contemporaries Emile Durkheim and Max Weber Mead's contribution was a profound and unique American theory that analyzed society and the individual as social objects As Mead saw it both society and the individual emerged from cooperative democratic processes linking the self the other and the community Mary Jo Deegan a leading

scholar of Mead's work traces the evolution of his thought its continuity and change She is particularly interested in the most controversial period of Mead's work in which he addressed topics of violence and the nation state Mead's theory of war peace and society emerged out of the historical events of his time particularly World War I During this period he went from being a pacifist along with his contemporaries John Dewey and Jane Addams to being a strong advocate for war From 1917 1918 Mead became a leader in voicing the need for war based on his theory of self and society After the war he became disillusioned with President Woodrow Wilson with Americans failure to support mechanisms for international arbitration and with the political reasons for American participation in World War I He returned to a more pacifist and co operative model of behavior during the 1920s when he became less political more abstract and more withdrawn from public debate The book includes Deegan's interpretation of Mead's early social thought his friendship and family networks the historical context of America at war and the importance of analysis of violence and the state from Mead's perspective She also provides illustrative selections from Mead's work much of which was previously unpublished

Self, Nation, Text in Salman Rushdie's "Midnight's Children" Neil ten Kortenaar, 2004-01-21 Many non Indian readers find the historical and cultural references in Salman Rushdie's Midnight's Children demanding In his close reading of the novel Neil ten Kortenaar offers post colonial literary strategies for understanding Midnight's Children that also challenge some of the prevailing interpretations of the novel Using hybridity mimicry national allegory and cosmopolitanism all key critical concepts of postcolonial theory ten Kortenaar reads Midnight's Children as an allegory of history as a Bildungsroman and psychological study of a burgeoning national consciousness and as a representation of the nation He shows that the hybridity of Rushdie's fictional India is not created by different elements forming a whole but by the relationship among them Self Nation Text in Salman Rushdie's Midnight's Children also makes an original argument about how nation states are imagined and how national consciousness is formed in the citizen The protagonist Saleem Sinai heroically identifies himself with the state but this identification is beaten out of him until in the end he sees himself as the Common Man at the mercy of the state Ten Kortenaar reveals Rushdie's India to be more self conscious than many communal identities based on language it is an India haunted by a dark twin called Pakistan a nation in the way England is a nation but imagined against England Mistrusting the openness of Tagore's Hindu India it is both cosmopolitan and a specific subjective location

**First Nations Self-Government** Leroy Wolf Collar, 2020-01-17 Indigenous Peoples in Canada are continuing to assert their right to self determination in this era of reconciliation While dozens of Indigenous communities have signed varying forms of self government agreements with the federal government Indigenous Nations still face many obstacles along the path to true self determination As a former Chief of Siksika Nation in southern Alberta Leroy Wolf Collar dealt with many of the same problems other Indigenous Nations face across the country From serious housing shortages to the lack of opportunities for youth Chief Wolf Collar experienced the challenges and frustrations that come from operating in a colonial system still

constrained by the Indian Act How do Indigenous Peoples move on from this defective system Chief Wolf Collar identifies 17 issues that currently hinder Indigenous Nations including broken treaty promises problems with common forms of band administration and the intrusion of provincial governments along with potential solutions to overcome them This guide is for current and aspiring Indigenous leaders who want to increase their understanding of good governance management and leadership as well as those who want to explore issues around Indigenous self determination in Canada **National**

**Self-determination and Secession** Margaret Moore (Ph. D.),1998 In recent years numerous multi national states have disintegrated along national lines and today many more in both the first and the third worlds continue to witness bitter secessionist struggles The proliferation of national conflicts and secessionist movements has given rise to many important questions which urgently need to be addressed When is secession justified What is a people and what gives them a right to secede Is national determination consistent with liberal and democratic principles Or is it a dangerous doctrine In the years following 1991 when Allen Buchanan published Secession a number of competing theories of the ethics of secession have been put forward This pathbreaking study by a host of leading figures in the field brings together for the first time a series of original essays on these theories Offering fresh insight into debates about contested territory the problem of minorities and the place of secession in resolving national conflicts this volume provides a much needed philosophical discussion of the normative implications of nationalism **S. 2132, Indian Tribal Energy Development and Self-Determination Act**

**Amendments of 2014** United States. Congress. Senate. Committee on Indian Affairs (1993- ),2014 **Open Self-reliant Regionalism** Li Choy Chong,1981 This book is addressed to the problem of Southeast Asia s powerlessness in relation to the control over developmental resources Based on a discussion of previous conceptions and the reality of the relationship between development and international relations in Southeast Asia a theory of international power and relation which determines resource allocation and hence developmental capacity is evolved Unlike the conception of power in other theories this theory differentiates between two generic types of power namely systemic power which is based on dependence implied in the system of international relations and asystemic power which is based on various attributes of nations From this theory the strategy of open self reliant regionalism is developed and applied to ASEAN This strategy manipulates international balances of powers and dependence in order to benefit ASEAN Through the application of this strategy ASEAN countries may be able to obtain the capacity to control more developmental resources and hence to apply them for their own development

**H.R. 3994, Department of the Interior Tribal Self-Governance Act of 2007** United States. Congress. House. Committee on Natural Resources,2008 The Right to Self-Determination in the South Caucasus Bahruz Balayev,2013-02-07 The Right to Self Determination in the South Caucasus Nagorno Karabakh in Context by Bahruz Balayev explores the relationship in international law between the concept of self determination and territorial integrity in the context of the Caucasus region This study brings together the various self determination movements of the Caucasus

Nagorno Karabakh South Ossetia Adjara Abkhazia and Chechnya and provides a comparative analysis The August 2008 war in Georgia and the proclamation of independence of Kosovo renewed the discussion over the right to self determination in international law Has the right to self determination evolved since the solutions to the conflicts over self determination are now determined in a new manner or should it Will the question of self determination in different regions of the world be a spark for a new cold war Unilateral declarations and the recognition of independence of South Ossetia Abkhazia and Kosovo could be the first spark These are the pressing questions because there are many self determination and secession movements all over the world The Right to Self Determination in the South Caucasus is a unique tool for scholars researchers and the public in understanding South Caucasus regional conflicts from the New Haven School perspective

**Self-Determination of Peoples** Antonio Cassese,1995 The self determination of peoples is a major issue in the world community both radical and subversive it serves to grant statehood to oppressed peoples but also to disrupt existing State structures This book the first comprehensive legal account sets out to trace how this political ideal has turned into an international legal standard Scrutinising State practice through national digests and UN proceedings the author pinpoints the limits within which this political postulate has gained a foothold in the body of international law and assesses the extent to which it has had an impact on existing legal norms This is primarily a legal inquiry which however looks at law within its historical and political context and given its judicial underpinning makes an important contribution to the study of the interplay of law history and politics in international relations *Sexual Self-Fashioning* Rahil Roodsaz,2022-11-11 Sexuality and gender have come to serve as measures for cultural belonging in discussions of the position of Muslim immigrants in multicultural Western societies While the acceptance of assumed local norms such as sexual liberty and gender equality are seen as successful integration rejecting them is regarded as a sign of failed citizenship Focusing on premarital sex homosexuality and cohabitation outside marriage this book provides an ethnographic account of sexuality among the Iranian Dutch It argues that by embracing rejecting and questioning modernity in stories about sexuality the Iranian Dutch actively engage in processes of self fashioning S. 919, the Department of Interior Tribal Self-Governance Act of 2013 United States. Congress. Senate. Committee on Indian Affairs (1993- ),2014 **Symbolic Self Completion** R. A. Wicklund,P. M. Gollwitzer,2013-10-31 First published in 1982 The problem addressed in this volume is the human pursuit of self definitions Self definitions can vary widely with respect to the context in which they are found and in regard to who aspires to possess them Violinist mother humanitarian intellectual equestrian and French speaker are all examples of self definitions

Origins of the Right of Self-Defence in International Law Tadashi Mori,2018-02-12 This book examines a long standing dispute regarding the prerequisite for the exercise of the right to self defence and aims to offer a possible better alternatives for interpreting the significance of the precondition provided for in the Article 51 of the United Nations Charter by taking a historical perspective on the development of that concept from the mid 19th century to 1945 The book defines the right of

self defence as understood in and before 1945 suggesting the typology which represents the strata of the concept It will contribute to the current debate regarding the right of self defence in contemporary international law including that against terrorism by providing a framework to analyse the state practice since 1945      **Hearings** United States. Congress Senate,1967      The Sword Arm Dr. Sanu Kainikara,2019-04-10 Military forces have long been the arbiters of national security and continues to be at the vanguard of assuring the sovereignty and stability of a nation This is an enduring fact However in the past few decades the role of the military forces have undergone an evolutionary change and now spans a much broader spectrum of activities than ever before Accordingly the responsibilities placed on the military forces especially in democratic nations have also undergone an upward revision These changes have altered the status and stature of military forces This book analyses the changing position of military forces and their relationship with other elements of national power vis vis the need to ensure national security The analysis is carried out in great detail starting with a discussion of national policy grand strategy and their connection to the military forces and ending with a discussion of the status of military forces in the national security calculus It is arranged into five independent sections that contain twenty chapters The Sword Arm examines the hypothesis that irrespective of the broad definition of national security that is prevalent in modern times and the whole of government approach that most democracies have adopted to ensure the security and safety of the nation military forces continue to be at the vanguard of national security initiatives On the other hand democratic nations have a proclivity to sideline the military forces in times of relative peace which could be detrimental to the overall security of the nation The book critically investigates this dichotomy and suggests that in 21st century democracies military forces need to be strengthened to ensure the security of the nation      **Diversity and Self-Determination in International Law** Karen Knop,2002-04-18 The emergence of new states and independence movements after the Cold War has intensified the long standing disagreement among international lawyers over the right of self determination especially the right of secession Knop shifts the discussion from the articulation of the right to its interpretation She argues that the practice of interpretation involves and illuminates a problem of diversity raised by the exclusion of many of the groups that self determination most affects Distinguishing different types of exclusion and the relationships between them reveals the deep structures biases and stakes in the decisions and scholarship on self determination Knop s analysis also reveals that the leading cases have grappled with these embedded inequalities Challenges by colonies ethnic nations indigenous peoples women and others to the gender and cultural biases of international law emerge as integral to the interpretation of self determination historically as do attempts by judges and other institutional interpreters to meet these challenges      Internal Self-Determination in International Law Kalana Senaratne,2021-08-05 A clear and accessible study of the principle of internal self determination in international law
